(2) Identify, obtain, and organize information on advertising and marketing expenditures, prepare response:	50–130 hours
(3) Identify, obtain, and organize placement information, prepare response:	240–560 hours
(4) Identify, obtain, and organize information regarding compliance review, prepare response:	20–40 hours
(5) Identify, obtain, and organize information regarding data collection, prepare response:	20–40 hours

The staff anticipates that the cumulative hours burden to respond to the information requests will be between 360 and 840 hours per company. Nonetheless, in order to be conservative, the staff estimates that the burden per company for each of up to fourteen intended recipients will be 840 hours. Accordingly, the staff estimates a total burden for these companies of approximately 11,760 hours (14 companies  $\times$  840 average burden hours per company). These estimates include any time spent by separately incorporated subsidiaries and other entities affiliated with the ultimate parent company that has received the information request.

*Estimated Cost Burden:* \$252,000.

It is difficult to calculate with precision the labor costs associated with the information requests, as the costs entail varying compensation levels of management and/or support staff among companies of different sizes. Financial, legal, marketing, and clerical personnel may be involved in the information collection process. The staff has assumed that professional personnel and outside legal counsel will handle most of the tasks involved in gathering and producing responsive information, and has applied an average hourly wage of \$300/hour for their labor. Thus, the staff estimates that the total labor costs per company will range between \$108,000 (\$300  $\times$  360 hours) and \$252,000 (\$300  $\times$  840 hours).

The staff estimates that the capital or other non-labor costs associated with the information requests will be minimal. Although the information requests may necessitate that industry members maintain the requested information provided to the Commission, they should already have in place the means to compile and maintain business records.

By direction of the Commission.

### SUPPLEMENTARY INFORMATION:

#### I. Background

Under the Medicare program, eligible beneficiaries may receive covered services in a psychiatric hospital provided certain requirements are met. Section 1861(f) of the Social Security Act (the Act) establishes distinct criteria for facilities seeking designation as a psychiatric hospital. The regulations at 42 CFR part 482, subpart E specify, among other things, the conditions that a psychiatric hospital must meet to participate in the Medicare program. Regulations concerning provider agreements are located at 42 CFR part 489 and those pertaining to survey and certification of facilities are at 42 CFR part 488.

Generally, in order to enter into a provider agreement, a psychiatric hospital must first be certified by a State survey agency as complying with the conditions or requirements set forth in section 1861(f) of the Act, and 42 CFR part 482, including the special provisions applying to psychiatric hospitals in subpart E of our regulations. Thereafter, the psychiatric hospital is subject to ongoing review by a State survey agency to determine whether it continues to meet the Medicare requirements. However, there is an alternative to State compliance surveys. Accreditation by a nationally-recognized accreditation program can substitute for ongoing State review.

Section 1865(a)(1) of the Act provides that, if a provider entity demonstrates through accreditation by an approved national accreditation organization (AO) that all applicable Medicare conditions are met or exceeded, we may “deem” that provider entity as having met the requirements. Accreditation by an AO is
