

3501 *et seq.*), this document announces that an Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval. This is a request to renew an existing approved collection. The ICR which is abstracted below describes the nature of the collection and the estimated burden and cost.

DATES: Additional comments may be submitted on or before January 13, 2011.

ADDRESSES: Submit your comments, referencing docket ID number EPA-HQ-OECA-2010-0359, to (1) EPA online using <http://www.regulations.gov> (our preferred method), or by e-mail to docket.oeca@epa.gov, or by mail to: EPA Docket Center (EPA/DC), Environmental Protection Agency, Enforcement and Compliance Docket and Information Center, mail code 28221T, 1200 Pennsylvania Avenue, NW., Washington, DC 20460, and (2) OMB at: Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Attention: Desk Officer for EPA, 725 17th Street, NW., Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: Robert C. Marshall, Jr., Office of Compliance, 2223A, Environmental Protection Agency, 1200 Pennsylvania Avenue, NW., Washington, DC 20460; telephone number: (202) 564-7021; e-mail address: marshall.robert@epa.gov.

SUPPLEMENTARY INFORMATION: EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. On June 2, 2010, (75 FR 30813) EPA sought comments on this ICR pursuant to 5 CFR 1320.8(d). EPA received no comments. Any additional comments on this ICR should be submitted to EPA and OMB within 30 days of this notice.

EPA has established a public docket for this ICR under docket ID number EPA-HQ-OECA-2010-0359, which is available for public viewing online at <http://www.regulations.gov>, in person viewing at the Enforcement and Compliance Docket in the EPA Docket Center (EPA/DC), EPA West, Room 3334, 1301 Constitution Avenue, NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1744, and the telephone number for the Enforcement and Compliance Docket is (202) 566-1752.

Use EPA's electronic docket and comment system at <http://www.regulations.gov>, to submit or view public comments, access the index

listing of the contents of the docket, and to access those documents in the docket that are available electronically. Once in the system, select "docket search," then key in the docket ID number identified above. Please note that the EPA policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing at <http://www.regulations.gov>, as EPA receives them and without change, unless the comment contains copyrighted material, Confidential Business Information (CBI), or other information whose public disclosure is restricted by statute. For further information about the electronic docket, go to <http://www.regulations.gov>.

Title: NSPS for Electric Utility Steam Generating Units (Renewal).

ICR Numbers: EPA ICR Number 1053.10, OMB Control Number 2060-0023.

ICR Status: This ICR is scheduled to expire on January 31, 2011. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for the EPA regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, and displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The affected entities are subject to the General Provisions of the NESHAP at 40 CFR part 60, subpart A, and any changes, or additions to the Provisions specified at 40 CFR part 60, subpart Da. Owners or operators of the affected facilities must submit a one-time-only report of any physical or operational changes, initial performance tests, and periodic reports and results. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. Reports, at a minimum, are required semiannually.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 96 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain,

or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Owners or operators of electric utility steam generating units.

Estimated Number of Respondents: 677.

Frequency of Response: Initially, quarterly and semiannually.

Estimated Total Annual Hour Burden: 160,839.

Estimated Total Annual Cost: \$27,445,813, which includes \$15,090,813 in labor costs, \$2,200,000 in capital/startup costs, and \$10,155,000 in operation and maintenance (O&M) costs.

Changes in the Estimates: There are no changes in either the labor hours or in the capital/startup and operation and maintenance costs in this ICR. This is due to two considerations: (1) The regulations have not changed over the past three years and are not anticipated to change over the next three years; and (2) the growth rate for the industry is very low, negative, or non-existent.

The increase in labor cost to both Respondents and the Agency is due to labor rate adjustments that reflect the most recent available estimates.

Dated: December 7, 2010.

John Moses,

Director, Collection Strategies Division.

Please note that EPA's policy is that public comments the electronic docket, go to <http://www.regulations.gov>.

Title: NSPS for Rubber Tire Manufacturing (Renewal).

ICR Numbers: EPA ICR Number 1158.10, OMB Control Number 2060-0156.

ICR Status: This ICR is scheduled to expire on January 31, 2011. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, and displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The New Source Performance Standards (NSPS) for Rubber Tire Manufacturing (40 CFR part 60, subpart BBB) were proposed on January 20, 1983, and promulgated on September 15, 1987. Minor revisions to the standards of performance for the rubber tire manufacturing industry were proposed on February 14, 1989, and promulgated on September 19, 1989.

The affected facilities include: Each undertread cementing operations, sidewall cementing operations, tread end cementing operations, bead cementing operations, green tire spraying operations, Michelin-A operations, Michelin-B operations, and Michelin-C automatic operations, that

commencing construction, modification or reconstruction after January 20, 1983. The rule established standards for volatile organic compounds (VOCs) use and emission limits.

In general, all NSPS standards require initial notifications, performance tests, and periodic reports. This standard required performance test of Method 25 and an annual report of Method 23 results to verify VOC content of water-based sprays. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. Monitoring requirements specific to rubber tire manufacturing plants provide information on the operation of the emissions control device and compliance with the VOCs standards. Semiannual reports of excess emissions are required. These notifications, reports, and records are essential in determining compliance, and are required of all sources subject to NSPS.

All reports are sent to the delegated state or local authority. In the event that there is no such delegated authority, the reports are sent directly to the EPA regional office. This information is being collected to assure compliance with 40 CFR part 60, subpart BBB, as authorized in sections 112 and 114(a) of the Clean Air Act. The required information consists of emissions data and other information that have been determined to be private.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB Control Number. The OMB Control Numbers for EPA regulations are list in 40 CFR part 9 and 48 CFR chapter 15, and are identified on the form and/or instrument, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information are estimated to average 166 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purpose of collecting, validating, and verifying information, processing and maintaining, information, and disclosing and providing information. All existing ways will have to adjust to comply with any previously applicable instructions and requirements that have subsequently changed; train personnel

to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities:

Rubber tire manufacturing.

Estimated Number of Respondents: 41.

Frequency of Response: Initially, annually, and semiannually.

Estimated Total Annual Hour Burden: 13,323.

Estimated Total Annual Cost: \$1,266,476, which includes \$1,250,076 in labor costs, no capital/startup costs, and \$16,400 in operation and maintenance (O&M) costs.

Changes in the Estimates: There is no increase in the number of affected facilities, labor hours, or the number of responses compared to the previous ICR.

There is however, an increase in the estimated labor burden cost as currently identified in the OMB Inventory of Approved Burdens. This increase is not due to any program change. The change in the labor burden cost estimates has occurred because we updated the labor rates, which resulted in an increase in labor costs. There is also an increase of \$400.00 to the operation and maintenance (O&M) costs.

Dated: December 7, 2010.

Endocrine Disruptor Screening Program; Second List of Chemicals for Tier 1 Screening; Extension of Comment Period

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice; extension of comment period.

SUMMARY: EPA published a notice in the *Federal Register* issue of November 17, 2010, concerning the Endocrine Disruptor Screening Program's (EDSP) second list of chemicals for Tier 1 screening. This document extends the comment period from December 17, 2010, to January 18, 2011.

DATES: Comments, identified by docket identification (ID) number EPA-HQ-OPPT-2009-0477, must be received on or before January 18, 2011.

ADDRESSES: Follow the detailed instructions as provided under

ADDRESSES in the *Federal Register*

notice of November 17, 2010.

FOR FURTHER INFORMATION CONTACT: *For technical information contact:* William Wooge, Office of Science Coordination and Policy, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460-0001; *telephone number:* (202) 564-8476; *e-mail address:* wooge.william@epa.gov.

For general information contact: The TSCA-Hotline, ABVI-Goodwill, 422 South Clinton Ave., Rochester, NY 14620; *telephone number:* (202) 554-1404; *e-mail address:* TSCA-Hotline@epa.gov.

SUPPLEMENTARY INFORMATION: This document extends the public comment period established in the *Federal Register* notice of November 17, 2010 (75 FR 70248) (FRL-8848-7). In that notice, EPA announced the second list of chemicals and substances for which EPA intends to issue test orders under EDSP and requested comment. EPA is hereby extending the comment period, which was set to end on December 17, 2010, to January 18, 2011.

To submit comments, or access the docket, please follow the detailed instructions as provided under **ADDRESSES in the *Federal Register*** notice of November 17, 2010. If you have questions, consult the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

[FR Doc. 2010-31336 Filed 12-13-10; 8:45 am]

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

[FRL-9238-8]

Notice of a Regional Waiver of Section 1605 (Buy American Requirement) of the American Recovery and Reinvestment Act of 2009 (ARRA) to the City of Astoria (the City), OR

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Regional Administrator of EPA Region 10 is hereby granting a waiver request from the Buy American requirements of ARRA Section 1605 under the authority of Section

1605(b)(1) [inconsistent with the public interest] to the City for the utilization and installation of one (1) Slide Gate in the influent control structure and two (2) Stop Logs/Guides sets in access manholes as part of an overall Combined Sewage Overflow (CSO) control project. This is a project specific waiver and only applies to the use of the specified product for the ARRA project being proposed. Any other ARRA recipient that wishes to use the same product must apply for a separate waiver based on project specific circumstances. The City had the contractual obligation of the contractor and written verification from the manufacturer that the Slide Gate and Stop Logs/Guides would comply with Buy American requirements and be produced in a U.S. facility. However, the contractor observed that the Slide Gate and Stop Logs/Guides delivered to the site for installation had "Made in Canada" labeling. The contractor confirmed with the manufacturer that goods were actually manufactured in Canada, not in the U.S., and shipped to the project site in error. Due to contractual requirements, the contractor and manufacturer will absorb the costs of the Slide Gate and Stop Logs/Guides. Re-ordering the Slide Gate and Stop Logs/Guides and having them manufactured in a U.S. facility would delay project completion by at least nine to ten weeks. Of significant note, the City has a contractual obligation to the Oregon Department of Environmental Quality (DEQ) to begin project testing and start up by December 1, 2010 in order for the completed project to properly control CSOs and provide water quality protection during the typical wet weather associated with December and January, when CSOs are highest. Based upon information submitted by the City, EPA has concluded that requiring the installation of the domestic manufactured Slide Gate and Stop Logs/Guides, which would extend the project schedule by at least nine to ten weeks, would be inconsistent with the public interest, and that a waiver of the Buy American provisions is justified. The Regional Administrator is making this determination based on the review and recommendations of the Grants and Strategic Planning Unit. The Assistant Administrator of the Office of Administration and Resources Management has concurred on this decision to make an exception to the requirements of Section 1605(a) of ARRA. This action allows the installation of the foreign manufactured Slide Gate and Stop Logs/Guides, as
