The FCC may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid OMB control number.

DATES: Written Paperwork Reduction Act (PRA) comments should be submitted on or before February 14, 2011. ADDRESSES: Direct all PRA comments to Nicholas A. Fraser, Office of Management and Budget, via fax at 202-395-5167 or the Internet at Nicholas_A_Fraser@omb.eop.gov; and to the Federal Communications Commission's PRA mailbox (e-mail address: PRA@fcc.gov). SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-1094.
Title: Sections 27.14 and 27.1221, Licensing, Operation and Transition of the 2500-2690 MHz Band.

Form No.: N/A.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit, not-for-profit institutions, and state, local or tribal government.

Number of Respondents: 2,500 respondents; 5,140 responses.

Estimated Time per Response: .50 hours-2.25 hours.

Frequency of Response: On occasion and one time reporting requirements, third party disclosure requirement and recordkeeping requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. sections 151, 154(i), 301, 303(f), 303(g), 303(r), 307, 308 and 316.

Total Annual Burden: 3,510 hours.

Total Annual Cost: \$302,667.

Privacy Act Impact Assessment: N/A.

Nature and Extent of Confidentiality: There is no need for confidentiality. Respondents or applicants may request materials or information submitted to the Commission be withheld from public inspection under 47 CFR 0.459 of the Commission's rules.

Needs and Uses: The Commission will submit this information collection (IC) to the OMB during this comment period as a revision. The Commission is seeking OMB approval because the FCC adopted and released a *Fourth Memorandum Opinion and Order*, (2008 Order), FCC 08-83, which adopted section 27.14(o) of the Commission's rules. That rule requires all Broadband Radio Service (BRS) and Educational Broadband Service (EBS) licensees to make a showing of "substantial service" no later than May 1, 2011 on a license-by-license basis. This requirement was modified by the *Third Report and Order* (2010 Order), FCC 10-107, to require that licensees issued a new BRS license on or After November 6, 2009, would have four years from the date of initial license grant to provide substantial service. A licensee must demonstrate that it provided service which is sound, favorable, and substantially above a level of mediocre service which might minimally warrant renewal.

The Commission has changed its burden estimates for this information collection. The Commission has recalculated (adjusted) the burden hours because the number of respondents/responses has been reduced by 4,947 hours. This is due to fewer respondents since this was last submitted to OMB. The transition to the new band plan is largely complete and most of the transition-related requirements contained in this collection are no longer necessary. The program change increase in annual costs is due to approximately two-third of respondents will contract out to an outside source to prepare the "substantial showing" requirement.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid OMB control number.

FOR FURTHER INFORMATION CONTACT: For additional information, send an e-mail to Judith-B.Herman@fcc.gov or contact her at 202-418-0214.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0391.

Title: Program to Monitor the Impacts of the Universal Service Support Mechanism, CC Docket Nos. 98-202 and 96-45.

Form No.: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit.

Number of Respondents: 288 respondents; 1,152 responses.

Estimated Time per Response: 40 minutes.

Frequency of Response: Quarterly and annual reporting requirements and third party disclosure requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. sections 151, 152, 154, 201-205, 215, 218, 220, 229, 254, and 410.

Total Annual Burden: 770 hours.

Total Annual Cost: N/A.

Privacy Act Impact Assessment: N/A.

Nature and Extent of Confidentiality: The respondents may request confidentiality protection for the special access performance information. The respondents are not required to file their customers' monthly usage information with the Federal Communications Commission (FCC).

Needs and Uses: The Commission will submit this expiring information collection to the Office of Management and Budget (OMB) after this 60 day comment period in order to obtain the full three year clearance from them. The

Commission is requesting an extension (no change in the reporting requirements and/or third party disclosure requirements) of this information collection. The Commission is reporting a 243 hour increase in the total annual burden. The increase is due to a re-calculation of the estimated number of respondents/responses.

The monitoring program is necessary for the Commission, the Joint Board, Congress and the general public to assess the impact of the universal service support mechanisms. The program requires periodic reporting by telephone companies and the universal service administrator. Failure to implement the program would make it impossible to determine the impact of these mechanisms and to assure that the implementation of section 254 fulfills the intent of Congress and furthers the public interest. This information collection should be continued because the Commission had adopted new mechanisms to implement section 254 of the Act and because the network usage and growth data have proven to be a valuable source of information about the advancement of universal service.
