

**Burden Statement:** The annual public reporting and recordkeeping burden for this collection of information is estimated to average 60 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

EPA estimates that the average burden for detergent certification is 60 hours and \$6,889, and that there will be approximately three applications for detergent certification each year for the next three years. Thus, the annual certification burden is estimated at 180 hours and \$20,667. Most of the burden is incurred by the blenders of detergent into gasoline or PRC. The regulations require that they generate and maintain records of the amount of detergent blended and the amount of gasoline into which it is blended. These records are known as volumetric additive reconciliation (VAR) records and must demonstrate that the proper amount of a certified detergent has been used. For blenders with automated equipment, the annual burden is estimated at 150 hours and \$12,613. There are approximately 1300 blenders that use automated equipment. Thus, the annual burden is 195,000 hours and \$16.4 million. For blenders with non-automated equipment, the annual burden is estimated at 500 hours and \$42,040. There are about 50 blenders in this category, for an annual burden of 25,000 hours and \$2,102,000. There are no capital or start-up costs beyond those incurred by industry at the program's inception in 1995. Operating and maintenance (O&M) costs are in three categories. First, the on-road engine testing to demonstrate that the detergent meets the deposit-control standards is performed at contractor facilities. However, just about all detergent certifications are able to rely on previous testing, so new testing is only performed perhaps once a year at a cost of \$200,000. The second O&M cost is for

copying and postage for the estimated three submissions annually for detergent certification and one submission annually for research notification. At an estimated \$10 per submission, the annual cost is \$40. The third O&M cost is for the storage of the VAR records at the 1300 automated detergent blending facilities and 50 non-automated detergent blending facilities. The estimated annual cost per facility is \$100, for a total of \$135,000. The total annual estimated burden for industry is 220,181 hours and \$18.8 million.

#### **Are there changes in the estimates from the last approval?**

The previous clearance consisted of 220,608 hours and \$15,547,566 in total costs. The changes are primarily due to an update in labor costs.

#### **What is the next step in the process for this ICR?**

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. At that time, EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

## FEDERAL RESERVE SYSTEM

### Formations of, Acquisitions by, and Mergers of Bank Holding Companies

The companies listed in this notice have applied to the Board for approval, pursuant to the Bank Holding Company Act of 1956 (12 U.S.C. 1841 *et seq.*) (BHC Act), Regulation Y (12 CFR part 225), and all other applicable statutes and regulations to become a bank holding company and/or to acquire the assets or the ownership of, control of, or the power to vote shares of a bank or bank holding company and all of the banks and nonbanking companies owned by the bank holding company, including the companies listed below.

The applications listed below, as well as other related filings required by the Board, are available for immediate inspection at the Federal Reserve Bank indicated. The application also will be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing on the standards enumerated in the BHC Act (12 U.S.C. 1842(c)). If the proposal also involves the acquisition of a nonbanking company, the review also includes whether the acquisition of the nonbanking company complies with the standards in section 4 of the BHC Act (12 U.S.C. 1843). Unless otherwise noted, nonbanking activities will be conducted throughout the United States.
