Bishop Tungsten Development, LLC; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

October 20, 2010.

On November 9, 2009, Bishop Tungsten Development, LLC filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of the Pine Creek Mine Water Discharge System Site 3 Project to be located near the town of Bishop, in Inyo County, California. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

An existing network of penstocks collect and convey the existing Pine Creek Mine discharge water above the project area. The mine discharge averages up to 14 cfs. The proposed project would utilize a single, approximately 20-inch-in-diameter conduit within the project area that would convey the discharge water to the turbine where the pressure would be reduced. The applicant proposes to interconnect with an existing 56kilovolt transmission line, maintained by Southern California Edison, which runs the length of the canyon. The estimated annual generation of the project would be 6,850,000 kilowatt-

Applicant Contact: Douglas A. Hicks, Bishop Tungsten Development, LLC, 725 9050 Pine Creek Road, Bishop, CA 93514; phone: (706) 387–2080.

[Project No. 13821-000]

ORPC Alaska 2, LLC; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

October 20, 2010.

On August 2, 2010, and supplemented on September 27, 2010, and October 7, 2010, ORPC Alaska 2, LLC filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of the East Foreland Tidal Energy Project (East Foreland project) to be located in Cook Inlet in the vicinity of Nikiski, Alaska, in the Municipality of Anchorage and Matanuksa-Susitna Borough, Alaska. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed project will consist of the following: (1) A series of 150kilowatt (kW) TideGen and/or 150-kW

OCGen turbine-generator modules with a combined capacity between 5 megawatts (MW) and 100 MW; (2) a 1to 8-mile-long, 13.5-kilovolt (kV) direct current underwater transmission cable from the module site to a shore station on the west coast of the Kenai Peninsula; (3) an approximately 0.25mile-long, 4.16- to 34.5-kV alternating current terrestrial transmission line connecting the shore station to a substation site located on the Kenai Peninsula; and (4) appurtenant facilities. The estimated annual generation of the East Foreland project would be between 13,000 and 340,000 megawatt-hours.

Applicant Contact: Monty Worthington, Director of Project Development, ORPC Alaska, LLC, 725 Christensen Drive, Suite A, Anchorage, AK 99501; phone: (907) 339–7939.

FERC Contact: Jennifer Harper (202) 502–6136.
