

Fifth. In addition, CBAMS II will result in a survey tool—a limited set of questions—that can be used in follow-on research studies to identify the likely segment of a survey respondent. Also, the survey will probe further into respondents' views about the use of Administrative Records and other data sources to get a complete count of the population without direct interviews.

II. Method of Collection

CBAMS II will be administered to a sample of adults. Most interviews will be selected through random-digit-dialing and administered via Computer Assisted Telephone Interviewing (CATI), while a small portion of the interviews will be conducted in-person. The CATI interviews will be conducted on both landline and cellular telephones. The cellular phone sample is designed to reach the young, unattached, mobile population, while the in-person interviews target hard-to-count populations including linguistically isolated Hispanics and Asians, American Indians on reservations, and the rural, economically disadvantaged population.

SUPPLEMENTARY INFORMATION:

Background

On June 30, 2010, the Department of Commerce ("the Department") published a notice of initiation of administrative review of the countervailing duty order on stainless steel plate in coils from Belgium, covering the period January 1, 2009, through December 31, 2009. *See Initiation of Antidumping and Countervailing Duty Administrative Reviews and Requests for Revocation in Part*, 75 FR 37759, 37763 (June 30, 2010). The preliminary results of this administrative review are currently due no later than January 31, 2011.

Statutory Time Limits

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended ("the Act"), requires the Department to issue the preliminary results of an administrative review within 245 days after the last day of the anniversary month of an order for which a review is requested and the final results of review within 120 days after the date on which the preliminary results are published.
