

(h) The Secretary of Defense may instruct the head of the agency proposing a multiyear contract to include in that contract negotiated priced options for varying the quantities of end items to be procured over the life of the contract (10 U.S.C. 2306b(j)).

5. Section 217.173 is revised to read as follows:

217.173 Multiyear contracts for military family housing.

The head of the agency may enter into multiyear contracts for periods up to four years for supplies and services required for management, maintenance, and operation of military family housing and may pay the costs of such contracts for each year from annual appropriations for that year (10 U.S.C. 2829).

217.174 [Removed]

6. Section 217.174 is removed.

BILLING CODE 5001-08-P

DEPARTMENT OF DEFENSE

Defense Acquisition Regulations System

48 CFR Part 231

Defense Federal Acquisition Regulation Supplement; Independent Research and Development Technical Descriptions (DFARS Case 2010-D011)

AGENCY: Defense Acquisition Regulations System, Department of Defense (DoD).

ACTION: Proposed rule.

SUMMARY: DoD is proposing to amend the Defense Federal Acquisition Regulation Supplement (DFARS) to require contractors to report independent research and development (IR&D) projects generating annual costs in excess of \$50,000.

DATES: Comments on the proposed rule should be submitted in writing to the address shown below on or before May 2, 2011, to be considered in the formation of the final rule.

ADDRESSES: You may submit comments, identified by DFARS Case 2010-D011, using any of the following methods:

Regulations.gov: <http://www.regulations.gov>.

Submit comments via the Federal eRulemaking portal by inputting "DFARS Case 2010-D011" under the heading "Enter keyword or ID" and selecting "Search." Select the link "Submit a Comment" that corresponds with "DFARS Case 2010-D011." Follow the instructions provided at the "Submit

a Comment" screen. Please include your name, company name (if any), and "DFARS Case 2010-D011" on your attached document. Follow the instructions for submitting comments.

E-mail: dfars@osd.mil. Include DFARS Case 2010-D011 in the subject line of the message.

Fax: 703-602-0350.

Mail: Defense Acquisition Regulations System, Attn: Mr. Mark Gomersall, OUSD (AT&L) DPAP (DARS), Room 3B855, 3060 Defense Pentagon, Washington, DC 20301-3060.

Comments received generally will be posted without change to <http://www.regulations.gov>, including any personal information provided. To confirm receipt of your comment(s), please check <http://www.regulations.gov> approximately two to three days after submission to verify posting (except allow 30 days for posting of comments submitted by mail).

FOR FURTHER INFORMATION CONTACT: Mr. Mark Gomersall, 703-602-0302.

SUPPLEMENTARY INFORMATION:

I. Background

This proposed rule revises requirements for reporting IR&D projects that generate annual costs in excess of \$50,000 to the Defense Technical Information Center (DTIC). Beginning in the 1990s, DoD reduced its technical exchanges with industry, in part to ensure independence of IR&D. The result has been a loss of linkage between funding and technological purpose. The reporting requirements, as mandated by 10 U.S.C. 2372, will provide in-process information from DoD-sponsored IR&D projects to increase effectiveness by providing visibility into the technical content of industry IR&D activities to meet DoD needs and promote the technical prowess of the industry. Without the collection of this information, DoD will be unable to maximize the value of the IR&D funds the Department disburses without infringing on the independence of contractors to choose which technologies to pursue in IR&D programs.

II. Executive Order 12866, Regulatory Planning and Review

This rule has been determined to be a significant regulatory action and therefore is subject to review under section 6(b) of Executive Order 12866, Regulatory Planning and Review, dated September 30, 1993. This rule is not a major rule under 5 U.S.C. 804.

III. Regulatory Flexibility Act

DoD has prepared an initial regulatory flexibility analysis consistent with 5

U.S.C. 603. A copy of the analysis may be obtained from the point of contact specified herein. The analysis is summarized as follows:

DoD does not expect this proposed rule to have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*, because reporting the IR&D projects utilizing the DTIC on-line input form does not require contractors to expend significant effort or cost. Furthermore, the threshold for reporting annual IR&D costs in excess of \$50,000, as set forth in the rule, ensures that the IR&D project reporting requirements will not apply to a significant number of small entities.

At this time, DoD is unable to estimate the number of small entities to which this rule will apply. Therefore, DoD invites comments from small business concerns and other interested parties on the expected impact of this rule on small entities.

DoD will also consider comments from small entities concerning the existing regulations in subparts affected by this rule in accordance with 5 U.S.C. 610. Interested parties must submit such comments separately and should cite 5 U.S.C. 610 (DFARS Case 2010-D011) in correspondence.

IV. Paperwork Reduction Act

The proposed rule contains new information collection requirements that require the approval of the Office of Management and Budget under the Paperwork Reduction Act (44 U.S.C. chapter 35). DoD invites public comments on the following aspects of the proposed rule: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of DoD, including whether the information will have practical utility; (b) the accuracy of the estimate of the burden of the proposed information collection; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the information collection on respondents, including the use of automated collection techniques or other forms of information technology. The following is a summary of the information collection requirement.

Title: Defense Federal Acquisition Regulation Supplement (DFARS) Part 231, Contract Cost Principles and Procedures.

Type of Request: New collection.

Number of Respondents: 700.

Responses per Respondent: 38.5.

Annual Responses: 26,950.

Average Burden per Response: 0.5 hours.

Annual Burden Hours: 13,475.

Needs and Uses: This information collection requires contractors to report IR&D projects generating annual costs in excess of \$50,000. The information will provide in-process information from DoD-sponsored IR&D projects to increase the effectiveness by providing visibility into the technical content of industry IR&D activities to meet DoD needs. Without the collection of this information, DoD will be unable to maximize the value of the IR&D funds that it disburses without infringing on the independence of a contractor to choose which technologies to pursue in its independent research and development program.

Affected Public: Businesses or other for-profit and not-for-profit institutions.

Frequency: On occasion.

Written comments and recommendations on the proposed information collection should be sent to Ms. Jasmeet Seehra at the Office of Management and Budget, Desk Officer for DoD, Room 10236, New Executive Office Building, Washington, DC 20503, or e-mail

Jasmeet K. Seehra@omb.eop.gov, with a copy to the Defense Acquisition Regulations System, *Attn:* Mr. Mark Goemrsall, OUSD (AT&L) DPAP (DARS), Room 3B855, 3060 Defense Pentagon, Washington, DC 20301-3060. Comments can be received from 30 to 60 days after the date of this notice, but comments to OMB will be most useful if received by OMB within 30 days after the date of this notice.

To request more information on this proposed information collection or to obtain a copy of the proposal and associated collection instruments, please write to the Defense Acquisition Regulations System, *Attn:* Mr. Mark Gomersall, OUSD (AT&L) DPAP (DARS), Room 3B855, 3060 Defense Pentagon, Washington, DC 20301-3060, or e-mail *dfars@osd.mil*. Include DFARS Case 2010-D011 in the subject line of the message.

List of Subjects in 48 CFR Part 231

Government procurement.

Ynette R. Shelkin,

Editor, Defense Acquisition Regulations System.

Therefore, 48 CFR part 231 is proposed to be amended as follows:

PART 231—CONTRACT COST PRINCIPLES AND PROCEDURES

1. The authority citation for 48 CFR part 231 continues to read as follows:

Authority: 41 U.S.C. 1303 and 48 CFR chapter 1.

2. Amend section 231.205-18 by adding paragraph (c)(iii)(C) and revising the introductory text of paragraph (c)(iv) to read as follows:

231.205-18 Independent research and development and bid and proposal costs.

* * * * *

(c) * * *
(iii) * * *

(C) For a contractor's annual IR&D costs in excess of \$50,000 to be allowable, the IR&D projects generating the costs must be reported to the Defense Technical Information Center (DTIC) using the DTIC's on-line input form and instructions. The inputs must be updated at least annually and when the project is completed. Copies of the input and updates must be made available for review by the cognizant administrative contracting officer (ACO) and the cognizant Defense Contract Audit Agency auditor to support the allowability of the costs.

(iv) For major contractors, the cognizant ACO or corporate ACO shall—

BILLING CODE 5001-08-P

DEPARTMENT OF TRANSPORTATION

National Highway Traffic Safety Administration

49 CFR Part 571

[Docket No. NHTSA-2011-0027]

RIN 2127-AK52

Federal Motor Vehicle Safety Standards; Power-Operated Window, Partition, and Roof Panel Systems

AGENCY: National Highway Traffic Safety Administration (NHTSA), Department of Transportation (DOT).

ACTION: Withdrawal of notice of proposed rulemaking.

SUMMARY: This document withdraws a notice of proposed rulemaking issued pursuant to the Cameron Gulbransen Kids Transportation Safety Act of 2007. The Act directed NHTSA to initiate a rulemaking to consider requirements for automatic reversal systems (ARS) for power windows and to make a final decision. The agency has decided not to issue a final rule adopting any such new requirements and instead to terminate rulemaking.

DATES: Effective March 2, 2011, the proposed rule published September 1, 2009, at 74 FR 45143 is withdrawn.

FOR FURTHER INFORMATION CONTACT: For non-legal issues, you may call Michael Pyne, NHTSA Office of Avoidance Standards, telephone 202-366-1810. For legal issues, you may call J. Edward Glancy, NHTSA Office of Chief Counsel, telephone 202-366-2992. You may send mail to these officials at the National Highway Traffic Safety Administration, 1200 New Jersey Avenue, SE., West Building, Washington, DC 20590.

SUPPLEMENTARY INFORMATION: For the reasons set forth below, we have decided not to issue a final rule adopting any new requirements for automatic reversal systems (ARS) and are withdrawing our 2009 proposal regarding ARS. This document explains our decision.

The Cameron Gulbransen Kids Transportation Safety Act of 2007 (K. T. Safety Act) directed the Secretary of Transportation to initiate a rulemaking to consider requiring all power windows and panels on light motor vehicles to stop closing and reverse direction automatically when they detect an obstruction, to prevent children and others from being trapped, injured, or killed. It also provided the Secretary with discretion whether to issue a final rule. It stated that if the Secretary determines that additional safety requirements are reasonable, practicable and appropriate, the Secretary shall issue those requirements. Alternatively, it stated if the Secretary determines that no additional safety requirements meet those criteria, the Secretary shall report to Congress on the reasons for not issuing such requirements.

In response to the K. T. Safety Act, the Department's National Highway Traffic Safety Administration (NHTSA) published in the **Federal Register** (74 FR 45143; September 1, 2009) a notice of proposed rulemaking (NPRM) proposing new requirements for ARS. The proposal discussed the agency's analysis of the injuries and fatalities related to power windows and the performance requirements that the agency had recently adopted for safer power window switches. The benefits of the safer switches rules will be increasingly realized as vehicles with "safer switches" replace older vehicles lacking them.

After the agency analyzed and considered the benefits and costs of installing ARS for all types of vehicle windows in developing the NPRM, NHTSA decided to propose requiring ARS on only one type of power
