

optimization,⁵ sustainability⁶ and potential limitations of faster-ramping resources.⁷

Moreover, I believe there is no basis to propose a single, one-size-fits-all approach for frequency regulation compensation. In fact, several commenters caution specifically against such an approach.⁸ In addition, I have concerns that the majority decision could detract from, or otherwise delay, efforts ongoing at the RTO/ISO stakeholder level.⁹

It is essential that this Commission address frequency regulation compensation to ensure appropriate compensation for service provided. Moreover, new technologies could offer substantial benefits. While I recognize the majority's desire to move quickly, I believe it is more important to "measure twice, cut once." Accordingly, I believe the Commission should have taken a preliminary step (such as the issuance of a Notice of Inquiry or Advanced Notice of Proposed Rulemaking) before moving forward with the specific proposal in a Notice of Proposed Rulemaking. For these reasons, I respectfully dissent in part from this Order.

Marc Spitzer,
Commissioner.

SUPPLEMENTARY INFORMATION: On December 27, 2010 (75 FR 81165), MSHA published a proposed rule, Examinations of Work Areas in Underground Coal Mines for Violations of Mandatory Health or Safety Standards. The proposal would require operators to examine for violations of mandatory health or safety standards in addition to hazardous conditions, and take corrective actions if violations are found. It would also require that operators review with mine examiners on a quarterly basis all citations and orders issued in areas where examinations are required. The proposal would require that underground coal mine operators find and fix violations of mandatory health or safety standards, thereby improving health and safety for miners. The proposed rule is available on MSHA's Web site at <http://www.msha.gov/REGS/FEDREG/PROPOSED/2010PROP/2010-32410.pdf>.

In response to a request from the public and to provide the opportunity for additional public participation in this rulemaking, MSHA is extending the comment period from February 25, 2011, to March 28, 2011. All comments and supporting documentation must be received or postmarked by 12 midnight Eastern Daylight Savings Time, March 28, 2011.

Dated: February 24, 2011.

Joseph A. Main,

Assistant Secretary of Labor for Mine Safety and Health.
