

on November 22, 2010,¹ we notified the International Trade Commission, in writing, that we intended to issue a final determination revoking these antidumping duty orders. See 19 CFR 351.218(d)(1)(iii)(B)(2).

Scope of the Orders

The products covered by these orders are certain forged stainless steel flanges, both finished and not finished, generally manufactured to specification ASTM A-182, and made in alloys such as 304, 304L, 316, and 316L. The scope includes five general types of flanges. They are weld-neck, used for butt-weld line connections; threaded, used for threaded line connections; slip-on and lap joint, used with stub-ends/butt-weld line connections; socket weld, used to fit pipe into a machined recession; and blind, used to seal off a line. The sizes of the flanges within the scope range generally from one to six inches; however, all sizes of the above-described merchandise are included in the scope. Specifically excluded from the scope of these orders are cast stainless steel flanges. Cast stainless steel flanges generally are manufactured to specification ASTM A-351. The flanges subject to these orders are currently classifiable under subheadings 7307.21.1000 and 7307.21.5000 of the Harmonized Tariff Schedule of the United States (HTSUS). Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the merchandise subject to these orders is dispositive of whether or not the merchandise is covered by the scope of the orders.

Determination To Revoke and Effective Date of Revocation

Pursuant to section 751(c)(3)(A) of the Tariff Act of 1930, as amended (the Act) and 19 CFR 351.218(d)(1)(iii)(B)(3), if no domestic interested party files a notice of intent to participate, the Department shall, within 90 days after the initiation of the sunset review, issue a final determination revoking the order. Because the domestic interested parties did not file a notice of intent to participate in these sunset reviews, the Department finds that no domestic interested party is participating in these sunset reviews. Therefore, consistent with 19 CFR 351.222(i)(1)(i) and section 751(c)(3)(A) of the Act, we are revoking the antidumping duty orders. The effective date of revocation of these antidumping duty orders is January 23,

¹ The deadline for this notification fell on November 21, 2010, a Sunday. Accordingly, we notified the International Trade Commission on the next business day.

2011, the fifth anniversary of the date of publication in the **Federal Register** of the most recent notice of continuation of this antidumping duty order. See *Notice of Continuation*.

Termination of Suspension of Liquidation

Pursuant to section 751(c)(3)(A) of the Act and 19 CFR 351.222(i)(2)(i), the Department intends to issue instructions to U.S. Customs and Border Protection, 15 days after publication of this notice, to terminate the suspension of liquidation of the merchandise subject to these orders entered, or withdrawn from warehouse, on or after January 23, 2011. Entries of subject merchandise prior to the effective date of revocation will continue to be subject to suspension of liquidation and antidumping duty deposit requirements. The Department will complete any pending administrative reviews of these orders and will conduct administrative reviews of subject merchandise entered prior to the effective date of revocation in response to appropriately filed requests for review.

These five-year (sunset) reviews and notice are published in accordance with sections 751(c) and 777(i)(1) of the Act.

Dated: January 25, 2011.

Christian Marsh,

Acting Deputy Assistant Secretary for Import Administration.

Honey From Argentina: Notice of Initiation of Antidumping Duty New Shipper Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (the Department) has received a request for a new shipper review of the antidumping duty order on honey from Argentina. See *Notice of Antidumping Duty Order: Honey From Argentina*, 66 FR 63672 (December 10, 2001) (*Order*). In accordance with section 751(a)(2)(B) of the Tariff Act of 1930, as amended (the Act), and 19 CFR 351.214(d), we are initiating an antidumping duty new shipper review of Villamora S.A. (Villamora). The period of review (POR) of this new shipper review is December 1, 2009, through November 30, 2010.

DATES: *Effective Date:* January 31, 2011.

FOR FURTHER INFORMATION CONTACT: Patrick Edwards or Angelica Mendoza, AD/CVD Operations, Office 7, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230, telephone: (202) 482-8029 or (202) 482-3019, respectively.

SUPPLEMENTARY INFORMATION:

Background

On December 10, 2001, the Department published the antidumping duty order on honey from Argentina. See *Order*, 66 FR at 63672. Thus, the antidumping duty order on honey from Argentina has a December anniversary month. On January 3, 2011, the Department received a timely filed request dated December 31, 2010, for a new shipper review from Villamora. In its request for a review, Villamora identified itself as an exporter of the subject merchandise. For the purpose of initiating this new shipper review, the Department determines that Villamora's submission was timely filed.

Pursuant to the requirements set forth in section 751(a)(2)(B)(i) of the Act and 19 CFR 351.214(b)(2), Villamora certified that (1) it did not export subject merchandise to the United States during the period of investigation (POI) (see section 751(a)(2)(B)(i)(I) of the Act and 19 CFR 351.214(b)(2)(i)); and (2) since the initiation of the investigation, it has never been affiliated with any company that exported subject merchandise to the United States during the POI, including those companies not individually examined during the investigation (see section 751(a)(2)(B)(i)(II) of the Act and 19 CFR 351.214(b)(2)(iii)(A)). Additionally, in accordance with 19 CFR 351.214(b)(2)(iv), Villamora submitted documentation establishing the following: (1) The date on which it first shipped subject merchandise to the United States; (2) the volume of its first shipment; and (3) the date of its first sale to an unaffiliated purchaser for exportation to the United States. Villamora also stated it had no shipments to the United States during the period subsequent to its first shipment.

Initiation of Review

Based on information on the record and in accordance with section 751(a)(2)(B) of the Act, and 19 CFR 351.214(d), we find that the request submitted by Villamora meets the statutory and regulatory requirements for initiation of a new shipper review. See Memorandum to the File, through Angelica L. Mendoza, Program Manager, regarding "Initiation of the Antidumping

Duty New Shipper Review: Honey from Argentina,” dated January 25, 2011. Accordingly, we are initiating a new shipper review of the antidumping duty order on honey from Argentina exported by Villamora, for the period December 1, 2009, through November 30, 2010. We intend to issue the preliminary results of this review no later than 180 days after the date on which this review is initiated, and the final results within 90 days after the date on which we issue the preliminary results. See section 751(a)(2)(B)(iv) of the Act and 19 CFR 351.214(h)(i).

We will instruct U.S. Customs and Border Protection (CBP) to allow, at the option of the importer, the posting, until the completion of the review, of a bond or security in lieu of a cash deposit for certain entries of the subject merchandise exported by Villamora in accordance with section 751(a)(2)(B)(iii) of the Act and 19 CFR 351.214(e). Because Villamora certified that it exports the subject merchandise, the sale of which forms the basis for its new shipper review request, we will instruct CBP to permit the use of a bond only for entries of subject merchandise which Villamora exported.

Interested parties may submit applications for disclosure under administrative protective order in accordance with 19 CFR 351.305 and 351.306.

This initiation and this notice are issued and published in accordance with section 751(a)(2)(B) of the Act and 19 CFR 351.214 and 351.221(c)(1)(i).

Dated: January 25, 2011.

Christian Marsh,

Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

Non-Malleable Cast Iron Pipe Fittings from the People's Republic of China: Preliminary Results of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: In response to a timely request from NEP Tianjin Machinery Company (“NEP Tianjin”) the Department of Commerce (the “Department”) is conducting the 2009–2010 administrative review of the antidumping duty order on non-

malleable cast iron pipe fittings (“pipe fittings”) from the People's Republic of China (“PRC”). The Department has reviewed shipments of subject merchandise made by NEP Tianjin and has determined that NEP Tianjin made sales below normal value (“NV”) during the period of review (“POR”). If the preliminary results are adopted in our final results of review, we will instruct U.S. Customs and Border Protection (“CBP”) to assess antidumping duties on entries of subject merchandise during the POR for which the importer-specific assessment rates are above *de minimis*.

We invite interested parties to comment on these preliminary results of review. Parties who submit comments are requested to submit with each argument a statement of the issue and a brief summary of the argument. We intend to issue the final results no later than 120 days from the date of publication of this notice.

DATES: *Effective Date:* January 31, 2011.

FOR FURTHER INFORMATION CONTACT:

Karine Gziryan, AD/CVD Operations, Office 4, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; *telephone:* (202) 482–4081.

SUPPLEMENTARY INFORMATION:

Background

On April 7, 2003, the Department published an antidumping duty order on pipe fittings from the PRC.¹ The Department received a timely request for review of this antidumping order in accordance with 19 CFR 351.213(b)(2) from NEP Tianjin. On May 28, 2010, the Department published a notice of initiation of an antidumping duty administrative review on pipe fittings from the PRC, in which it initiated a review of NEP Tianjin.²

On June 7, 2010, the Department issued the antidumping duty questionnaire to NEP Tianjin. We received a timely questionnaire response from NEP Tianjin. We issued supplemental questionnaires for sections A, C, and D to NEP Tianjin in September and October 2010, followed with secondary supplemental questionnaires for sections C and D in November 2010. We received timely responses from NEP Tianjin to our supplemental questionnaires between

October 20, 2010, and December 8, 2010.

On October 22, 2010, the Department identified India, the Philippines, Indonesia, Thailand, Ukraine, and Peru as a non-exhaustive list of countries that are at a level of economic development comparable to the PRC and for which good quality data is most likely available.³ In response to the Department's October 22, 2010, letter providing parties with an opportunity to submit comments regarding surrogate country and surrogate value (“SV”) selection, NEP Tianjin submitted surrogate country and SV comments on November 9, 2010, and December 8, 2010, respectively.

On December 7, 2010, the Department extended the deadline for the preliminary results of administrative review until January 31, 2011.⁴

Period of Review

The POR is April 1, 2009, through March 31, 2010.

Scope of Order

The products covered by the order are finished and unfinished non-malleable cast iron pipe fittings with an inside diameter ranging from ¼ inch to 6 inches, whether threaded or unthreaded, regardless of industry or proprietary specifications. The subject fittings include elbows, ells, tees, crosses, and reducers as well as flanged fittings. These pipe fittings are also known as “cast iron pipe fittings” or “gray iron pipe fittings.” These cast iron pipe fittings are normally produced to ASTM A-126 and ASME B.16.4 specifications and are threaded to ASME B1.20.1 specifications. Most building codes require that these products are Underwriters Laboratories (UL) certified. The scope does not include cast iron soil pipe fittings or grooved fittings or grooved couplings.

Fittings that are made out of ductile iron that have the same physical characteristics as the gray or cast iron fittings subject to the scope above or which have the same physical characteristics and are produced to ASME B.16.3, ASME B.16.4, or ASTM A-395 specifications, threaded to ASME

³ See Memorandum from Carole Showers, Director, Office of Policy to Robert Bolling, Program Manager, Operations, NME unit, Office 4, “Request for a List of Surrogate Countries for and Administrative Review of the Antidumping Duty Order on Non-Malleable Cast Iron Pipe Fittings from the People's Republic of China,” dated October 22, 2010 (“Surrogate Countries Memorandum”).
