

five years. To achieve its mission, the CS provides U.S. businesses with a range of export assistance services and resources including export counseling from one of our domestic Export Assistance Centers, educational webinars and seminars, an export-focused Web site (<http://www.export.gov>), a trade-related help line (1-800-USA-TRAD(E)), international industry research, international business partner match-making services and basic due diligence services on potential international partners.

The CS relies on client feedback to guide the development of services to meet clients' needs and to improve the effectiveness of its export assistance services. The CS uses the two collection instruments ("U.S. Commercial Service Perception and Awareness Survey" and the "U.S. Commercial Service Customer Satisfaction Survey") to: (1) Assess our marketing and promotional activities; and (2) measure clients' overall satisfaction with the full array of services and experiences they have had with the CS on an annual basis.

Affected Public: Business or other for-profit organizations.

Frequency: Annually.

DEPARTMENT OF COMMERCE

**Submission for OMB Review;
Comment Request**

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of

information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Vessel Monitoring System Requirement in the Pacific Coast Groundfish Fishery.

OMB Control Number: 0648-0573.

Form Number(s): NA.

Type of Request: Regular submission (extension of a current information collection).

Number of Respondents: 1,500.

Average Hours per Response: Installation/activation reports and exemption reports, 5 minutes; declaration reports, 4 minutes.

Burden Hours: 2,114.

Needs and Uses: This request is for a renewal of a currently approved information collection.

NOAA has established large-scale depth-based management areas, referred to as Groundfish Conservation Areas (GCAs), where groundfish fishing is prohibited or restricted. These areas were specifically designed to reduce the catch of species while allowing healthy fisheries to continue in areas and with gears where little incidental catch of overfished species is likely to occur. Because NOAA needs methods to effectively enforce area restrictions, certain commercial fishing vessels are required to install and use a vessel monitoring system (VMS) that automatically sends hourly position reports. Exemptions from the reporting requirement are available for inactive vessels or vessels fishing outside the monitored area. The vessels are also required to declare what gear will be used.

Affected Public: Business or other for-profit organizations.

Frequency: Every four years and on occasion.

Respondent's Obligation: Mandatory.
