Total Annual Burden: 859 hours.

Nature and Extent of Confidentiality: The Commission is not requesting that the respondents submit confidential information to the Commission. If the Commission requests applicants to submit information that the respondents believe is confidential, respondents may request confidential treatment of such information under 47 CFR 0.459 of the Commission's rules.

The Commission is requesting an extension (no change in the reporting requirements and/or recordkeeping requirements) of this information collection. There is no change in the Commission's burden estimates.

The Commission, in 2004, adopted the Joint Conference's recommendations to reinstate the following Part 32 accounts:

Account 5230, Directory revenue;
Account 6621, Call completion services;
Account 6622, Number services;
Account 6623, Customer services;
Account 6561, Depreciation expense—telecommunications plant in service;
Account 6562, Depreciation expense—property held for future telecommunications use;
Account 6563, Amortization expense—tangible;
Account 6564, Amortization expense—intangible; and

Account 6565, Amortization expense—other.

These accounting changes are mandatory only for Class A Incumbent Local Exchange Carriers (ILECs). The reinstatement of these accounts imposed a minor increase in burden only Class A ILECs only.

The Commission also established a recordkeeping requirement that Class A ILECs maintain subsidiary record categories for unbundled network element revenues, resale revenues, reciprocal compensation revenues, and other interconnection revenues in the accounts in which these revenues are currently recorded.

The use of subsidiary record categories allows carriers to use whatever mechanisms they choose, including those currently in place, to identify the relevant amounts as long as the information can be made available to state and federal regulators upon request. The use of subsidiary record categories for interconnection revenue does not require massive changes to the ILECs' accounting systems and is a far less burdensome alternative than the creation of new accounts and/or subaccounts.

The information submitted to the Commission by carriers provides the necessary detail to enable the Commission to fulfill its regulatory responsibilities.

Federal Communications Commission.

Secretary.
