[Project No. 13800–000]

Osprey II, LLC; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

October 19, 2010.

On June 28, 2010, Osprey II, LLC filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of the 649 Water Street Project to be located on the Cobbosseecontee Stream, in Kennebec County, Maine. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed project would consist of: (1) A new intake structure with trash racks; (2) a new 6-foot-diameter, 1,900-foot-long buried concrete penstock; (3) a new approximately 400-square-foot powerhouse containing two new turbines and generators with a total

installed capacity of 1.5 megawatts; (4) a new tailrace; (5) a new 7.2 or 12.47-kilovolt transmission line connecting to an existing distribution line immediately adjacent to the proposed powerhouse; and (6) appurtenant facilities. The project would have an estimated annual generation of 8,760 megawatt-hours.
