

existing MPAs. It does not bring State, territorial or local sites under Federal authority. It does not establish new regulatory authority or interfere with the exercise of existing agency authorities. The national system is a mechanism to foster greater collaboration among participating MPA sites and programs to enhance stewardship in the marine waters of the United States.

Nomination Process

The Framework describes a nomination process to allow existing MPAs that meet the entry criteria to become part of the system.

There are four entry criteria for existing MPAs to join the national system, including one that applies only to cultural heritage. Sites that meet all pertinent criteria are eligible for the national system.

1. Meets the definition of an MPA as defined in the Framework.
2. Has a management plan (can be site-specific or part of a broader programmatic management plan; must have goals and objectives and call for monitoring or evaluation of those goals and objectives).
3. Contributes to at least one priority conservation objective as listed in the Framework.
4. Cultural heritage MPAs must also conform to criteria for the National Register for Historic Places.

The MPA Center used existing information contained in the MPA Inventory to determine which MPAs meet the first and second criteria. The inventory is online at http://www.mpa.gov/helpful_resources/inventory.html, and potentially eligible sites are posted online at <http://www.mpa.gov/pdf/national-system/nominationssummary810.pdf>.

As part of the nomination process, the managing entity for each potentially eligible site is asked to provide information on the third and fourth criteria.

Updates to List of National System MPAs

On July 6, 2010, the following MPAs were nominated by the National Marine Fisheries Service, in consultation with the Mid Atlantic Fishery Management Council, to join the national system.

Federal Marine Protected Areas

The nominations were open for a 30-day public comment period from July 6–August 5, 2010. No public comments were received. List of MPAs Nominated to the National System—Available for Public Comment

On December 27, 2010, NOAA published a **Federal Register** notice announcing the nomination of 38 MPAs by State and territorial resource agencies to join the national system of MPAs. However, the published list was incomplete, listing only 24 MPAs nominated by California, rather than 31. The corrected list is provided here. A list providing more detail for each site is available at <http://www.mpa.gov>.

Comments

A 60-day public comment Notice was published in the **Federal Register** on November 23, 2010. This comment period ended January 24, 2011. One non-substantive (process) public comment was received from this Notice and a response was provided.

Description: The Corporation is seeking approval of AmeriCorps National Civilian Community Corp's NCCC Sponsor Survey which is used by NCCC projects and partnerships office to collect project performance data.

Type of Review: New.

Agency: Corporation for National and Community Service.

Title: NCCC Sponsor Survey.

OMB Number: None.

Agency Number: None.

Affected Public: The NCCC sponsor survey will be administered to the project sponsor for any NCCC service project. These sponsors apply to receive a 10-person NCCC team for a period of six-eight weeks to implement local service projects. There are approximately 165 projects in each of four project rounds per year. The project sponsors are uniquely able to provide the information sought in the NCCC Sponsor Survey.

Total Respondents: Based on the number of projects completed last fiscal year, NCCC expects to administer 660 surveys each fiscal year. These may not be unique responders as many sponsors receive teams on a rotating basis and thus may complete the survey more than once per year. Assuming the distribution of project types remains constant, the number of survey sections completed by a given sponsor will be distributed as follows: One section—54 respondents; two sections—228 respondents; 3 sections—270
