

using the USPTO Design Classification system has continually improved through internal and external review of the coding and through internal training and quality-review procedures. The USPTO Design Classification system provides more accurate results, is available to all members of the public through the Internet, and is exclusively used by the examining attorneys at the USPTO.

Accordingly, the USPTO hereby gives notice of its intent to discontinue coding design marks with paper search designations. Any interested member of the public is invited to provide comments on this plan within thirty (30) days. The USPTO is providing this opportunity for public comment because the USPTO desires the benefit of public comment on the proposal; however, notice and an opportunity for public comment are not required under 5 U.S.C. 553(b) or any other law. *See Cooper Techs. Co. v. Dudas*, 536 F.3d 1330, 1336–37 (Fed. Cir. 2008) (stating that 5 U.S.C. 553, and thus 35 U.S.C. 2(b)(2)(B), does not require notice and comment rule making for “interpretative rules, general statements of policy, or rules of agency organization, procedure, or practice.” (quoting 5 U.S.C. 553(b)(A))). Persons submitting written comments should note that the USPTO may not provide a “comment and response” analysis of such comments as notice and an opportunity for public comment are not required.

Dated: December 21, 2010.

**David J. Kappos,**

*Under Secretary of Commerce for Intellectual Property and Director of the United States Patent and Trademark Office.*
