

Other Information: Additional information about APHIS and its programs is available on the Internet at <http://www.aphis.usda.gov>.

FOR FURTHER INFORMATION CONTACT: For information on regulations for the interstate movement of regulated articles to prevent the spread of South American cactus moth, contact Dr. Robyn Rose, Program Manager, Emergency and Domestic Programs, PPQ, APHIS, 4700 River Road Unit 26, Riverdale, MD 20737; (301) 734-7121. For copies of more detailed information on the information collection, contact Mrs. Celeste Sickles, APHIS' Information Collection Coordinator, at (301) 851-2908.

SUPPLEMENTARY INFORMATION:

Title: South American Cactus Moth; Quarantine and Regulations.

OMB Number: 0579-0337.

Type of Request: Extension of approval of an information collection.

Abstract: As authorized by the Plant Protection Act (7 U.S.C. 7701 *et seq.*) (PPA), the Secretary of Agriculture, either independently or in cooperation with States, may carry out operations or measures to detect, eradicate, suppress, control, prevent, or retard the spread of plant pests that are new to or not widely distributed within the United States. This authority has been delegated to the Animal and Plant Health Inspection Service (APHIS) of the U.S. Department of Agriculture, which administers regulations to implement the PPA.

In accordance with the regulations in "Subpart—South American Cactus Moth" (§§ 301.55 through 301.55-9), APHIS restricts the interstate movement of cactus moth host material, including nursery stock and plant parts for consumption, from infested areas of the United States to help prevent the artificial spread of South American cactus moth into noninfested areas of the United States. The regulations contain requirements for the interstate movement of regulated articles and involve information collection activities, including compliance agreements (PPQ Form 519), limited permits (PPQ Form 530), and certificates (PPQ Form 540).

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper

performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; *e.g.*, permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.32352 hours per response.

Respondents: State plant health officials.

Estimated annual number of respondents: 6.

Estimated annual number of responses per respondent: 5.6666.

Estimated annual number of responses: 34.

Estimated total annual burden on respondents: 11 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC on November 15, 2010.

Kevin Shea,

Acting Administrator, Animal and Plant Health Inspection Service.
