BILLING CODE 4510-FN-P

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice: (10-161)]

NASA Advisory Council; Technology and Innovation Committee; Meeting

AGENCY: National Aeronautics and Space Administration.

ACTION: Notice of Meeting.

SUMMARY: In accordance with the Federal Advisory Committee Act, Public Law 92-463, as amended, the National Aeronautics and Space Administration announces a meeting of the Technology and Innovation Committee of the NASA Advisory Council. The meeting will be held for the purpose of reviewing the Space Technology Program planning and review innovation activities at NASA's Kennedy Space Center (KSC).

DATES: Wednesday, January 12, 2011, 10 a.m. to 3:30 p.m., Local Time.

ADDRESSES: NASA Kennedy Space Center Visitor Center Complex, NASA Parkway West, Building M6-457, Debus Conference Facility, Kennedy Space Center, FL 32899.

FOR FURTHER INFORMATION CONTACT: Mr. Mike Green, Office of the Chief Technologist, NASA Headquarters, Washington, DC 20546, (202) 358-4710, fax: (202) 358-4078, or g.m.green@nasa.gov.

SUPPLEMENTARY INFORMATION: The meeting will be open to the public up to the capacity of the room. The agenda for the meeting includes the following topics:

- Office of the Chief Technologist Update.
- Overview of NASA Technology Transfer and Commercialization activities.

- Presentation and discussion of Intellectual Property issues at NASA.

- Update on NASA's Space Technology Roadmap activities.

- Overviews of technology and innovation activities underway at KSC.

It is imperative that the meeting be held on these dates to accommodate the scheduling priorities of the key participants. Public visitors attending the meeting should park at KSC Visitor Complex parking lots 4 or 5. Once parked, please proceed towards the ticket plaza. To the left of the ticket plaza will be a side gate that you may continue through to the Debus Conference Facility (yellow arrow).

Dated: December 14, 2010.

P. Diane Rausch,

Advisory Committee Management Officer, National Aeronautics and Space Administration.

BILLING CODE P

NUCLEAR REGULATORY COMMISSION

[Docket Nos. (Redacted), License Nos.: (Redacted), EA (Redacted); NRC-2010-0351]

In the Matter of All Power Reactor Licensees and Research Reactor Licensees Who Transport Spent Nuclear Fuel; Order Modifying License (Effective Immediately)

I

The licensees identified in Attachment 1 to this Order have been issued a specific license by the U.S. Nuclear Regulatory Commission (NRC or Commission) authorizing the possession of spent nuclear fuel and a general license authorizing the transportation of spent nuclear fuel [in a transportation package approved by the Commission] in accordance with the Atomic Energy Act of 1954, as amended, and Title 10 of the *Code of Federal Regulations* (CFR) Parts 50 and 71. This Order is being issued to all such licensees who transport spent nuclear fuel. Commission regulations for the

shipment of spent nuclear fuel at 10 CFR 3.37(a) require these licensees to maintain a physical protection system that meets the requirements contained in 10 CFR 73.37(b), (c), (d), and (e).

II

On September 11, 2001, terrorists simultaneously attacked targets in New York, NY, and Washington, DC, utilizing large commercial aircraft as weapons. In response to the attacks and intelligence information subsequently obtained, the Commission issued a number of Safeguards and Threat Advisories to its licensees in order to strengthen licensees' capabilities and readiness to respond to a potential attack on a nuclear facility or regulated activity. The Commission has also communicated with other Federal, State and local government agencies and industry representatives to discuss and evaluate the current threat environment in order to assess the adequacy of security measures at licensed facilities. In addition, the Commission has been conducting a comprehensive review of its safeguards and security programs and requirements.

As a result of its consideration of current safeguards and security plan requirements, as well as a review of information provided by the intelligence community, the Commission has determined that certain additional security measures are required to be implemented by licensees as prudent, interim measures, to address the current threat environment in a consistent manner. Therefore, the Commission is imposing requirements, as set forth in Attachment 2 of this Order, on all licensees identified in Attachment 1 of this Order.¹ These additional security requirements, which supplement existing regulatory requirements, will provide the Commission with reasonable assurance that the common defense and security continue to be adequately protected in the current threat environment. These requirements

¹ Attachments 1 and 2 contain SAFEGUARDS INFORMATION and will not be released to the public.
