The Proposal

This action proposes to amend title
14, Code of Federal Regulations (14
CFR), part 71 by adding Class E airspace
extending upward from 700 feet above
the surface for a new COPTER RNAV
(POINT-IN-SPACE) SIAP at Clarian
Arnett Heliport, Lafayette, IN.
Controlled airspace is needed for the
safety and management of IFR
operations at the heliport.

Class E airspace areas are published
in Paragraph 6005 of FAA Order
7400.9U, dated August 18, 2010, and
effective September 15, 2010, which is
incorporated by reference in 14 CFR
71.1. The Class E airspace designation
listed in this document would be
published subsequently in the Order.

The FAA has determined that this
proposed regulation only involves an
established body of technical
regulations for which frequent and
routine amendments are necessary to
keep them operationally current. It,
therefore, (1) is not a "significant
regulatory action" under Executive
Order 12866; (2) is not a "significant
rule" under DOT Regulatory Policies
and Procedures (44 FR 11034; February
26, 1979); and (3) does not warrant
preparation of a Regulatory Evaluation
as the anticipated impact is so minimal.
Since this is a routine matter that will
only affect air traffic procedures and air
navigation, it is certified that this rule,
when promulgated, will not have a
significant economic impact on a
substantial number of small entities
under the criteria of the Regulatory
Flexibility Act.

The FAA's authority to issue rules
regarding aviation safety is found in
Title 49 of the U.S. Code. Subtitle 1,
section 106 describes the authority of
the FAA Administrator. Subtitle VII,
Aviation Programs, describes in more
detail the scope of the agency's
authority. This rulemaking is
promulgated under the authority
described in subtitle VII, part A, subpart
I, section 40103. Under that section, the
FAA is charged with prescribing
regulations to assign the use of airspace
necessary to ensure the safety of aircraft
and the efficient use of airspace. This
regulation is within the scope of that
authority as it would add controlled
airspace at Clarian Arnett Heliport,
Lafayette, IN.
