

clarified Section 207 rules. Among other things, the *Order on Reconsideration* clarified how declaratory rulings and waivers in this matter are to be served on all interested parties. If a local government seeks a declaratory ruling or a waiver, it must take steps to afford reasonable, constructive notice to residents in its jurisdiction (e.g., by placing notices in a local newspaper of general circulation). Certificates of service and proof of constructive notice also must be provided to the Commission with the petition. In this regard, the petitioner should provide the Commission with a copy of the notice and an explanation of where the notice was placed and how many people the notice might reasonably have reached.

Nature and Extent of Confidentiality: Confidentiality is not required for this collection of information.

Privacy Impact Assessment: No impact(s).

Needs and Uses: FCC Form 387 is used by licensees and permittees of full-power television stations to detail their digital television (DTV) transition status and to report the completion of their transition—specifically, that they have begun operating their full facility as authorized by the post-transition DTV Table Appendix B. The DTV transition deadline passed on June 12, 2009, meaning that full-power television stations may now broadcast only in digital. However, there are still some full-power TV stations that, because of a “tolling” event, have not commenced digital broadcasting (and so are off-the-air) or that are not operating at their full,

authorized digital facility. Therefore, such stations are required to file the FCC Form 387 if and when they commence full, authorized digital operations.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-xxxx.

Title: Satellite Digital Audio Radio Service (SDARS).

Form No.: Not applicable.

Type of Review: New information collection.

Respondents: Business and other for-profit.

Number of Respondents/Responses: 1 respondent; 74 responses.

Estimated Time per Response: 4-12 hours per response.

Frequency of Response: On occasion reporting requirement; recordkeeping requirement; Third party disclosure requirement.

Obligation to Respond: Required to obtain or retain benefits. The statutory authority for this collection is contained in Sections 47 U.S.C. 701-744; Sections 4, 301, 302, 303, 307, 309, and 332 of the Communications Act, as amended, 47 U.S.C. 154, 301, 302a, 303, 307, 309, and 332.

Total Annual Burden: 400 hours.

Annual Cost Burden: \$175,020.

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: In general, there is no need for confidentiality with this collection of information.

Needs and Uses: The Federal Communications Commission ("Commission") is requesting approval from the Office of Management and Budget (OMB) to establish a new information collection titled, "Satellite Digital Audio Radio Service (SDARS), Rule Sections: 25.144(e)(3), (e)(8), (e)(9); 25.263(b), (c)."

The Commission released a Second Report and Order (FCC 10-82; IB Docket No. 95-91) on May 20, 2010, in which the agency accomplished three goals: (1) Adopted technical rules governing the operation of SDARS repeaters that will not constrain their function or deployment but will limit the potential for harmful interference to adjacent Wireless Communications Service (WCS) spectrum users by requiring SDARS licensees to notify WCS licensees prior to the deployment of new or modified SDARS terrestrial repeaters; (2) established a blanket-licensing regime for repeaters up to 12 kilowatts (kW) average equivalent isotropically radiated power (EIRP) to facilitate the flexible deployment of SDARS repeaters while ensuring that such repeater operations comply with the Commission's rules regarding RF safety, antenna marking and lighting, equipment authorization and international agreements; and, (3) established site-by-site licensing regime for repeaters operating above 12 kW (average) EIRP, or otherwise not in compliance with the rules adopted for SDARS terrestrial repeater operations.

The information collection requirements accounted for in this collection are necessary to determine the technical and legal qualifications of SDARS applicants or licensees to operate a station, transfer or assign a license, and to determine whether the authorization is in the public interest, convenience and necessity. Without such information, the Commission could not determine whether to permit respondents to provide SDARS services in the U.S. Therefore, the Commission would be unable to fulfill its statutory responsibilities in accordance with the Communications Act of 1934, as amended.
