Qualified Hydro 25, LLC; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions to Intervene, and Competing Applications

On September 30, 2010, Qualified Hydro 25, LLC filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of the Easton Diversion Dam Hydroelectric Project (Easton Dam project) to be located on the Yakima River near Easton in Kittitas County, Washington. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed project would consist of the following: (1) An existing 66-foot-high, 248-foot-long concrete gravity dam on the Yakima River which is owned and operated by the U.S. Bureau of Reclamation; (2) an existing gated outlet with a 1,320 cubic feet per second capacity; (3) a new 20-foot-wide concrete intake structure with trash racks and intake gates; (4) a new 325-foot-long, 72-inch-diameter steel penstock from the intake structure to the powerhouse; (5) a 50-foot by 40-foot reinforced concrete powerhouse containing one Kaplan turbine with a capacity of 1.2 megawatts; (6) a new substation; (7) a new approximately 1,400-foot-long, 34.5-69 kilovolt transmission line which will tie into an undetermined interconnection; and (8) appurtenant facilities. The estimated annual generation of the Easton Dam project would be 5.0 gigawatt-hours.
