**ICR numbers:** EPA ICR No. 1422.21, OMB Control No. 2050-0085.

**ICR Status:** This ICR is scheduled to expire on November 30, 2010. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or

form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

**Abstract:** Section 3004 of the Resource Conservation and Recovery Act (RCRA), as amended, requires that EPA develop standards for hazardous waste treatment, storage, and disposal as may be necessary to protect human health and the environment. Subsections 3004(d), (e), and (g) require EPA to promulgate regulations that prohibit the land disposal of hazardous waste unless it meets specified treatment standards described in subsection 3004(m).

The regulations implementing these requirements are codified in the Code of Federal Regulations (CFR) Title 40, Part 268. EPA requires that facilities maintain the data outlined in this ICR so that the Agency can ensure that land disposed waste meets the treatment standards. EPA strongly believes that the recordkeeping requirements are necessary for the agency to fulfill its congressional mandate to protect human health and the environment.

This ICR incorporates the ICR for the LDR No-Migration Variances (OMB Control Number 2050-0062).

**Burden Statement:** The annual reporting and recordkeeping burden for this ICR is approximately 6.21 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

**Respondents/Affected Entities:** Entities potentially affected by this action are private sector and State, Local, or Tribal governments.

**Estimated Number of Respondents:** 194,560.

**Frequency of Response:** On occasion.

**Estimated Total Annual Hour Burden:** 1,208,382.

**Estimated Total Annual Cost:** \$162,092,988, includes \$64,195,885 annualized labor costs and \$97,897,103 annualized capital or O&M costs.

*Changes in the Estimates:* There is an increase of 42,045 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This increase is due to the addition of the LDR “No-Migration” Variance universe and revised estimates for the time required to respond.

Dated: November 17, 2010.

[FRL–9230–1]

### Clean Water Act Section 303(d): Availability of List Decisions Correction

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Correction: Notice of Availability.

**SUMMARY:** This action corrects a **Federal Register** notice that published on November 9, 2010 at 75 FR 68783 announcing the availability of EPA decisions identifying water quality limited segments and associated pollutants in California to be listed pursuant to Clean Water Act section 303(d)(2), and requests public comment. This announcement corrects the previously published decision date and public comment deadline. Section 303(d)(2) requires that states submit and EPA approve or disapprove lists of waters for which existing technology-based pollution controls are not stringent enough to attain or maintain state water quality standards and for which total maximum daily loads (TMDLs) must be prepared.

On November 12, 2010 EPA approved California’s 2008–2010 submitted 303(d) list of impaired waters and associated pollutants and disapproved California’s decisions not to list several water quality limited segments as impaired and additional associated pollutants for several others. EPA identified these additional water bodies and pollutants for inclusion on the State’s 2008–2010 section 303(d) list. The waterbodies and associated pollutants are identified in Table 3 of the decision document available at the Web site link provided below.

EPA is providing the public the opportunity to review its decisions to add waters and pollutants to California’s 2008–2010 section 303(d) list, as required by EPA’s Public Participation

regulations. EPA will consider public comments received, and may revise its decision if appropriate. EPA solicits public comment only on the additional waters and associated pollutants for inclusion on California’s 2008–2010 Section 303(d) list.

**DATES:** Comments must be submitted to EPA on or before December 23, 2010.

**FOR FURTHER INFORMATION CONTACT:**

Comments on the proposed decisions should be sent to Valentina Cabrera Stagno or Dave Guiliano, Water Division (WTR–2), U.S. Environmental Protection Agency Region IX, 75 Hawthorne Street, San Francisco, CA 94105, telephone (415) 972–3434 or (415) 947–4133, facsimile (415) 947–3537, e-mail [cabrera-stagno.valentina@epa.gov](mailto:cabrera-stagno.valentina@epa.gov) or [guiliano.dave@epa.gov](mailto:guiliano.dave@epa.gov). Oral comments will not be considered. Material concerning California’s 303(d) list which explain the rationale for EPA’s decisions are available on EPA Region IX’s Web site at <http://www.epa.gov/region9/water/tmdl/california.html> or by writing or calling Valentina Cabrera Stagno or Dave Guiliano. Underlying documentation comprising the record for these decisions is available for public inspection at the above address.

Dated: November 12, 2010.
