

The entire “population” of wood bison in Canada is the full extent of the subspecies’ current range and no individuals occur in the wild outside this population.

Peer Review

Under our peer review policy (59 FR 34270; July 1, 1994), we will solicit the expert opinions of three appropriate and independent specialists regarding pertinent scientific or commercial data and assumptions relating to the taxonomy, population models, and supportive biological and ecological information on this proposed rule. The purpose of such review is to ensure that we base listing decisions on scientifically sound data, assumptions, and analysis. To that end, we will send copies of this proposed rule to these peer reviewers immediately following publication in the **Federal Register**.

Required Determinations

National Environmental Policy Act

We have determined that we do not need to prepare an Environmental

Assessment or Environmental Impact Statement, as defined under the authority of the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), in connection with regulations adopted pursuant to section 4(a) of the Endangered Species Act. We published a notice outlining our reasons for this determination in the **Federal Register** on October 25, 1983 (48 FR 49244).

Endangered and Threatened Species; Extension of Public Comment Period on Proposed Threatened Status for Subspecies of the Ringed Seal

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Proposed rule; extension of public comment period.

SUMMARY: We, NMFS, are extending the date by which public comments are due concerning the proposed rule to list the Arctic (*Phoca hispida hispida*), Okhotsk (*Phoca hispida ochotensis*), Baltic (*Phoca hispida botnica*), and Ladoga (*Phoca hispida ladogensis*) subspecies of the ringed seal as threatened under the Endangered Species Act of 1973, as amended (ESA). On December 10, 2010, we published a proposed rule to list these subspecies as threatened. As part of that proposal, we announced a public comment period to end on February 8, 2011. Today we extend the public comment period to March 25, 2011.

DATES: The deadline for receipt of comments on the proposed rule published on December 10, 2010 (75 FR 77476), is extended from February 8, 2011, to March 25, 2011.

SUPPLEMENTARY INFORMATION:

Background

On December 10, 2010 (75 FR 77476), we published a proposed rule to list the Arctic, Okhotsk, Baltic, and Ladoga subspecies of the ringed seal as threatened under the ESA. Based on the status of these subspecies, we also proposed protective regulations pursuant to section 4(d) of the ESA for these subspecies to include all of the prohibitions in section 9(a)(1) of the ESA.

We received requests to extend the public comment period on the proposed rule due to partial overlap of the comment period with the holiday season, and also because the comment period is scheduled concurrently with the comment period for the proposed listing of the Beringia and Okhotsk Distinct Population Segments (DPSs) of the bearded seal (*Erignathus barbatus*) (75 FR 77496). Three requesters asked for an additional 30 days; and one requester asked for an additional 60 days. We have considered these requests and conclude that a 45-day extension should allow sufficient time for responders to submit comments without significantly delaying this rulemaking process. We are therefore extending the public comment period, which was scheduled to end February 8, 2011, to March 25, 2011, to allow additional time for public comment. A 45-day extension of the public comment period on the proposed rule to list DPSs of the bearded seal is published concurrently as a separate notice.
