

appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: This information collection is being conducted by EPA's Office of Air and Radiation (OAR) to assist the EPA Administrator, as required by sections 111(b), 112(d), and 112(f)(6) of the Clean Air Act (CAA), as amended, to reevaluate emission standards for this source category. The non-confidential information from this information collection request (ICR) would also be made available to the public.

The proposed ICR has four components. To obtain the information necessary to identify and categorize all units potentially affected by any future revision to a standard, the first component of this ICR will solicit information from all potentially affected units at all 152 refineries in the format of an electronic survey under authority of section 114 of the CAA. This survey will include questions about the facility and individual emissions sources, and it will ask the owners/operators to submit cost data and provide copies of recent emissions test reports and continuous emission monitoring system (CEMS)/continuous monitoring system (CMS) data. The second component will ask the owners/operators to develop and provide an emissions inventory. The third component will ask the owners/operators to conduct sampling and analysis of the feed to the distillation columns at their refinery over a specific time period. The first three components will be submitted to all facilities listed in the *Energy Information Administration's Refinery Capacity Report 2009*. The fourth component will consist of requiring emissions testing, again pursuant to the authority of section 114 of the CAA.

EPA is issuing a single collection of information for sources covered under 40 CFR part 63, subparts CC and UUU and 40 CFR part 60, subpart J so that EPA can, at one time, assess whether additional control strategies are necessary and, if so, which are the most effective for hazardous air pollutants (HAP), regulated under CAA section 112, and criteria air pollutants (such as particulate matter, sulfur dioxide, and nitrogen oxide), regulated under CAA section 111. The data would also allow EPA to evaluate compliance options for startup and shutdown periods and consider ways to consolidate monitoring, reporting and recordkeeping requirements for the different rules under review. The data may also help EPA conduct reviews of other rules specific to petroleum

refineries, including Standards of Performance for Equipment Leaks of VOC in Petroleum Refineries (40 CFR part 60, subpart GGG), Standards of Performance for VOC Emissions from Petroleum Refinery Wastewater Systems (40 CFR part 60, subpart QQQ), and the National Emission Standard for Benzene Waste Operations (40 CFR part 61, subpart FF).

The data collected will be used to update and augment facility and emissions source information already available to the Agency, develop new estimates of the population of affected units, and identify the control measures and alternative emission limits being used for compliance with the existing rules that are under review. This information, along with existing emission limits, will be used to establish the baseline emissions and control levels for purposes of the regulatory reviews. The emissions test data (test reports, CEMS data, and CMS data) collected will be used to assess the effectiveness of existing control measures, examine variability in emissions, evaluate the stringency of existing emission limits, identify the most effective control measures considered for purposes of reducing residual risk, and provide a basis for estimating nationwide emissions from emissions sources for which EPA has little information. Emissions data will also be used, along with process and emissions unit details, to consider options for best demonstrated technology under the NSPS review, to consider subcategories for further regulation, and to estimate the environmental and cost impacts associated with any regulatory options considered.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 256 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and use technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information;

and transmit or otherwise disclose the information.

Respondents/Affected Entities: Respondents affected by this action are owners/operators of petroleum refineries, all of which are expected to have the potential to be subject to one of the regulatory standards being reviewed or developed by EPA. Petroleum refineries are facilities engaged in refining and producing products made from crude oil or unfinished petroleum derivatives.

Estimated Number of Respondents: 152.

Frequency of response: Once.

Estimated total annual burden hours: 69,342 hours.

Estimated total annual burden costs: \$30,924,069, which includes \$912 in O&M costs.

Dated: January 26, 2011.

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OPP-2011-0004; FRL-8862-1]

Pesticide Products; Registration Applications

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has received applications to register pesticide products containing active ingredients not included in any previously registered pesticide products. Pursuant to the provisions of section 3(c)(4) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), EPA is hereby providing notice of receipt and opportunity to comment on these applications.

DATES: Comments must be received on or before March 4, 2011.

ADDRESSES: Submit your comments, identified by docket identification (ID) number and the file symbol(s) for the product(s) of interest as listed in Unit II, by one of the following methods:

- **Federal eRulemaking Portal:** <http://www.regulations.gov>. Follow the on-line instructions for submitting comments.
- **Mail:** Office of Pesticide Programs (OPP) Regulatory Public Docket (7502P), Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460-0001.
- **Delivery:** OPP Regulatory Public Docket (7502P), Environmental Protection Agency, Rm. S-4400, One Potomac Yard (South Bldg.), 2777 S.

Crystal Dr., Arlington, VA. Deliveries are only accepted during the Docket Facility's normal hours of operation (8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays). Special arrangements should be made for deliveries of boxed information. The Docket Facility telephone number is (703) 305-5805.

Instructions: Direct your comments to the docket ID number and the file symbol(s) for the product(s) of interest as listed in Unit II. EPA's policy is that all comments received will be included in the docket without change and may be made available on-line at <http://www.regulations.gov>, including any personal information provided, unless the comment includes information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Do not submit information that you consider to be CBI or otherwise protected through [regulations.gov](http://www.regulations.gov) or e-mail. The [regulations.gov](http://www.regulations.gov) Web site is an

"anonymous access" system, which means EPA will not know your identity or contact information unless you provide it in the body of your comment. If you send an e-mail comment directly to EPA without going through [regulations.gov](http://www.regulations.gov), your e-mail address will be automatically captured and included as part of the comment that is placed in the docket and made available on the Internet. If you submit an electronic comment, EPA recommends that you include your name and other contact information in the body of your comment and with any disk or CD-ROM you submit. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment. Electronic files should avoid the use of special characters, any form of encryption, and be free of any defects or viruses.

Docket: All documents in the docket are listed in the docket index available at <http://www.regulations.gov>.

Although, listed in the index, some information is not publicly available, e.g., CBI or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the Internet and will be publicly available only in hard copy form. Publicly available docket materials are available either in the electronic docket at <http://www.regulations.gov>, or, if only available in hard copy, at the OPP Regulatory Public Docket in Rm. S-4400, One Potomac Yard (South Bldg.), 2777 S. Crystal Dr., Arlington, VA. The hours of operation of this Docket Facility are from 8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays. The Docket Facility telephone number is (703) 305-5805.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

You may be potentially affected by this action if you are an agricultural producer, food manufacturer, or pesticide manufacturer. Potentially affected entities may include, but are not limited to:

- Crop production (NAICS code 111).
- Animal production (NAICS code 112).
- Food manufacturing (NAICS code 311).
- Pesticide manufacturing (NAICS code 32532).

This listing is not intended to be exhaustive, but rather provides a guide for readers regarding entities likely to be affected by this action. Other types of entities not listed in this unit could also be affected. The North American Industrial Classification System (NAICS) codes have been provided to assist you and others in determining whether this action might apply to certain entities. If you have any questions regarding the applicability of this action to a particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

B. What should I consider as I prepare my comments for EPA?

1. *Submitting CBI.* Do not submit this information to EPA through [regulations.gov](http://www.regulations.gov) or e-mail. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD-ROM as CBI and then identify electronically within the disk or CD-ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI

must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for preparing your comments.* When submitting comments, remember to:

i. Identify the document by docket ID number and other identifying information (subject heading, **Federal Register** date and page number).

ii. Follow directions. The Agency may ask you to respond to specific questions or organize comments by referencing a Code of Federal Regulations (CFR) part or section number.

iii. Explain why you agree or disagree; suggest alternatives and substitute language for your requested changes.

iv. Describe any assumptions and provide any technical information and/or data that you used.

v. If you estimate potential costs or burdens, explain how you arrived at your estimate in sufficient detail to allow for it to be reproduced.

vi. Provide specific examples to illustrate your concerns and suggest alternatives.

vii. Explain your views as clearly as possible, avoiding the use of profanity or personal threats.

viii. Make sure to submit your comments by the comment period deadline identified.

II. Registration Applications

EPA has received applications to register pesticide products containing active ingredients not included in any previously registered pesticide products. Pursuant to the provisions of section 3(c)(4) of FIFRA, EPA is hereby providing notice of receipt and opportunity to comment on these applications. Notice of receipt of these applications does not imply a decision by the Agency on these applications.

ENVIRONMENTAL PROTECTION AGENCY

[EPA–HQ–OPP–2010–0548; FRL–8863–6]

Petition for a Ban on Triclosan; Notice of Availability; Extension of Comment Period

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice; extension of comment period.

SUMMARY: EPA issued a notice in the **Federal Register** of December 8, 2010 concerning the availability of a petition submitted by Beyond Pesticides and Food & Water Watch to the Environmental Protection Agency for review and public comment. The petition asks EPA to use its authority under various statutes to regulate triclosan. In a letter to the EPA dated January 22, 2011, Beyond Pesticides and Food & Water Watch requested a 60 day extension to the comment period. In response to this request, this document extends the comment period for 60 days, from February 7, 2011 to April 8, 2011.

DATES: Comments, identified by docket identification (ID) number EPA–HQ–OPP–2010–0548, must be received on or before April 8, 2011.

ADDRESSES: Follow the detailed instructions as provided under **ADDRESSES** in the **Federal Register** document of December 8, 2010.

FOR FURTHER INFORMATION CONTACT: Timothy F. McMahon, Antimicrobials Division (7510P), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460–0001; telephone number: (703) 308–6342; e-mail address: mcmahon.tim@epa.gov.

SUPPLEMENTARY INFORMATION: This document extends the public comment period established in the **Federal Register** of December 8, 2010 (75 FR 764613) (FRL–8852–8). In that document, the Agency made available for review and public comment a petition submitted by Beyond Pesticides and Food & Water Watch (hereafter referred to as “the petitioners”) to the Environmental Protection Agency (hereafter referred to as “EPA” or “the Agency”), asking EPA to use its

authority under various statutes to regulate triclosan. Triclosan is an antimicrobial substance used in pesticide products, hand sanitizers, toothpaste, and other consumer products. The petitioners claim that the “pervasive and widespread use” of triclosan poses significant risks to human health and the environment. In addition, the petitioners claim that the “agency failed to address the impacts posed by triclosan’s degradation products on human health and the environment, failed to conduct separate assessments for triclosan residues in contaminated drinking water and food, and is complacent in seriously addressing concerns related to antibacterial resistance and endocrine disruption.” Under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and the Federal Food, Drug, and Cosmetic Act (FFDCA), the petitioners ask EPA to act to cancel and suspend the registration of pesticides containing triclosan. Under the Clean Water Act (CWA), the petitioners request that the Administrator impose technology-based effluent limitations, health-based toxic pollutant water quality pretreatment requirements, and biosolids regulation for triclosan. Under the Safe Drinking Water Act (SDWA), the petitioners request that the Administrator conduct a comprehensive assessment of the appropriateness of regulating triclosan under SDWA. Under the Endangered Species Act (ESA), the petitioners request that the Administrator comply fully with ESA, including consultation and biological assessment requirements. In a letter submitted to the Agency dated January 22, 2011, Beyond Pesticides and Food & Water Watch requested a 60 day extension to the comment period. EPA is hereby extending the comment period, which was set to end on February 7, 2011, to April 8, 2011.

To submit comments, or access the docket, please follow the detailed instructions as provided under **ADDRESSES** in the December 8, 2010 **Federal Register** document. If you have questions, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.
