The formal complaint rules will facilitate prompt and effective enforcement of the

rules adopted in the OI R&O, which is crucial to preserving an open Internet and providing clear guidance to stakeholders.

Needs and Uses: The rules adopted in the Open Internet and Broadband Industry Practices, Report and Order, GN Docket No. 09-191, WC Docket No. 07-52, FCC 10-201, require all providers of broadband Internet access service to publicly disclose accurate information regarding the network management practices, performance, and commercial terms of their broadband Internet access services sufficient for consumers to make informed choices regarding use of such services and for content, application, service, and device providers to develop, market, and maintain Internet offerings. The rules ensure transparency and continued Internet openness, while making clear that broadband providers can manage their networks effectively. The Commission anticipates that due to the extent and nature of their services small entities may have less of a burden and larger entities may have more of a burden than the average compliance burden.
