

database are rapidly reflected in all others.

16. The workshops will be a valuable tool for ensuring that each administrator understands the rules and effectively implements them. For example, while the rules do not specify the particular security methods that must be used, the Commission recognizes that security is critically important. Each database manager will be required to demonstrate that it is using robust security features and has established methods to remedy any security threats or breaches. Final approval of the security methods will be made by OET, working in consultation with the FCC Chief Technologist and Chief of the Public Safety and Homeland Security Bureau. OET may draw on other expertise as may be necessary to fully evaluate proposed security methods.

17. Finally, each database will be subject to a trial period of not less than 45 days before it is allowed to be made available for actual use by TV bands devices to allow interested parties an opportunity to check that the database is providing accurate results. A longer trial period may be required if the Commission determines that a database is not in compliance with the Commission's rules. OET will determine the details of each trial, balancing the need to ensure that the database is working properly with the need to avoid an unnecessarily cumbersome and burdensome process.

18. Database administrators that successfully satisfy all of the conditions herein will be allowed to make their databases available for actual use for the five-year term specified in our rules. OET will announce the public availability of each database, at which time the five-year term for that database will commence.

19. In summary, we have considered the database administrator proposals and all the comments and replies filed in response to the 2009 Public Notice. We conclude that all of the database administrator applicants before us are capable of meeting the Commission's regulatory requirements for serving as database administrators, as set forth in the Commission's rules (including the rule revisions adopted in the *Second MO&O*). Accordingly, we are designating Comsearch, Frequency Finder Inc., Google Inc., KB Enterprises LLC and LS Telcom, Key Bridge Global LLC, Neustar Inc., Spectrum Bridge Inc., Telcordia Technologies, and WSdb LLC as TV bands database administrators subject to the conditions described.

1. Each of the designated database administrators must supplement its previous filings with sufficient detailed

information to indicate how it will comply with the rule changes adopted in the *Second MO&O*. Amendments to proposals must be received by February 28, 2011. Any of the database administrators that filed separate proposals and now wish to consolidate their operations must submit an updated proposal by this same date. Any database administrators that wish to withdraw their proposals must notify the Commission by this same date.

2. All database administrators must attend workshops to be conducted by OET to address the operation of the databases to ensure consistency and compliance with the rules and the database trials, as described herein. Each administrator shall designate a responsible party who will represent its organization at the workshops and also ensure compliance with all of the conditions herein by February 28, 2011. The first workshop is scheduled for March 10, 2011 at the Commission's Laboratory in Columbia, Maryland.

3. Each database administrator must cooperate with any steps OET deems necessary to ensure compliance with the rules, including for example security features.

4. Database administrators must agree that they will not use their capacity as a database manager to engage in any discriminatory or anti-competitive practices or any practices that may compromise the privacy of users.

Ordering Clause

20. Pursuant to the authority contained in sections 4(i), 302, 303(e), 303(f), and 307 of the Communications Act of 1934, as amended, 47 U.S.C. 154(i), 302, 303(c), 303(f), and 307, and §§ 0.31 and 0.241 of the Commission's rules, 47 CFR 0.31, 0.241, Comsearch, Frequency Finder Inc., Google Inc., KB Enterprises LLC and LS Telcom, Key Bridge Global LLC, Neustar Inc., Spectrum Bridge Inc., Telcordia Technologies and WSdb LLC are conditionally designated as TV bands database administrators as set forth in § 15.715 of the Commission's rules, 47 CFR 15.715, subject to the conditions specified.

Julius P. Knapp,

Chief, Office of Engineering and Technology, Federal Communications Commission.
