Next Generation Risk Assessment Public Dialogue Conference**AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Notice of Public Dialogue Conference.

SUMMARY: As a part of the "Advancing the Next Generation of Risk Assessment" (NexGen) program, EPA is announcing a 2-day public dialogue conference to engage, inform, and encourage feedback from key stakeholders. The conference will take place on February 15 and 16, 2011 in Washington, DC and will be open to attendance by interested public participants on a first-come, first-serve basis up to the limits of available space.

DATES: The conference will be held on February 15, 2011 from 8 a.m. to 5:30 p.m. and on February 16, 2011 from 9 a.m. to 1 p.m.

ADDRESSES: The conference will take place at the Embassy Suites Convention Center, 900 10th Street, Northwest, Washington, DC 20001. ICF

International, an EPA contractor, is providing logistical support for the conference. Questions regarding information, registration, and logistics for the workshop should be directed to Deshira Wallace, telephone: (703) 225-2910; e-mail:

epa_nexgen_workshop@icfi.com. Questions regarding the scientific and technical aspects of the workshop should be directed to Audrey Hoffer, telephone: (703) 347-0218; e-mail: hoffer.audrey@epa.gov.

SUPPLEMENTARY INFORMATION:**I. Summary of Information About the Conference**

The landscape of risk assessment is changing rapidly with new advances in molecular systems biology, the advent of several recent reports from the National Research Council, and volumes of new test data emerging from the Tox21 and European REACH programs. In response, EPA has developed the NexGen program, a collaborative exploration of new science and methods with the National Institutes of Environmental Health Sciences' National Toxicology Program, Center for Disease Control's Agency for Toxic Substances and Disease Registry, National Human Genome Research Institute, and the State of California's Environmental Protection Agency.

The NexGen program aims to create a cheaper, faster, and more robust system for chemical risk assessment by incorporating new knowledge about molecular system biology. This is the beginning of a process that will evolve over several years, and engaging key stakeholders from the beginning is central to making it a success. The NexGen public dialogue conference in February 2011 offers stakeholders an opportunity to become involved early, comment on the process, and help direct the next phases.

The conference will feature several informational presentations regarding the current science surrounding the NexGen program as well as highlights from an invitation-only scientists' meeting that took place in November 2010. Following these presentations, breakout sessions will be held in order to obtain public feedback and give stakeholders an opportunity to voice questions, comments, and concerns.

II. Conference Information

Members of the public may participate in the conference. Space is limited, and reservations will be accepted on a first-come, first-serve basis. For more information on how to register for the conference please visit: <http://epa.nexgen.icfi.com>. Further information regarding the conference and the NexGen program in general can be found at <http://www.epa.gov/risk/nexgen>.

Dated: December 22, 2010.

Darrell A. Winn,

Acting Director, National Center for Environmental Assessment.

Product Cancellation Order for Certain Pesticide Registrations**AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Notice.

SUMMARY: This notice announces EPA's order for the cancellations, voluntarily requested by the registrants and accepted by the Agency, of the products listed in Tables 1A and 1B of Unit II., pursuant to section 6(f)(1) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended. This cancellation order follows two Notices of Receipt of Requests from the respective registrants listed in Table 2 of

Unit II. The notice dated August 25, 2010, pertains to the fenoxycarb product registrations and the notice dated August 18, 2010, pertains to the propetamphos product registrations. In those notices, EPA indicated that it would issue an order implementing the cancellations, unless the Agency received substantive comments within the 30-day comment periods that would merit its further review of these requests, or unless the registrants withdrew their requests. The Agency did not receive any comments on the notice for fenoxycarb or propetamphos and neither request was withdrawn. Accordingly, EPA hereby issues in this notice a cancellation order granting the requested cancellations. Any distribution, sale, or use of the products subject to this cancellation order is permitted only in accordance with the terms of this order, including any existing stocks provisions.

DATES: The cancellations are effective as provided in Unit IV.

FOR FURTHER INFORMATION CONTACT:

Matthew Lloyd, Pesticide Re-evaluation Division (7508P), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460-0001; telephone number: (703) 308-0130; fax number: (703) 308-8090; e-mail address: Lloyd.Matthew@epa.gov.

SUPPLEMENTARY INFORMATION:**I. General Information****A. Does this action apply to me?**

This action is directed to the public in general, and may be of interest to a wide range of stakeholders including environmental, human health, and agricultural advocates; the chemical industry; pesticide users; and members of the public interested in the sale, distribution, or use of pesticides. Since others also may be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the applicability of this action to a particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

B. How can I get copies of this document and other related information?

EPA has established a docket for the fenoxycarb action under docket identification (ID) number EPA-HQ-OPP-2010-0623. EPA has established a docket for the propetamphos action under docket identification (ID) number EPA-HQ-OPP-2007-1195. Publicly available docket materials are available either in the electronic docket at <http://www.regulations.gov>, or, if only

available in hard copy, at the Office of Pesticide Programs (OPP) Regulatory Public Docket in Rm. S-4400, One Potomac Yard (South Bldg.), 2777 S. Crystal Dr., Arlington, VA. The hours of operation of this Docket Facility are from 8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays. The Docket Facility telephone number is (703) 305-5805.

II. What action is the agency taking?

This notice announces the cancellation, as requested by registrants, of products registered under FIFRA section 3. These registrations are listed in sequence by registration number in Tables 1A and 1B of this unit.

TABLE 1A—FENOXYCARB PRODUCT CANCELLATIONS

EPA registration No.	Product name
100-722	Award Fire Ant Bait.
100-723	Fenoxycarb Technical.
499-437	Whitmire PT 2120 TF Preclude.

TABLE 1B—PROPETAMPHOS PRODUCT CANCELLATIONS

EPA registration No.	Product name
002724-00313	Propetamphos Technical.
002724-00450	Zoecon 9001 EW.

Table 2 of this unit includes the names and addresses of record for all registrants of the products in Tables 1A and 1B of this unit, in sequence by EPA company number. This number corresponds to the first part of the EPA registration numbers of the products listed in Tables 1A and 1B of this unit.

TABLE 2—REGISTRANTS OF CANCELED PRODUCTS

EPA company No.	Company name and address
100	Syngenta Crop Protection, Inc., P.O. Box 18300, Greensboro, NC 27419-8300.
499	Whitmire Micro-Gen Research Laboratories, Inc., 3568 Tree Court Industrial Blvd., St. Louis, MO 63122-6682.
002724	Wellmark International, Attn: James McFadden, 1501 E. Woodfield Rd., Suite 200 West, Schaumburg, IL 60173.

III. Summary of Public Comments Received and Agency Response to Comments

During the public comment period provided, EPA received no comments in response to the August 18, 2010 or August 25, 2010 **Federal Register** notices announcing the Agency's receipt of the requests for voluntary cancellations of products listed in Tables 1A and 1B, respectively, of Unit II.

IV. Cancellation Order

Pursuant to FIFRA section 6(f), EPA hereby approves the requested cancellations of the registrations identified in Tables 1A and 1B of Unit II. Accordingly, for the fenoxycarb registrations (Table 1A), the Agency hereby orders that Syngenta Crop Protection, Inc.'s technical product (EPA Reg. No. 100-723) and the Whitmire Micro-Gen Research Laboratories, Inc.'s end-use product (EPA Reg. No. 499-437) are canceled effective immediately. The Agency further orders that Syngenta Crop Protection Inc.'s end-use product (EPA Reg. No. 100-722) is canceled effective December 31, 2012.

For the propetamphos registrations (Table 1B), the Agency hereby orders that propetamphos technical product (EPA Reg. No. 2724-313) is canceled effective immediately. The Agency further orders that the propetamphos end-use product (EPA Reg. No. 2724-450) is canceled effective March 30, 2012.

Any distribution, sale, or use of existing stocks of the products identified in Table 1A and 1B of Unit II. in a manner inconsistent with any of the provisions for disposition of existing stocks set forth in Unit VI. will be a violation of FIFRA.

V. What is the agency's authority for taking this action?

Section 6(f)(1) of FIFRA provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be canceled or amended to terminate one or more uses. FIFRA further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**. Thereafter, following the public comment period, the EPA Administrator may approve such a request. The notice of receipt for the fenoxycarb action was published for comment in the **Federal Register** issue of August 25, 2010 (75 FR 53240) (FRL-8843-1). The comment period for fenoxycarb closed on September 24, 2010. The notice of receipt for the

propetamphos action was published for comment in the **Federal Register** issue of August 18, 2010 (75 FR 51053) (FRL-8840-3). The comment period for propetamphos closed on September 17, 2010.

VI. Provisions for Disposition of Existing Stocks

Existing stocks are those stocks of registered pesticide products which are currently in the United States and which were packaged, labeled, and released for shipment prior to the effective date of the cancellation action. The existing stocks provisions for the products subject to this order are as follows.

A. Disposition of Existing Stocks for All Fenoxycarb (Table 1A) Products

Syngenta Crop Protection, Inc. is prohibited from using, selling, or distributing technical fenoxycarb (EPA Reg. No. 100-723), except for (i) Export consistent with FIFRA section 17, (ii) for proper disposal, or (iii) to formulate existing stocks of the technical fenoxycarb (EPA Reg. No. 100-723) into its end-use product (EPA Reg. No. 100-722) effective immediately. After December 31, 2012, Syngenta Crop Protection, Inc. is prohibited from selling or distributing its end-use product (EPA Reg. No. 100-722), except for export consistent with FIFRA section 17 or for proper disposal. Persons other than Syngenta Crop Protection, Inc. are allowed to sell, distribute, and use existing stocks of the canceled end-use product (EPA Reg. No. 100-722) until supplies are exhausted, provided that such sale, distribution, and use is consistent with the terms of the previously approved labeling on, or that accompanied, the canceled product.

Whitmire Micro-Gen Research Laboratories, Inc. is permitted to sell and distribute existing stocks of its end-use fenoxycarb product (EPA Reg. No. 499-437) until December 31, 2013. Thereafter, Whitmire Micro-Gen Research Laboratories, Inc. is prohibited from selling or distributing its end-use product (EPA Reg. No. 499-437), except for export consistent with FIFRA section 17 or for proper disposal. Persons other than Whitmire Micro-Gen Research Laboratories, Inc. are allowed to sell, distribute, and use existing stocks of the canceled end-use product (EPA Reg. No. 499-437) until supplies are exhausted, provided that such sale, distribution, and use is consistent with the terms of the previously approved labeling on, or that accompanied, the canceled product.

B. Disposition of Existing Stocks for All Table 1B Products

Wellmark International is prohibited from using, selling, or distributing propetamphos technical (EPA Reg. No. 2724–313), except for (i) Export consistent with FIFRA section 17, (ii) for proper disposal or (iii) to formulate existing stocks of propetamphos technical (EPA Reg. No. 2724–313) into its propetamphos end-use product (EPA Reg. No. 2724–450) effective immediately. After March 30, 2012, Wellmark International is prohibited from using, as well as continuing to be prohibited from selling or distributing, its propetamphos technical (EPA Reg. No. 2724–313), except for export consistent with FIFRA section 17 or for proper disposal.

The cancellation of the propetamphos end-use product (EPA Reg. No. 2724–450) is effective March 30, 2012. Wellmark International is permitted to sell or distribute existing stocks of the canceled end-use product (EPA Reg. No. 2724–450) until such stocks are exhausted. Persons other than Wellmark International are allowed to sell, distribute, and use existing stocks of the canceled propetamphos end-use product (EPA Reg. No. 2724–450) until supplies are exhausted, provided that such sale, distribution, and use is consistent with the terms of the previously approved labeling on, or that accompanied, the canceled product. The existing stocks provisions outlined in this notice are intended to allow depletion of the amount of technical propetamphos (EPA Reg. No. 2724–313) that Wellmark International currently has on-hand from purchases made prior to its decision to request voluntary cancellation. Use until depletion will preclude environmental disposal concerns of quantities of undiluted propetamphos that cannot be formulated or used.

[FRL–9245–7]

Notice of a Project Waiver of Section 1605 (Buy American Requirement) of the American Recovery and Reinvestment Act of 2009 (ARRA) to the Buffalo Island Regional Water District, Monette, AR

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Regional Administrator of EPA Region 6 is hereby granting a project waiver of the Buy American requirements of ARRA Section 1605 under the authority of Section 1605(b)(2) [manufactured goods are not produced in the United States in sufficient and reasonably available quantities and of a satisfactory quality] to the Buffalo Island Regional Water District (“District”) for the purchase of a 15 horsepower (HP) vertical hollow shaft electric motor, for use in a water supply well. The 15 HP vertical hollow shaft electric motor is manufactured by foreign manufacturers and no United States manufacturer produces an alternative that meets the District’s technical specifications. This is a project specific waiver and only applies to the use of the specified product for the ARRA funded project being proposed.

Any other ARRA project that may wish to use the same product must apply for a separate waiver based on the specific project circumstances. The Regional Administrator is making this determination based on the review and recommendations of the EPA Region 6, Water Quality Protection Division. The District has provided sufficient documentation to support its request.

The Assistant Administrator of the EPA’s Office of Administration and Resources Management has concurred on this decision to make an exception to Section 1605 of ARRA. This action permits the purchase of a 15 HP vertical hollow shaft electric motor not manufactured in America, for the proposed project being implemented by the District.

DATES: *Effective Date:* December 17, 2010.

FOR FURTHER INFORMATION CONTACT: Nasim Jahan, Buy American Coordinator, (214) 665–7522, SRF & Projects Section, Water Quality Protection Division, U.S. EPA Region 6, 1445 Ross Avenue, Dallas, Texas 75202–2733.

SUPPLEMENTARY INFORMATION:

In accordance with ARRA Section 1605(c) and 1605(b)(2), EPA hereby provides notice that it is granting a project waiver of the requirements of Section 1605(a) of Public Law 111–5, Buy American requirements to the District for the acquisition of a 15 HP vertical hollow shaft electric motor. The District has been unable to find an American made electric motor to meet its specific requirements of cross correlation functionality for pinpointing leaks throughout its water distribution system.

Section 1605 of the ARRA requires that none of the appropriated funds may be used for the construction, alteration, maintenance, or repair of a public building or public work unless all of the iron, steel, and manufactured goods used in the project are produced in the United States unless a waiver is provided to the recipient by EPA. A waiver may be provided if EPA determines that (1) applying these requirements would be inconsistent with public interest; (2) iron, steel, and the relevant manufactured goods are not produced in the United States in sufficient and reasonably available quantities and of a satisfactory quality; or (3) inclusion of iron, steel, and the relevant manufactured goods produced in the United States will increase the cost of the overall project by more than 25 percent.

The District’s water system improvement project includes the development of a new water supply well serviced by a new vertical turbine well pump. The District has conducted a pumping test after the development of the new well and has determined that a 15 HP vertical hollow shaft electric motor is sufficient to provide the required production flow rate of 500 gallon per minute (gpm) at 87 feet Total Dynamic Head (TDH).

The District is requesting a waiver for the use of a 15 HP vertical hollow shaft electric motor on the basis that there are no domestic manufacturers of the electric motors that will meet the District’s product specifications. The District contacted seventeen manufacturers and of the seventeen (17) listed manufacturers, only three (3) electric motor manufacturers were reported to make the 15 HP vertical hollow shaft electric motor, but none are manufactured in the United States.

Based on additional research conducted by EPA Region 6, there does not appear to be any domestic electric motor manufacturers that would meet the District’s technical specifications. EPA’s national contractor prepared a technical assessment report based on the waiver request submittal. The report
