Agency Information Collection Activities: Proposed Collection; Comment Request

In compliance with Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 concerning opportunity for public comment on proposed collections of information, the Substance Abuse and Mental Health Services Administration (SAMHSA) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the information collection plans, call the SAMHSA Reports Clearance Officer at 240–276–1243.

Comments are invited on: (a) Whether the proposed collections of information are necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency’s estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Proposed Project—RECOVERY: Increasing Adoption of Patient Centered Behavioral Health Research by Primary and Behavioral Health Providers and Systems—NEW

SAMHSA’s Center for Behavioral Health Statistics and Quality (CBHSQ) will conduct a study to evaluate the impact of different strategies for disseminating and promoting the adoption of patient-centered health research results among behavioral health and primary care providers and organizations that are responsible for delivering behavioral health services. Data collected by this study will allow CBHSQ to document and examine the impact of two dissemination strategies on the decision to adopt patient-centered health research; specifically, motivational interviewing and trauma-focused cognitive behavioral therapy.

These data will also allow for an examination of contextual factors, both organizational and individual, that influence this decision to adopt an evidence-based behavioral health intervention. Ultimately, data collected by this study will inform those who hope to improve the effectiveness of dissemination strategies aimed at increasing the adoption of patient-centered behavioral health interventions by identifying facilitators and barriers to the adoption process.

Data collection activities involve the administration of five separate surveys (a baseline survey, a followup survey, and three dissemination evaluation surveys) to individuals typically involved in the decisionmaking process pertaining to the adoption of new behavioral interventions at 40 community health organizations and 40 community behavioral health organizations across the United States. Enrolled organizations will submit their responses for all surveys via Qualtrics, a third-party, online Web-based survey platform.

The estimated burden for data collection is 940 hours across a total of 400 participants. Using median hourly wage estimates reported by the Bureau of Labor Statistics, May 2009 National Occupational Employment and Wage Estimates, and a loading rate of 25%, the estimated total cost to respondents is \$63,057.04. A breakdown of these estimates is presented in Table 1 below.

DEPARTMENT OF HOMELAND SECURITY

Office of the Secretary

[Docket No. DHS-2011-0007]

Privacy Act of 1974; Department of Homeland Security United States Citizenship and Immigration Services—DHS/USCIS—013 E-Verify Self Check System of Records

AGENCY: Privacy Office, DHS.

ACTION: Notice of Privacy Act system of records.

SUMMARY: In accordance with the Privacy Act of 1974, the Department of Homeland Security proposes to establish a new Department of Homeland Security system of records titled, “Department of Homeland Security/United States Citizenship and Immigration Services—SORN DHS/USCIS—013 E-Verify Self Check System of Records.” The U.S. Citizenship and Immigration Services E-Verify Self Check is voluntary and available to any individual who wants to check his own work authorization status prior to employment and facilitate correction of

potential errors in federal databases that provide inputs into the E-Verify process. When an individual uses E-Verify Self Check, he will be notified either that 1. his information matched the information contained in federal databases and he would be deemed work-authorized, or 2. his information was not matched to information contained in federal databases which would be considered a “mismatch.” If the information was a mismatch, he will be given instructions on where and how to correct his record(s). This newly established system will be included in the Department of Homeland Security’s inventory of record systems.

DATES: Submit comments on or before March 18, 2011. This new system will be effective March 18, 2011.

ADDRESSES: You may submit comments, identified by docket number DHS-2011-0007 by one of the following methods:

- *Federal e-Rulemaking Portal:* <http://www.regulations.gov>. Follow the instructions for submitting comments.
- *Fax:* 703-483-2999.
- *Mail:* Mary Ellen Callahan, Chief Privacy Officer, Privacy Office, Department of Homeland Security, Washington, DC 20528.
- *Instructions:* All submissions received must include the agency name and docket number for this rulemaking. All comments received will be posted without change to <http://www.regulations.gov>, including any personal information provided.
- *Docket:* For access to the docket to read background documents or comments received go to <http://www.regulations.gov>.

SUPPLEMENTARY INFORMATION:

I. Background

In accordance with the Privacy Act of 1974, 5 U.S.C. 552a, the Department of Homeland Security (DHS) United States Citizenship and Immigration Services (USCIS) proposes to establish a new DHS system of records titled, “DHS/USCIS—013 E-Verify Self Check System of Records.”

E-Verify was mandated by the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 (IIRIRA), Public Law (Pub. L.) 104-208, September 30, 1996. The E-Verify Program is a free and mostly voluntary DHS program implemented by the USCIS Verification Division and operated in collaboration with the Social Security Administration (SSA) to determine work authorization. It compares information provided by employees on the Employment Eligibility Verification, Form I-9, against information in SSA, DHS, and Department of State (DoS) databases in order to verify an employee’s work authorization. Section 404(d) requires that the system be designed and operated to maximize the reliability and ease of use. Therefore, DHS has developed E-Verify Self Check.

USCIS developed E-Verify Self Check to enable an individual to check his work authorization status prior to employment and facilitate correction of
