**SUPPLEMENTARY INFORMATION:** On March 17, 2008, we published a request for public comments on the costs and benefits of expanding the existing 12-character HIN in order to provide additional information identifying vessels (73 FR 14193). The notice specifically requested comments on: (1) The expected benefits and costs of an expanded HIN; (2) the manner in which the Coast Guard should exempt small entities and builders of high-volume, low-cost vessels; (3) the estimated collection of information burdens to vessel manufacturers if the current 12-character HIN regulations were revised to require additional characters; and (4) possible alternatives to an expanded HIN. The Coast Guard also sought specific data to support its decision-making process about whether to initiate a rulemaking addressing an expanded HIN.

In response to the request for comments, we received 29 comments. The Coast Guard has decided not to initiate a rulemaking addressing an expanded HIN based on consideration of the comments received as well as the challenges from data uncertainty in describing, estimating, and quantifying potential costs and benefits of such a rulemaking.

##### **Background**

The Coast Guard has been looking into the possibility of an expanded HIN for several years. In 1994, the Coast Guard initiated a rulemaking to create
