Petition for Waiver of Compliance

In accordance with part 211 of title 49 Code of Federal Regulations (CFR), notice is hereby given that the Federal Railroad Administration (FRA) has received a request for a waiver of compliance from certain requirements of its safety standards. The individual petition is described below, including the party seeking relief, the regulatory provisions involved, the nature of the relief being requested, and the petitioner's arguments in favor of relief.

Austin & Texas Central Railroad

(Waiver Petition Docket Number FRA–2010–0149)

The Austin & Texas Central Railroad (ATCX), a Class III railroad, seeks a waiver of compliance from the requirements of 49 CFR part 223, Safety Glazing Standards 49 CFR 223.15 *Requirements for existing passenger cars*. Specifically, ATCX has petitioned for one lightweight passenger car built in 1948, for the Denver Rio Grande & Western Railway in 1948. ATCX operates this car on 154.1 miles of track owned by the Capital Metro Transit Authority. Since the railroad's creation in 1992, the railroad has operated primarily between milepost (MP) 54.5 at Milby in Austin, Texas, and MP 115.0 at Burnet, Texas. Since before 1992, there have been no acts of vandalism involving any glazing location associated with the operation of a train. The railroad operates five other cars that operate under a previous waiver (Docket Number FRA–2008–0066). The maximum authorized speed for this train is 20 mph.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments.
