SUPPLEMENTARY INFORMATION:

History

On July 27, 2010, the FAA published in the **Federal Register** a notice of proposed rulemaking to amend Class E airspace for Kaiser/Lake Ozark, MO, creating additional controlled airspace at Camdenton Memorial Airport (75 FR 43885) Docket No. FAA-2010-0604. Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal to the FAA. No comments were received. Class E airspace designations are published in paragraph 6005 of FAA Order 7400.9U dated August 18, 2010, and effective September 15, 2010, which is incorporated by reference in 14 CFR Part 71.1. The Class E airspace designations listed in this document will be published subsequently in the Order.

The Rule

This action amends Title 14 Code of Federal Regulations (14 CFR) Part 71 by adding additional Class E airspace extending upward from 700 feet above the surface to accommodate SIAPs at Camdenton Memorial Airport, Camdenton, MO. This action will enhance IFR operations at the airport within the Kaiser/Lake Ozark, MO, area.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation: (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT

Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the U.S. Code. Subtitle 1, Section 106, describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it amends controlled airspace at Camdenton Memorial Airport within the Kaiser/Lake Ozark, MO, area.

**Revocation of Restricted Areas R-3807
Glencoe, LA, and R-6320 Matagorda,
TX**

AGENCY: Federal Aviation
Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action removes Restricted Areas R-3807 Glencoe, LA, and R-6320 Matagorda, TX. These restricted areas were originally established to contain aerostat balloons used in detecting illegal entry across the southern border of the United States. The aerostat balloons have not been operational for several years and the United States Air Force (USAF) has no intent to replace them. Therefore, the FAA has determined that a valid requirement for the airspace no longer exists.

DATES: Effective date 0901 UTC, January 13, 2011.

FOR FURTHER INFORMATION CONTACT: Colby Abbott, Airspace, Regulations and ATC Procedures Group, Office of Airspace Services, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591; telephone: (202) 267-8783.

SUPPLEMENTARY INFORMATION:

The Rule

This action amends 14 Code of Federal Regulations (CFR) part 73 by

removing Special Use Airspace R-3807 Glencoe, LA, and R-6320 Matagorda, TX. The Department of Defense no longer has a use for the two restricted areas, which were originally established as Tethered Air Radar Sites (TARS) to contain aerostat balloons used in detecting illegal entry across the southern border of the United States. The aerostat balloons have not been operational for several years and the USAF has no intent to replace them. Additionally, the USAF no longer controls the surface lands underlying the restricted areas and has taken action to terminate leases and return the control of the lands to the owners. Therefore, the FAA has determined that a valid requirement for the airspace no longer exists and the restricted areas are being returned to the National Airspace System.

Sections 73.38 and 73.63 of 14 CFR part 73 were published in FAA Order 7400.8S, dated February 16, 2010.

Since this action reduces restricted airspace, the solicitation of comments would only delay the return of airspace to public use without offering any meaningful right or benefit to any segment of the public; therefore, notice and public procedure under 5 U.S.C. 553(b) are unnecessary.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this action: (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1E, "Environmental Impacts: Policies and Procedures." paragraph 311c. This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment.
