

regulations for an order amending the certificate of public convenience and necessity issued in Docket No. CP10-34-000 to authorize East Cheyenne to make certain changes to its certificated Project, which relate primarily to the design and number of wells to be employed in the initial Project development, all as more fully set forth in the application which is on file with the Commission and open to public inspection. The filing may also be viewed on the Web at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll free at (866) 208-3676, or TTY, contact (202) 502-8659.

Any questions concerning this application may be directed to James F. Bowe, Jr., Dewey & LeBoeuf LLP, 1101 New York Avenue, NW., Washington, DC 20005-4213, at (202) 346-8000.

East Cheyenne also seeks reaffirmation of its previously granted authorization to charge market-based rates for its storage and hub services, as well as the various waivers granted in the order issuing certificates. East Cheyenne also requests that the Commission rescind the pre-granted abandonment authorization issued to East Cheyenne because East Cheyenne no longer plans to construct the temporary West Peetz Compressor Station. East Cheyenne refers to this project as the "Well Plan Amendment."

East Cheyenne states that it does not propose any change in capacity, pressures, injection rates or withdrawal rates authorized by the Commission in the original certificate order in this Application. East Cheyenne represents that the Well Plan Amendment will have minimal impact on the natural environment and on adjacent landowners.

Pursuant to section 157.9 of the Commission's rules, 18 CFR 157.9, within 90 days of this Notice the Commission staff will either: complete its environmental assessment (EA) and place it into the Commission's public record (eLibrary) for this proceeding; or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the final environmental impact statement (FEIS) or EA for this proposal. The filing of the EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental

Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all Federal authorizations within 90 days of the date of issuance of the Commission staff's FEIS or EA.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below, file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 7 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commentors will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commentors will not be required to serve copies of filed documents on all other parties. However, the non-party commentors will not receive copies of all documents filed by other parties or issued by the

Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

The Commission strongly encourages electronic filings of comments, protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail FERCOnlineSupport@ferc.gov, or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

Comment Date: December 27, 2010.

Kimberly D. Bose,
Secretary.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Project No. 1651-059]

Lower Valley Energy; Notice of Application for Amendment of License and Soliciting Comments, Motions To Intervene, and Protests

December 3, 2010.

Take notice that the following hydroelectric application has been filed with the Commission and is available for public inspection:

a. *Application Type:* Amendment of hydroelectric license.

b. *Project No:* 1651-059.

c. *Date Filed:* November 17, 2010.

d. *Applicant:* Lower Valley Energy, Inc.

e. *Name of Project:* Swift Creek Hydroelectric Project.

f. *Location of Project:* On Swift Creek, a tributary to the Salt River, in Lincoln County, Wyoming, partially within the Bridger-Teton National Forest.

g. *Filed Pursuant to:* Federal Power Act, 16 U.S.C. 791a-825r.

h. *Applicant Contact:* Mr. Wade Hirschi, Compliance Officer, Lower

Valley Energy, Inc., 236 North Washington, P.O. Box 188, Afton, WY 83110; (307) 885-3175.

i. *FERC Contact:* Mr. John Aedo, (415) 369-3335, john.aedo@ferc.gov.

j. Deadline for filing comments, motions to intervene, and protest: January 3, 2011.

All documents may be filed electronically via the Internet. See 18 CFR 385.2001(a)(1)(iii) or the instructions on the Commission's Web site at <http://www.ferc.gov/docs-filing/efiling.asp>. If unable to be filed electronically, documents may be paper-filed. To paper-file, an original and seven copies should be mailed to: The Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426. Commenters may submit comments up to 6,000 characters, without prior registration, using the eComment system at <http://www.ferc.gov/docs-filing/ecomment.asp>. You must include your name and contact information at the end of your comments.

Please include the project number (P-1651-059) on any comments, motions, or protests filed.

k. *Description of Request:* Lower Valley Energy Inc. (licensee) is requesting approval to modify and delete various articles of its license for the Swift Creek Hydroelectric Project (FERC No. 1651). Specifically, the licensee is requesting approval to delete article 411 from its project license, which requires it to conduct surveys to assess channel stability following regular flow maintenance releases. Further, the licensee is proposing to modify license article 413 which requires it to rework the pools between the upper project diversion and upper powerhouse to instead conduct dredging in the lower project reservoir to improve fish habitat. The licensee is also proposing to modify license article 414 which requires it to coordinate with various entities to reestablish trout stocking at the project and conduct creel surveys to instead construct community fishing piers at the upper and lower reservoirs and a handicap accessible ramp at the lower project reservoir.

l. *Locations of the Application:* A copy of the application is available for inspection and reproduction at the Commission's Public Reference Room, located at 888 First Street, NE., Room 2A, Washington, DC 20426, or by calling (202) 502-8371. This filing may also be viewed on the Commission's Web site at <http://www.ferc.gov/docs-filing/efiling.asp>. Enter the docket number excluding the last three digits in the docket number field to access the document. You may also register online

at <http://www.ferc.gov/docs-filing/esubscription.asp> to be notified via e-mail of new filings and issuances related to this or other pending projects. For assistance, call 1-866-208-3676 or e-mail FERCOnlineSupport@ferc.gov, for TTY, call (202) 502-8659. A copy is also available for inspection and reproduction at the address in item (h) above.

m. Individuals desiring to be included on the Commission's mailing list should so indicate by writing to the Secretary of the Commission.

n. *Comments, Protests, or Motions To Intervene:* Anyone may submit comments, a protest, or a motion to intervene in accordance with the requirements of Rules of Practice and Procedure, 18 CFR 385.210, .211, .214. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be received on or before the specified comment date for the particular application.

o. *Filing and Service of Responsive Documents:* All filings must (1) bear in all capital letters the title "COMMENTS", "PROTEST", or "MOTION TO INTERVENE" as applicable; (2) set forth in the heading the name of the applicant and the project number of the application to which the filing responds; (3) furnish the name, address, and telephone number of the person protesting or intervening; and (4) otherwise comply with the requirements of 18 CFR 385.2001 through 385.2005. All comments, motions to intervene, or protests must set forth their evidentiary basis and otherwise comply with the requirements of 18 CFR 4.34(b). All comments, motions to intervene, or protests should relate to project works which are the subject of the proposed license amendment. Agencies may obtain copies of the application directly from the applicant. A copy of any protest or motion to intervene must be served upon each representative of the applicant specified in the particular application. If an intervener files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency. A copy of all other filings in reference to this application must be accompanied by proof of service on all persons listed in the service list prepared by the

Commission in this proceeding, in accordance with 18 CFR 4.34(b) and 385.2010.

Kimberly D. Bose,
Secretary.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Project No. 13878-000]

Kahawai Power 1, LLC; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

December 3, 2010.

On November 12, 2010, Kahawai Power 1, LLC filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of the Hanalei River Hydroelectric Project (Hanalei River) to be located on the Hanalei River, Pekoa Stream, Kaapahu Stream, and Kaiwa Stream in the vicinity of Hanalei, Hawaii. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed project will consist of the following: (1) A 80-foot-long, 15-foot-high concrete diversion weir and intake structure on the Hanalei River creating a reservoir with a storage capacity of 7.7-acre-feet; (2) a 23,500-foot-long, 3.5-foot-diameter main steel penstock running from the Hanalei diversion weir to the powerhouse; (3) a 35-foot-long, 5-foot-high concrete diversion weir with intake structure located on the Kaiwa Stream creating a reservoir with a storage capacity of less than 0.25 acre-feet; (4) a 1,100-foot-long, 2-foot-diameter steel feeder penstock from the Kaiwa intake structure to the main penstock; (5) a 35-foot-long, 5-foot-high concrete diversion weir with intake structure located on the Kaapahu Stream creating a reservoir with a storage capacity of less than 0.25 acre-feet; (6) a 2,800-foot-long, 2-foot-diameter steel feeder penstock from the Kaapahu intake to the main penstock; (7) a 35-foot-long, 5-foot-high concrete diversion weir with intake structure located on the Pekoa Stream creating a
