The transaction is scheduled to be consummated on December 1, 2010, the effective date of the exemption (30 days after the exemption was filed).

SUPPLEMENTARY INFORMATION:

Receipt of Application

On September 28, 2010, the Maritime Administration and U.S. Coast Guard received an application from Liberty Natural Gas LLC for all Federal authorizations required for a license to own, construct, and operate a deepwater port authorized under the Deepwater

Port Act of 1974, as amended, 33 U.S.C. 1501 *et seq.* (the Act). On November 1, 2010, we determined the application contained all information required by the Act to initiate processing.

Background

According to the Act, a deepwater port is a fixed or floating manmade structure other than a vessel, or a group of structures, located beyond state seaward boundaries and used or intended for use as a port or terminal for the transportation, storage, and further handling of oil or natural gas for transportation to any state.

The Maritime Administrator possesses the authority to license a deepwater port (by delegation from the Secretary of Transportation, published on June 18, 2003 (68 FR 36496)). Statutory and regulatory requirements for licensing appear in 33 U.S.C. 1501 *et seq.* and in 33 CFR Part 148. Under delegations from, and agreements between, the Secretary of Transportation and the Secretary of Homeland Security, applications are jointly processed by the Maritime Administration and U.S. Coast Guard. Each application is considered on its own merits.

The Act imposes a strict timeline for processing an application. Once we determine that an application contains the required information, we must hold public hearings on the application within 240 days, and the Maritime Administrator must render a decision on the application within 330 days. We will publish additional **Federal Register** notices to inform you of these public hearings and other procedural milestones, including the environmental review. The Maritime Administrator's decision, and other key documents, will be filed in the public docket.

At least one public hearing must take place in each adjacent coastal state. Pursuant to the criteria provided in the Act, New Jersey and New York are adjacent coastal states for this application. Other states may apply for adjacent coastal state status in accordance with 33 U.S.C. 1508(a)(2).

Summary of the Application

Liberty Natural Gas, LLC, proposes to own, construct, and operate a natural gas deepwater port, known as Liberty Deepwater Port. It would be located approximately 16 miles off the coast of New Jersey to the east of Asbury Park in a water depth of approximately 100 to 120 feet. It will connect via offshore pipeline to a 9.2 mile onshore pipeline that will traverse through Perth Amboy, Woodbridge and Carteret in Middlesex County, New Jersey and terminate in Linden, Union County, New Jersey.
