

POLICY JUSTIFICATIONJapan – Mission Equipment for AWACS Aircraft

The Government of Japan has requested installation and checkout of four previously procured Radar System Improvement Program (RSIP) Group A and B kits in E-767 Airborne Warning and Control Systems (AWACS). Also provided are the transportation of the E-767s to/from Japan, spare and repair parts, support and test equipment, publications and technical documentation, U.S. Government and contractor personnel support services, and other related program elements to ensure complete AWACS mission equipment supportability. The estimated cost is \$119 million.

Japan is one of the major political and economic powers in East Asia and the Western Pacific and a key ally of the United States in ensuring peace and stability in that region. It is vital to the U.S. national interest to assist Japan with developing and maintaining a strong and ready self-defense capability, which will contribute to an acceptable military balance in the region. The proposed sale is consistent with U.S. objectives and the 1960 Treaty of Mutual Cooperation and Security.

Japan previously purchased four sets of AWACS RSIP Group A and B kits mission equipment to enhance the operational capability of its E-767 radar electronic counter-measures, and now requires this Installation and Checkout to integrate extended Airborne Early Warning (AEW) capability as well as enhanced command, control and communications (C3).

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be Boeing Aerospace Company in Seattle, Washington. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government and contractor representatives to Japan.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

POLICY JUSTIFICATION

Iraq – Command, Control, Communications, Computers, Intelligence, Surveillance and Reconnaissance (C4ISR) Systems

The Government of Iraq has requested a possible sale for Command, Control, Communications, Computers, Intelligence, Surveillance and Reconnaissance (C4ISR) Systems which includes, High Frequency, Ultra High Frequency, and Very High Frequency radios, Automatic Identification System, Surface Scan Radar System, Forward Looking Infrared System, Situational Display System, Mobile and Fixed Towers, Electro-Optical Cameras, Voice Over Internet Protocol, K Under Band Very Small Aperture Terminal upgrades, generators, spare and repair parts, support equipment, publications and technical data, personnel training and training equipment, U.S. Government and contractor engineering and technical support services, and other related elements of logistics support. The estimated cost is \$68 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country. This proposed sale directly supports the Iraq government and serves the interests of the Iraqi people and the U.S.

The proposed sale of the C4ISR system will ensure that the Iraqi Naval Force (INF) is better able to efficiently use its vessels and manpower to police Iraqi territorial waters and protect its strategic maritime assets. The C4ISR system will enable the Iraqi Government to assume more responsibility for its security and rely less on U.S. and coalition forces to establish stability.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be The Raytheon Company in Waltham, Massachusetts. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require the assignment of three U.S. Government and four contractor representatives to Iraq for one month for the purpose of fielding and training and quality assurance during equipment delivery.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.
