**SUPPLEMENTARY INFORMATION:****I. Background**

DFARS 252.204-7007, Alternate A, Annual Representations and Certifications, was structured to supplement paragraph (d) of FAR 52.204-8, Annual Representations and

Certifications (formerly paragraph (c)). FAR 52.204-8 was changed to add a new paragraph (c), which indicates the applicable representations and certifications in ORCA. The representations and certifications in ORCA are those provisions and clauses listed in the prescribing language contained in FAR 4.1202. The change also requires the DFARS representations and certifications in ORCA to be listed in DFARS 252.204-7007. The DFARS representations and certifications are those provisions and clauses contained in the prescribing language listed in DFARS 204.1202.

Further, DFARS 252.212-7000, Offeror Representations and Certifications-Commercial Items, should be removed from DFARS 204.1202(2)(ii). The prescribing language requires inclusion of this provision in all solicitations for commercial items exceeding the simplified acquisition threshold. Further, the inclusion of 252.204-7007, Alternate A, Annual Representations and Certifications, is applicable when the provision at FAR 52.204-8, Annual Representations and Certifications, is included in solicitations, except for commercial item solicitations.

In addition, the proposed changes include the following:

- Delete the reference to 252.216-7003, and 252.239-7011 from DFARS 204.1202, because these are clauses, not provisions.
- Revise DFARS 252.204-7007 to incorporate the listing of representations or certifications in ORCA that are applicable to the solicitation.
- Address in paragraph (d) of DFARS 252.204-7007 the applicability of representations and certifications in ORCA, as set forth in provisions and clauses at DFARS 252.209-7005, 252.225-7000, 252.225-7020, 252.225-7022, 252.225-7031, 252.225-7035, 252.225-7042, 252.229-7003, 252.229-7005, and 252.247-7022.

**II. Executive Order 12866**

This is not a significant regulatory action and, therefore, was not subject to review under section 6(b) of Executive Order 12866, Regulatory Planning and Review, dated September 30, 1993.

**III. Regulatory Flexibility Act**

DoD does not expect this proposed rule to have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*, because the change is to internal Government operating procedures. Therefore, an initial regulatory flexibility analysis has not been

performed. DoD invites comments from small entities and other interested parties.

DoD will also consider comments from small entities concerning the affected DFARS subparts in accordance with 5 U.S.C. 610. Interested parties must submit such comments separately and should cite 5 U.S.C. 601, *et seq.*, (DFARS case 2009-D011), in correspondence.

**IV. Paperwork Reduction Act**

The Paperwork Reduction Act does not apply, because the rule does not impose any information collection requirements that require the approval of the Office of Management and Budget under 44 U.S.C. 3501, *et seq.*

**Authority:** 41 U.S.C. 421 and 48 CFR chapter 1.

**SUPPLEMENTARY INFORMATION:**

## I. Background

This DFARS case was initiated at the request of the DoD Source Selection Joint Analysis Team (JAT), chartered by the Deputy Under Secretary of Defense (Acquisition, Technology, and Logistics) to revise the DoD source selection procedures (which are being published separately).

In their examination of current source selection processes utilized within the DoD, members of the JAT determined that there is a significant positive correlation between high-dollar value source selections conducted without discussions and protests sustained. Therefore, to improve the quality of high-dollar value, more complex source selections and reduce turbulence and inefficiency resulting from sustained protests, the JAT recommended that discussions prior to award be strongly encouraged for source selections with a dollar value of \$100 million or more.

DoD research has indicated that holding meaningful discussions with industry prior to contract award on high-dollar value, complex requirements improves both industry's understanding of solicitation requirements and the Government's understanding of industry issues. By identifying and discussing these issues prior to submission of final proposals, the Government is often able to issue clarifying language. The modified requirements documentation allows
