

Section 13.217 requires that each Commercial Operator License Examination Manager (COLEM) recovering fees from examinees who took the Commercial Operator Examination must maintain records of expenses and revenues, frequency of examinations administered, and examination pass rates. These records must cover the period from January 1 to December 31 of the preceding year, be maintained for one year, and be made available to the Commission upon request. This recordkeeping requirement is in place in order to assist the Commission in detecting any wrongdoing within the commercial operator examination program.

The records are journal entries showing revenues collected and expenses incurred. The records may be inspected by FCC field investigators. The records will provide a vehicle for the FCC to cancel the designation of a person or organization as an examination manager. If the information were not maintained, it is conceivable that fraud and abuse could occur in the commercial operator examination program.
