SUPPLEMENTARY INFORMATION:

Title: WIC Financial Management and Participation Report with Addendum.

OMB Number: 0584-0045.

Form Number: FNS 798 and FNS 798A.

Expiration Date: 09-30-2011.

Type of Request: Revision of a Currently Approved Collection Form.

Abstract: Section 17(f)(4) of the Child Nutrition Act of 1966 (42 U.S.C.

1786(f)(4)) provides that "State agencies shall submit monthly financial reports and participation data to the Secretary" (See also 7 CFR 246.25(b)(1)). The WIC Financial Management and Participation Report with Addendum (FNS-798 and FNS-798A) are the forms State agencies complete to comply with this requirement. FNS and State agencies use the reported information for program monitoring, funds management, budget projections, monitoring caseload, policy development, and responding to requests from Congress and interested parties.

In addition, nonentitlement programs, such as the Special Supplemental Nutrition Program for Women, Infants, and Children (WIC), are required to conduct an annual closeout and reconciliation of grants. Departmental regulations at 7 CFR 3016.23(b) require that "[a] grantee must liquidate all obligations incurred under the award not later than 90 days after the end of the funding period (or as specified in a program regulation) to coincide with the submission of the annual Federal Financial Report (SF-425)." WIC Program regulations at 7 CFR 246.17(b)(2) instruct State agencies to "submit to FNS, within 120 days after the end of the fiscal year, final fiscal year closeout reports." The final WIC Financial Management and Participation Report (FNS-798) submitted for the year with its addendum (FNS-798A) are used as a substitute for the SF-425, because they maintain the integrity of WIC's two grant components (food and nutrition services and administration (NSA)) as well as the four NSA grant components (program management, client services,

nutrition education, and breastfeeding promotion and support).

The proposed revision of the WIC Financial Management and Participation Report (FNS-798) and its addendum (FNS-798A) will modify the format for reporting unliquidated NSA obligations. The current FNS-798 requires unliquidated NSA obligations to be reported in the columns corresponding to the 12 months of the fiscal year in which the obligations are incurred. These obligation amounts are then revised downward as outlays and deobligations are made. WIC State agencies have determined reporting downward adjustments for outlays and deobligations is more laborious when reported by obligation month rather than as an adjustment to a cumulative amount. Therefore, the proposed revision will return to a prior format to allow WIC State agencies to report unliquidated NSA obligations as a cumulative year-to-date total.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 3.35 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. The total annual burden on respondents was previously 4,523 hours. This revision does not change the total annual burden of 190 hours.

Affected Public: State, Local and Tribal Agencies: Respondent Type: Directors or Administrators of WIC state agencies.

Estimated Number of Respondents: 90 respondents.

Estimated Number of Responses per Respondent: 15.

Estimated Total Annual Burden on Respondents: 4,523 hours.

Dated: January 12, 2011.

Julia Paradis,

Administrator, Food and Nutrition Service.

SUPPLEMENTARY INFORMATION:

Background

Codex was established in 1963 by two United Nations organizations, the Food and Agriculture Organization (FAO) and the World Health Organization (WHO). Through adoption of food standards, codes of practice, and other guidelines developed by its committees, and by promoting their adoption and implementation by governments, Codex seeks to protect the health of consumers and ensure that fair practices are used in trade.

The CCFA establishes or endorses permitted maximum levels for individual additives; prepares priority lists of food additives for risk assessment by the Joint FAO/WHO Expert Committee on Food Additives (JECFA); assigns functional classes to individual food additives; recommends specifications of identity and purity for food additives for adoption by Codex; considers methods of analysis for the determination of additives in food; and considers and elaborates standards or codes for related subjects, such as labeling of food additives when sold as such.

The Committee is hosted by China.

Issues To Be Discussed at the Public Meeting

The following items on the agenda for the 43rd Session of the CCFA will be discussed during the public meeting:

- Matters referred by Codex and other Codex committees and task forces.
- Matters of interest arising from FAO/WHO and from the 73rd Meeting of the JECFA.
- Endorsement and revision of maximum levels for food additives and processing aids in Codex standards.
- Discussion paper on food additive provisions in the *Standard for infant formulas and formula for special medical purposes* (CODEX STAN 72-1981).
- Discussion paper on the alignment of the food additive provisions of the standards for meat products and
