The FAA has determined this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this proposed regulation: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified this proposed rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA’s authority to issue rules regarding aviation safety is found in Title 49 of the U.S. Code. Subtitle 1, Section 106, describes the authority for the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency’s authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it amends controlled airspace at McCall Municipal Airport, McCall, ID.

SUPPLEMENTARY HISTORY: On February 3, 2011, the Postal Service filed a request for temporary waivers from periodic reporting of service performance measurement for various market dominant postal services, or components of postal services, pursuant to Commission Order No. 465.¹

Order No. 465 established a process for the Postal Service to achieve full compliance with all periodic service performance reporting requirements by the filing date of the FY 2011 Annual Compliance Report. Order No. 465 at 18–24. As part of the process, the Commission directed the Postal Service to seek temporary waivers where it cannot immediately comply with specific reporting requirements. As a condition of granting any waiver, the Commission directed the Postal Service to develop and present implementation plans addressing each reporting requirement for which the Postal Service cannot provide the required information. The “plans at a minimum should provide an explanation of why a reporting requirement cannot be complied with, the steps necessary to come into compliance, and a timeline of events necessary to achieve compliance. Interim milestones shall be included in the plans where applicable such that both the Postal Service and the Commission can evaluate progress being made.” *Id.* at 23.

In the instant docket, the Postal Service requests certain temporary waivers from periodic reporting (quarterly) of service performance measurements for Standard Mail, Bound Printed Matter Flats, and certain area and district level data for Presort First-Class Mail, and End-to-End Periodicals. Request at 1. The Request includes proposals for interim service performance measurement reporting.

Two related dockets are pending before the Commission. Docket No. RM2011–1 concerns a Postal Service request which seeks temporary waivers for First-Class Mail Flats at the district level, non-retail First-Class Mail Parcels,

The Commission establishes Docket No. RM2011-7 for consideration of matters related to the proposed temporary waivers from periodic reporting of service performance measurement identified in the Postal Service's Request.

Interested persons may submit comments on whether the Postal Service's Request is consistent with the policies of 39 U.S.C. 3652(a)(2) and with the directions given in Order No. 465. Interested persons also may comment on interim measurement proposals. Comments are due no later than February 15, 2011.
