

regulations and include it in the EIS. Interested parties may comment during the scoping period following the publication of this NOI and will also be able to comment on the floodplain assessment when the Draft EIS is published.

Preliminary Identification of Environmental Issues

DOE has tentatively identified the following environmental resource areas for consideration in the EIS. This list is not intended to be all-inclusive nor to predetermine the potential environmental impacts or their significance:

- Air quality
- Greenhouse gas emissions and climate change
- Energy use and production
- Water resources, including groundwater and surface waters
- Wetlands and floodplains
- Geological resources
- Ecological resources, including threatened and endangered species and species of special concern
- Cultural resources, including historic structures and properties; sites of religious and cultural significance to Tribes; and archaeological resources
- Land use
- Coastal zone management
- Visual resources and aesthetics
- Transportation and traffic
- Noise and vibration
- Hazardous materials and solid waste management
- Human health and safety
- Accidents and terrorism
- Socioeconomics, including impacts to community services
- Environmental justice

DOE invites comments on whether additional resource areas or potential issues should be considered in the EIS.

Public Scoping Process

To ensure that all issues related to DOE's proposed action are addressed, DOE seeks public input to define the scope of the EIS. Interested government agencies, private-sector organizations, and the general public are encouraged to submit comments concerning the content of the EIS, issues and impacts that should be addressed, and alternatives that should be considered. Scoping comments should clearly describe specific issues or topics that the EIS should address to assist DOE in identifying significant issues for analysis.

DOE has coordinated with Federal and state agencies in the project area and expects that the United States Army Corps of Engineers will be a cooperating

agency for the preparation of this EIS. DOE invites any additional agencies with jurisdiction by law or special expertise to be cooperating agencies in the preparation of this EIS.

The public scoping meetings will be announced as described in the **DATES** and **ADDRESSES** sections above. Members of the public and representatives of groups and Federal, state, local, and Tribal agencies are invited to attend. The meetings will include both a formal opportunity to present oral comments and an informal session during which DOE and PHI personnel will be available for discussions. Displays and other information about the proposed agency action, the EIS process, and PHI's proposed MAPP project will be available. Individuals who wish to make oral comments during one of the scoping meetings may register at the meeting. To ensure that everyone who wishes to has a turn to speak, DOE may need to limit speakers to three to five minutes initially, but will provide additional opportunities as time permits. Written comments may be submitted to DOE officials at the scoping meetings.

Issued in Washington, DC, on February 28, 2011.

Owen Barwell,

Acting Executive Director, Loan Programs Office.

BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. IC11-73-000]

Commission Information Collection Activities (FERC-73); Comment Request; Extension

AGENCY: Federal Energy Regulatory Commission, DOE.

ACTION: Notice of information collection renewal and request for comments.

SUMMARY: In compliance with the requirements of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, 44 U.S.C. 3506(c)(2)(A) (2006), (Pub. L. 104-13), the Federal Energy Regulatory Commission (Commission or FERC) is soliciting public comment on the proposed information collection described below.

DATES: Comments on the collection of information are due by May 3, 2011.

ADDRESSES: Comments may be filed either electronically (e-Filed) or in

paper format, and should refer to Docket No. IC11-73-000. Documents must be prepared in an acceptable filing format and in compliance with Commission submission guidelines at <http://www.ferc.gov/help/submission-guide.asp>. eFiling instructions are available at: <http://www.ferc.gov/docs-filing/efiling.asp>. First time users must follow eRegister instructions at: <http://www.ferc.gov/docs-filing/eregistration.asp>, to establish a user name and password before eFiling. The Commission will send an automatic acknowledgement to the sender's e-mail address upon receipt of eFiled comments. Commenters making an eFiling should not make a paper filing. Commenters that are not able to file electronically must send an original of their comments to: Federal Energy Regulatory Commission, Secretary of the Commission, 888 First Street, NE., Washington, DC 20426.

Users interested in receiving automatic notification of activity in this docket may do so through eSubscription at <http://www.ferc.gov/docs-filing/esubscription.asp>. In addition, all comments and FERC issuances may be viewed, printed or downloaded remotely through FERC's eLibrary at <http://www.ferc.gov/docs-filing/elibrary.asp>, by searching on Docket No. IC11-73. For user assistance, contact FERC Online Support by e-mail at ferconlinesupport@ferc.gov, or by phone at: (866) 208-3676 (toll-free), or (202) 502-8659 for TTY.

FOR FURTHER INFORMATION: Ellen Brown may be reached by e-mail at DataClearance@FERC.gov, telephone at (202) 502-8663, and fax at (202) 273-0873.

SUPPLEMENTARY INFORMATION: The information collected under the requirements of FERC Form 73 "Oil Pipelines Service Life Data" (OMB No. 1902-0019) is used by the Commission to implement the statutory provisions of Sections 306 and 402 of the Department of Energy Organization Act, 42 U.S.C. 7155 and 7172, and Executive Order No. 12009, 42 FR 46277 (September 13, 1977). The Commission has authority over interstate oil pipelines as stated in the Interstate Commerce Act, 49 U.S.C. 6501 et al. As part of the information necessary for the subsequent investigation and review of an oil pipeline company's proposed depreciation rates, the pipeline companies are required to provide service life data as part of their data submissions if the proposed depreciation rates are based on the remaining physical life calculations.

This service life data is submitted on FERC Form No. 73.

The data submitted are used by the Commission to assist in the selection of appropriate service lives and book depreciation rates. Book depreciation rates are used by oil pipeline companies to compute the depreciation portion of their operating expense which is a component of their cost of service which in turn is used to determine the

transportation rate to assess customers. FERC staff's recommended book depreciation rates become legally binding when issued by Commission order. These rates remain in effect until a subsequent review is requested and the outcome indicates that a modification is justified. The Commission implements these filings in 18 CFR parts 347 and 357.

Action: The Commission is requesting a three-year approval of the collection of data with no changes to the information that is collected on Form 73. This is a mandatory information collection requirement.

Burden Statement: Public reporting burden for this collection is estimated as follows:

Data collection	Number of respondents annually (1)	Number of responses per respondent (2)	Average burden hours per response (3)	Total annual burden hours (1)×(2)×(3)
FERC Form 73	3	1	40	120

The estimated total cost to respondents is \$8,214 [120 hours/2080 hours¹ per year, times \$142,372² equals \$8,214]. The cost per respondent annually is \$2,738.

The reporting burden includes the total time, effort, or financial resources expended to generate, maintain, retain, disclose, or provide the information including: (1) Reviewing instructions; (2) developing, acquiring, installing, and utilizing technology and systems for the purposes of collecting, validating, verifying, processing, maintaining, disclosing and providing information; (3) adjusting the existing ways to comply with any previously applicable instructions and requirements; (4) training personnel to respond to a collection of information; (5) searching data sources; (6) completing and reviewing the collection of information; and (7) transmitting, or otherwise disclosing the information.

The estimate of cost for respondents is based upon salaries for professional and clerical support, as well as direct and indirect overhead costs. Direct costs include all costs directly attributable to providing this information, such as administrative costs and the cost for information technology. Indirect or overhead costs are costs incurred by an organization in support of its mission. These costs apply to activities which benefit the whole organization rather than any one particular function or activity.

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden of the proposed collection of information,

including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology e.g. permitting electronic submission of responses.

Dated: February 24, 2011.

Kimberly D. Bose,
Secretary.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket Nos. IC11-520-000, IC11-561-000, and IC11-566-000]

Commission Information Collection Activities, Proposed Collections; Comment Request; Extension

AGENCY: Federal Energy Regulatory Commission.

ACTION: Notice of proposed information collections and request for comments.

SUMMARY: In compliance with the requirements of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, 44 U.S.C. 3506(c)(2)(A) (2006), (Pub. L. 104-13), the Federal Energy Regulatory Commission (Commission or FERC) is soliciting public comment on the proposed information collection activities described below.

DATES: Comments in consideration of the collection of information are due May 3, 2011.

ADDRESSES: Comments may be filed either electronically (eFiled) or in paper format, and should refer to Docket Nos. IC11-520-000, IC11-561-000, and IC11-566-000. (For comments that only pertain to one of the collections, specify the appropriate collection and the related docket number.) Documents must be prepared in an acceptable filing format and in compliance with Commission submission guidelines at <http://www.ferc.gov/help/submission-guide.asp>. eFiling instructions are available at: <http://www.ferc.gov/docs-filing/efiling.asp>. First time users must follow eRegister instructions at: <http://www.ferc.gov/docs-filing/eregistration.asp>, to establish a user name and password before eFiling. The Commission will send an automatic acknowledgement to the sender's e-mail address upon receipt of eFiled comments. Commenters making an eFiling should not make a paper filing. Commenters that are not able to file electronically must send an original of their comments to: Federal Energy Regulatory Commission, Secretary of the Commission, 888 First Street, NE., Washington, DC 20426.
