

Those interested in speaking at the conference should notify the Commission by close of business February 28, 2011 by completing an online form describing the topics that they wish to address: <https://www.ferc.gov/whats-new/registration/rights-03-15-speaker-form.asp>. Due to time constraints, we may not be able to accommodate all those interested in speaking. The Commission will issue a subsequent notice that will provide the detailed agenda, including panel speakers.

The purpose of the conference is to consider issues related to the ownership of and priority access rights to new transmission projects. The electric industry has evolved since Order No. 888 was adopted. New business models in addition to traditional vertically-integrated utilities have emerged for developing, owning, and operating electric transmission infrastructure. Several of these models have been the subject of petitions before the Commission. For example, one such model entails the owner of the project seeking priority access to the transmission capacity it develops. The Commission would like to explore issues related to these new transmission infrastructure ownership models. Conference participants should be prepared to address the topic in at least one of two contexts: independent and/or merchant transmission,¹ and generator lead lines.²

With respect to independent and/or merchant transmission, participants should be prepared to address how the economics of a proposed project are affected by the Commission's current affiliate rules and pricing structures (e.g., cost-based or negotiated rates). Participants also should be prepared to address: the need for and appropriate application of priority access mechanisms, such as open seasons and anchor shipper/tenant arrangements; how these can be designed consistent with the Commission's open access principles; and whether alternative mechanisms should be considered.

With respect to generator lead lines, participants should be prepared to address the nature of these lines and the application of the Commission's open access policies as they relate to these lines.

In either context, participants should be prepared to address the Commission's policies with respect to the treatment of affiliates, the

implications of various project ownership structures, and the criteria employed for justifying priority allocation of capacity in new or expanded transmission facilities.

Further, participants should be prepared to identify and discuss what an appropriate balance is between the Commission's policies on open access and non-discriminatory treatment, on the one hand, and the needs of developers of the facilities on the other hand. Participants are encouraged to come prepared to propose and discuss regulatory alternatives that are consistent with the Commission's statutory responsibility to ensure that rates, terms, and conditions of service are just and reasonable and not unduly discriminatory.

The discussions at the conference may address matters at issue in the following Commission proceedings that are either pending or within their rehearing period:

Alta Wind I, LLC *et al.*, Docket No. EL10-62-000;

Puget Sound Energy, Inc.; EL10-72-001;

Federal Energy Regulatory Commission

[Docket No. EL11-23-000]

EnerNOC, Inc.; Notice of Petition for Declaratory Order

Take notice that on February 22, 2011, pursuant to Rule 207(a)(2) of the Rules of Practice and Procedure of the Federal Energy Regulatory Commission (Commission), 18 CFR 385.207(a)(2) (2010), EnerNOC, Inc. (EnerNOC) filed a petition for declaratory order seeking clarification that EnerNOC may continue to manage its portfolio of PJM Interconnection, LLC (PJM) demand response resources as it has in the past and continue to receive settlement in accordance with the PJM tariff on file with the Commission without enforcement action being threatened or taken on account thereof. EnerNOC also requests that the clarification is without prejudice to the right of PJM or any other party to seek amendment to the PJM tariff prospectively pursuant to section 205 or 206 of the Federal Power Act.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed on or before the comment date. On or before the comment date, it is not necessary to serve motions to intervene or protests on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically

¹ See, e.g., *Chinook Power Transmission, LLC*, 126 FERC ¶ 61,134 (2009).

² See, e.g., *Milford Wind Corridor, LLC*, 129 FERC ¶ 61,149 (2009).

should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. [Project No. 13870-000]

Qualified Hydro 34, LLC; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

On October 15, 2010, Qualified Hydro 34, LLC filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of the Foster Joseph Sayers Dam Hydroelectric Project to be located on Bald Eagle Creek in the vicinity of Liberty Township in Centre County, Pennsylvania. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed project would utilize the existing U.S. Army Corps of Engineers' Foster Joseph Sayers Dam and would consist of the following: (1) One vertical Kaplan turbine and generator unit rated at 25-megawatts; (2) a 40- by 50-foot powerhouse; (3) a 100-foot-long steel-lined penstock; (4) a 6,600-foot-long transmission line; and

(5) appurtenant facilities. The estimated annual generation of the Foster Joseph Sayers Dam Hydroelectric Project would be 12 gigawatt-hours.

Applicant Contact: Ramya Swaminathan, Chief Operating Officer, Free Flow Power, 33 Commercial Street, Gloucester, MA 01930; phone: (978) 283-2822.
