SUPPLEMENTARY INFORMATION: The Federal Land Policy and Management Act (FLPMA) (43 U.S.C. 1739) directs the Secretary of the Interior to involve the public in planning and issues related to management of lands administered by the BLM. Section 309 of FLPMA directs the Secretary to establish citizen-based advisory councils that are consistent with the Federal Advisory Committee Act (FACA). As required by FACA, council membership must be balanced and representative of the various interests concerned with the management of public lands. The rules governing advisory committees are found at 43 CFR subpart 1784.

Regional Resource Advisory Councils (RAC) seek nominations in three categories:

Category One—Holders of Federal grazing permits, representatives of organizations associated with energy and mineral development, timber industry, transportation or rights-of-way, developed outdoor recreation, off-highway vehicle use, and commercial recreation;

Category Two—Representatives of nationally or regionally recognized environmental organizations; archaeological and historic organizations, dispersed recreation activities, and wild horse and burro organizations, and;

Category Three—Representatives of state, county, or local elected office; representatives and employees of a state agency responsible for management of natural resources; representatives of Indian tribes within or adjacent to the area for which the council is organized; representatives of academia who are employed in natural sciences; and the public-at-large.

The Steens Mountain Advisory Council seeks a member of the Burns Paiute Tribe.

County Payment RACs seek nominations for these three categories:

Category One—Representatives of organized labor or non-timber forest product harvester groups; commercial or developed outdoor recreation activities or off-highway vehicle users; energy and mineral development interests or commercial or recreational fishing interests; commercial timber industry; or holders of Federal grazing permits or other land permits, or nonindustrial private forest land owners within the area for which the committee is organized.

Category Two—Representatives of nationally, regionally or locally recognized environmental organizations; dispersed recreational activities; archaeological and historical interests; or nationally or regionally recognized wild horse and burro interest groups, wildlife or hunting organizations, or watershed associations.

Category Three—Persons who hold State elected office (or a designee); hold county or local elected office; represent American Indian tribes within or adjacent to the committee area; represent the affected public-at-large; or area school officials or teachers. Individuals may nominate themselves or others. Nominees must be residents of the state or region in which the council has jurisdiction. The BLM will evaluate nominees based on their education, training, experience, and knowledge of the geographical area of the council. Nominees should demonstrate a commitment to collaborative resource decision-making. A Presidential Memorandum prohibits individuals who are currently Federally-registered lobbyists from being appointed to any FACA or non-FACA boards, committees, or councils. All nominations must include: (1) Letters of reference from the stakeholder interest area to be represented; (2) a completed background information nomination form; and (3) other information that addresses the nominee's qualifications.

Notice of Designation of Elkhorn Ridge Wilderness, California

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: This notice implements Section 6 of the Northern California Coastal Wild Heritage Wilderness Act (Act) (Pub. L. 109-362). The Act designates the 11,271 acre Elkhorn

Ridge Potential Wilderness Area and requires that this area "shall be designated as wilderness and as a component of the National Wilderness Preservation System, on the earlier of— (1) the date on which the Secretary publishes in the **Federal Register** notice that the conditions in the potential wilderness area that are incompatible with the Wilderness Act (16 U.S.C. 1131 *et seq.*) have been removed; or (2) the date that is 5 years after the date of enactment of this Act."

The Secretary of the Interior has determined that the conditions of the Elkhorn Ridge Potential Wilderness Area that were incompatible have been removed, and therefore the area is now suitable for wilderness designation.

DATES: The Elkhorn Ridge Potential Wilderness Area shall become the Elkhorn Ridge Wilderness on January 13, 2011.

ADDRESSES: Bureau of Land Management, Arcata Field Office, 1695 Heindon Road, Arcata, California 95521. Detailed information concerning this action is available for review at this address.

FOR FURTHER INFORMATION CONTACT: Bob Wick, Bureau of Land Management, at the above address or at (707) 825-2321.

SUPPLEMENTARY INFORMATION: Section 6(b) of the Act provides that the 11,271 acre Elkhorn Ridge Potential Wilderness Area be managed as wilderness except as necessary for ecological restoration and subject to valid existing rights until its designation as wilderness. Section 6(c) of the Act allows the Bureau of Land Management (BLM) to use motorized equipment and mechanized transport for ecological restoration within the potential wilderness area, but requires that restoration to the maximum extent practicable be undertaken through the "minimum tool or administrative practice necessary * * * with the least amount of adverse impact on wilderness character and resources."

The Elkhorn Ridge area's designation as a potential wilderness was intended to provide the Secretary of the Interior, through the BLM, time to assess and, if necessary, restore 1,565 acres of previously logged private in-holdings acquired shortly before the Act's passage.

After designation of the Elkhorn Ridge Potential Wilderness Area, the BLM's Arcata Field Office assessed the in-holdings to determine their condition relative to the Act and the BLM wilderness inventory criteria. Through this assessment, the BLM determined that impacts from past activities are successfully recovering through natural

rehabilitation and are compatible with the Act's requirements and with wilderness designation. The Elkhorn Ridge Potential Wilderness Area appears to have been affected primarily by the forces of nature and exhibits outstanding opportunities for solitude and primitive and unconfined recreation. Although some traces of past logging operations and associated road construction remain, the BLM has determined that the benefits of mechanized restoration are outweighed by the adverse impacts of such mechanized restoration on wilderness character. The BLM has determined that additional restoration actions would not be beneficial or necessary prior to wilderness designation and would not further the purposes of the Act.

As provided for under section 6(d) and 6(e) of the Act, the Elkhorn Ridge Potential Wilderness Area shall become wilderness on January 13, 2011. The area shall be known as the Elkhorn Ridge Wilderness and administered in accordance with section 4 of the Wilderness Act (16 U.S.C. 1131 *et seq.*). As the Elkhorn Ridge Potential Wilderness Area has been managed as wilderness pursuant to section 6(b) of the Act, the designation of this area as wilderness will not change any public uses of the area. The BLM will take this designation of the Elkhorn Ridge Wilderness into account as it moves forward with its long term planning and management.

Authority: Sec. 6, Pub. L. 109-362.

Sylvia V. Baca,

Deputy Assistant Secretary, Land and Minerals Management.
