

DATES: The PIC meeting will be held Thursday, February 3, 2011 from 8:30 a.m. until business for the day is completed. The PIC meeting will reconvene Friday, February 4, from 8:30 a.m. until noon.

ADDRESSES: The PIC meeting will be held at the Pacific Fishery Management Council office, Large Conference Room, 7700 NE Ambassador Place, Suite 101, Portland, Oregon 97220-1384.

Council address: Pacific Fishery Management Council, 7700 NE Ambassador Place, Suite 101, Portland, OR 97220-1384.

FOR FURTHER INFORMATION CONTACT: Ms. Kelly Ames or Mr. John DeVore, Groundfish Management Staff Officers; *telephone:* (503) 820-2280.

SUPPLEMENTARY INFORMATION: The purpose of the PIC work session is to develop an optimum detailed process and schedule for the 2013-14 groundfish biennial cycle for harvest specifications and management measures. The PIC will also consider whether an amendment to the Groundfish Fishery Management Plan should be pursued by the Council for long-term solutions. The PIC recommendations will be brought forward for Council consideration and action at its April 9-14 meeting in San Mateo, CA. The PIC may also address other assignments relating to groundfish management. No management actions will be decided by the PIC.

Although non-emergency issues not contained in the meeting agenda may come before the PIC for discussion, those issues may not be the subject of formal PIC action during this meeting. PIC action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under Section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the PIC's intent to take final action to address the emergency.

Special Accommodations

This meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Mr. Kris Kleinschmidt at (503) 820-2280 at least 5 days prior to the meeting date.

Dated: January 7, 2011.

Tracey L. Thompson,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

National Oceanic and Atmospheric Administration

RIN 0648-XA138

Pacific Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meetings.

SUMMARY: The Pacific Fishery Management Council (Pacific Council) will hold two consecutive meetings related to west coast CPS fisheries. The Coastal Pelagic Species Management Team (CPSMT) will meet February 1-2, 2011; and the CPS Methodology Review Panel will meet February 3-5, 2011. Both meetings are open to the public.

DATES: The CPSMT meeting will be held Tuesday, February 1 through Wednesday, February 2, 2011. Business will begin each day at 8:30 a.m. and conclude at 5 p.m. or until business for the day is completed. The CPS Methodology Review Panel will meet February 3-5, 2011. Business will begin each day at 8:30 a.m. and conclude at 5 p.m. or until business for the day is completed.

ADDRESSES: The meetings will be held in the Large Conference Room of the National Marine Fisheries Service's Southwest Fisheries Science Center, Torrey Pines Campus; 8604 La Jolla Shores Drive, La Jolla, CA 92037.

FOR FURTHER INFORMATION CONTACT: Kerry Griffin, Staff Officer; *telephone:* (503) 820-2280.

SUPPLEMENTARY INFORMATION: The purpose of the CPSMT meeting is: (1) To initiate discussion of potential changes to the Pacific sardine Harvest Control Rule, based on recent evidence indicating that using the sea surface temperature at Scripps Pier may be an unreliable basis for setting harvest guidelines; (2) to discuss potential improvements to the market squid Acceptable Biological Catch (ABC) and Overfishing Limit (OFL); (3) election of officers; and (4) to initiate discussion and develop a statement for the March, 2011 Council meeting regarding potential requests to utilize the Council's 4,200 mt Exempted Fishing Permit set-aside. Other issues relevant to coastal pelagic species fisheries management and science may be addressed as time permits.

The purpose of the CPS Methodology Review Panel meeting is to consider acoustic-trawl survey and data analysis

methods, to assess their utility in stock assessment models to monitor trends at the population level for Pacific sardine and other CPS stocks.

Although non-emergency issues not contained in the meeting agenda may come before the CPSMT and Methodology Review Panel for discussion, those issues may not be the subject of formal action during this meeting. CPSMT and Methodology Review Panel action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under Section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the CPSMT's and Methodology Review Panel's intent to take final action to address the emergency.

Special Accommodations

These meetings are physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Mr. Kris Kleinschmidt at (503) 820-2280 at least 5 days prior to the meeting date.

Dated: January 7, 2011.

BILLING CODE 3510-22-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

National Estuarine Research Reserve System; North Inlet-Winyah Bay, SC and San Francisco Bay, CA; Revised Management Plans

AGENCY: Estuarine Reserves Division, Office of Ocean and Coastal Resource Management, National Ocean Service, National Oceanic and Atmospheric Administration, U.S. Department of Commerce.

ACTION: Notice of final approval and availability of the revised management plans for the following National Estuarine Research Reserves: North Inlet-Winyah Bay, SC and San Francisco Bay, CA.

SUMMARY: The Estuarine Reserves Division, Office of Ocean and Coastal Resource Management, National Ocean Service, National Oceanic and Atmospheric Administration (NOAA), U.S. Department of Commerce has approved the Management Plan

Revisions of the North Inlet-Winyah Bay National Estuarine Research Reserve and San Francisco Bay National Estuarine Research Reserve.

The revised management plan for the North Inlet-Winyah Bay, SC National Estuarine Research Reserve outlines the administrative structure; the education, training, stewardship, and research programs of the reserve; and the plans for future land acquisition and facility development to support reserve operations. The goals described in this plan provide a framework that supports program integration based on priority issues defined by the reserve. The objectives described in this plan address the most critical coastal issues in North Inlet-Winyah Bay such as impacts from coastal and watershed development, climate events on coastal ecosystems and human communities, and invasive species and habitat loss impacts on biodiversity.

Since the last approved management plan in 1992, the reserve has become fully staffed; added a Coastal Training Program that delivers science-based information to key decision makers; and added significant monitoring of emergent marsh vegetation, invasive species, water quality, and bird populations. In addition to programmatic and staffing advances, the reserve upgraded its headquarters building with a 4,500 square foot structure to support research, stewardship, and the coastal training programs that includes six offices, a monitoring lab, and library. In cooperation with the Belle W. Baruch Foundation, a 12,500 square foot education facility was developed to support reserve educational programs and includes interpretive exhibits, aquaria, classrooms, and education staff offices, as well as an outdoor classroom. This plan can be accessed at <http://www.northinlet.sc.edu>.

The revised management plan for the San Francisco Bay National Estuarine Research Reserve outlines a framework of overarching goals and program specific objectives that will guide the education, training, research, and developing stewardship programs of the reserve; describes land acquisition and boundary expansion; as well as outlines plans for facility use and development to support reserve operations. The goals and objectives put forth in this plan focus programmatic efforts on four critical issues that affect the reserve's ability to conserve ecological communities in support of the Bay's growing population: Climate change, species interactions, water quality, and habitat restoration. Broadly, the goals for each of these issues include

increasing knowledge, understanding effects, and improving the ability of partners and stakeholders to respond to these issues. The goals described in this plan provide a framework that supports program integration for collaborative management of the San Francisco Bay National Estuarine Research Reserve.

Since the last approved management plan in 2003, the reserve has hired a full complement of core staff; established a research lab, fully operational System-wide Monitoring Program, and Graduate Research Fellowship Program; added a Coastal Training Program that delivers science-based information to key decision makers; developed education programs focused on sharing estuarine research with non-academic audiences; and constructed facilities to support essential functions of the reserve at its headquarters on the Romberg Tiburon Center campus of San Francisco State University. These facilities include office space for staff, classroom space, laboratory, and meeting facilities. The reserve has also constructed facilities and interpretive exhibits at its components sites, China Camp State Park and Rush Ranch Open Space Preserve, that support on-site research and educational programs. This plan can be accessed at <http://www.sfbaynerr.org>

FOR FURTHER INFORMATION CONTACT:

Alison Krepp at (301) 563-7105 or Laurie McGilvray at (301) 563-1158 of NOAA's National Ocean Service, Estuarine Reserves Division, 1305 East-West Highway, N/ORM5, 10th floor, Silver Spring, MD 20910.

Dated: December 22, 2010.

Donna Wieting,

Director, Office of Ocean and Coastal Resource Management, National Oceanic and Atmospheric Administration.

BILLING CODE 3510-08-P

DEPARTMENT OF COMMERCE

National Telecommunications and Information Administration

Call for Applications for Commerce Spectrum Management Advisory Committee; National Telecommunications and Information Administration, U.S. Department of Commerce

ACTION: Reopening of Application Period.

SUMMARY: The National Telecommunications and Information Administration (NTIA) seeks applications from persons interested in

serving on the Department of Commerce's Spectrum Management Advisory Committee (CSMAC) for new two-year terms. This Notice reopens the application period announced in the **Federal Register** on December 7, 2010 (December Notice) in order to identify additional candidates. Any applicant who provided NTIA with the requested materials in response to the December Notice will be considered for appointment and need not resubmit materials, although they are permitted to supplement their applications with new or additional information.

DATES: Applications must be postmarked or electronically transmitted on or before January 31, 2011.

ADDRESSES: Persons wishing to submit applications as described below should send that information to: Joe Gattuso, Designated Federal Officer, by e-mail to spectrumadvisory@ntia.doc.gov; by U.S. mail or commercial delivery service to: Office of Policy Analysis and Development, National Telecommunications and Information Administration, 1401 Constitution Avenue, NW., Room 4725, Washington, DC 20230; or by facsimile transmission to (202) 482-6173.

FOR FURTHER INFORMATION CONTACT: Joe Gattuso at (202) 482-0977, or jgattuso@ntia.doc.gov.

SUPPLEMENTARY INFORMATION: The CSMAC was first chartered in 2005 under the Federal Advisory Committee Act (FACA), 5 U.S.C. App. 2, to carry out the functions of the National Telecommunications and Information Administration Act, 47 U.S.C. 904(b). The CSMAC advises the Assistant Secretary of Commerce for Communications and Information on a broad range of issues regarding spectrum policy.

The Secretary of Commerce appoints members to the CSMAC for two year terms. They are experts in radio spectrum policy, and do not represent any organization or interest, and serve in the capacity of Special Government Employees. Members do not receive compensation or reimbursement for travel or for per diem expenses. Members may not be federally registered lobbyists. Previously, the charter allowed CSMAC to have up to 20 members. The renewed charter, effective April 6, 2009, allows up to 25 members to serve on the CSMAC.

On December 7, 2010, NTIA published a Notice in the **Federal Register** seeking additional persons interested in appointment, with applications due January 10, 2011
