Putting More Capital in the Hands of Small Business Owners

SBA loans continue to be a critical tool for helping small businesses get the capital they need to grow and create jobs. The Small Business Jobs Act made permanent enhancements to SBA loan programs, such as raising the maximum loan sizes of the 7(a) and 504 programs. In addition, temporary provisions in the new law include a Dealer Floor Plan financing pilot as well as a program that allows some owner-occupied businesses to refinance their commercial real estate mortgages using an SBA loan. Beyond the SBJA, SBA is taking several steps to better serve its lending partners and borrowers, to simplify and streamline loan programs, and to improve oversight of SBA lending. Small business owners, prospective and current SBA lenders are especially encouraged to attend, share their ideas with the SBA, and learn more about new tools being offered.

Strengthening Small Businesses' Ability To Compete for and Win Federal Contracts

The Federal government awards hundreds of billions of dollars each year in federal contracts, nearly one-fourth of

which goes to small firms. The Small Business Jobs Act contained 19 provisions that will help small businesses compete more effectively for federal contracts and subcontracts. SBA is rolling out these provisions that will help ensure more fairness, more opportunities, and more tools to help match federal agencies with small businesses that provide high-quality products and services. SBA wants to hear from interested parties about how it can effectively roll out new provisions, such as those relating to Multiple Award Contract set asides, subcontracting, Mentor Protégé Programs, and, at select events, its size process. Small business contractors are encouraged to attend, learn more about these new tools, and share their thoughts on improving the environment for small business contracting.

Expanding Resources for Counseling and Training

SBA has at least one District Office in each state, as well as about 14,000 affiliated counselors at Small Business Development Centers, Women's Business Centers and SCORE chapters. The Small Business Jobs Act is helping support these groups in a number of ways. For example, \$50 million more is being provided to support the network of about 900 Small Business Development Centers throughout the country. Also, SBA is working with a

broad group of counselors to equip them with more tools and information to help small firms start or increase exporting. All small business owners are encouraged to attend and learn more about the knowledge, tools, and contacts that SBA affiliated counselors can help provide.

Expanding Exporting Opportunities for Small Business

Small businesses looking for new opportunities to increase sales and profit, and take advantage of increased demand for high-quality U.S. goods and services, should consider exporting. The Small Business Jobs Act includes exporting resources to help small businesses by making the SBA Export Express pilot loan program permanent, increasing maximum sizes for SBA's three export loan programs, and creating a new State Trade and Export Promotion (STEP) grants pilot program which will provide funds to states to assist small business interested in exporting. See Notice of Grant Opportunities to States: STEP Grant Program, 76 FR 10082 (Feb. 23, 2011). These expanded opportunities also help build upon the goal of doubling exports in the next five years via the National Export Initiative. Small business owners with a current or prospective interest in exporting are especially encouraged to attend.
