

CS#5 is located 17 miles west of Cloquet, Minnesota. The area is designated attainment for all criteria pollutants. CS#5 is owned and maintained by Great Lakes Gas on privately-owned fee land within the exterior boundaries of the Fond du Lac Band of Lake Superior Chippewa Indian Reservation. EPA is responsible for issuing and enforcing any air quality permits for the source until such time that the Fond du Lac Band of Lake Superior Chippewa Indian Tribe has EPA approval to do so.

CS#5 is subject to Title V because it has the potential to emit greater than 100 tons per year of nitrogen oxide and carbon monoxide. Great Lakes Gas submitted to EPA on November 23, 2009, a Title V permit application to renew its 2005 title V operating permit for CS#5. On November 15, 2010, EPA published a draft Title V permit to operate for public comment. The public comment period ended on December 15, 2010. EPA did not receive any comments on the draft title V permit, and the permit became effective on February 27, 2011.

EPA is not aware of any outstanding enforcement actions against Great Lakes Gas and believes the issuance of this permit is non-controversial.

B. What is the purpose of this notice?

EPA is notifying the public of the issuance of the Great Lakes Gas CS#5 Title V permit.

Dated: February 28, 2011.

Susan Hedman,

Regional Administrator, Region 5.

SUPPLEMENTARY INFORMATION:

I. Additional Information About the Proposed Consent Decree

This proposed consent decree would resolve a lawsuit alleging that the Administrator failed to perform a nondiscretionary duty to grant or deny, within 60 days of submission, an administrative petition to object to a CAA Title V permit issued by the New Mexico Environment Department, Air Quality Bureau to Williams Four Corners LLC for the Sims Mesa Central Delivery Point facility. Under the terms of the proposed consent decree, EPA has agreed to respond to the petition by April 29, 2011, or within 30 days of the entry date of this Consent Decree, whichever is later. The proposed consent decree further states that EPA shall expeditiously deliver notice of such action on the permit to the Office of the Federal Register for publication. In addition, the proposed consent decree states that deadline for filing a motion for costs of litigation (including attorneys' fees) is extended until 60 days after the decree is entered by the court, that the parties shall seek to resolve informally any claim for such costs during those 60 days, and that if they cannot they will submit the issue to the court for resolution. The proposed consent decree also states that, after EPA fulfills its obligations under the decree and the plaintiff's claims for costs of litigation have been resolved as provided in the decree, the case shall be dismissed with prejudice.

For a period of thirty (30) days following the date of publication of this notice, the Agency will accept written comments relating to the proposed consent decree from persons who were not named as parties or intervenors to the litigation in question. EPA or the Department of Justice may withdraw or withhold consent to the proposed consent decree if the comments disclose facts or considerations that indicate that such consent is inappropriate, improper, inadequate, or inconsistent with the requirements of the Act. Unless EPA or the Department of Justice determines that consent to this consent decree should be withdrawn, the terms of the decree will be affirmed.

II. Additional Information About Commenting on the Proposed Consent Decree

A. How can I get a copy of the consent decree?

The official public docket for this action (identified by Docket ID No.

EPA-HQ-OGC-2011-0212) contains a copy of the proposed consent decree. The official public docket is available for public viewing at the Office of Environmental Information (OEI) Docket in the EPA Docket Center, EPA West, Room 3334, 1301 Constitution Ave., NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Public Reading Room is (202) 566-1744, and the telephone number for the OEI Docket is (202) 566-1752.

An electronic version of the public docket is available through <http://www.regulations.gov>. You may use the <http://www.regulations.gov> to submit or view public comments, access the index listing of the contents of the official public docket, and to access those documents in the public docket that are available electronically. Once in the system, key in the appropriate docket identification number then select "search".

It is important to note that EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing online at <http://www.regulations.gov> without change, unless the comment contains copyrighted material, CBI, or other information whose disclosure is restricted by statute. Information claimed as CBI and other information whose disclosure is restricted by statute is not included in the official public docket or in the electronic public docket. EPA's policy is that copyrighted material, including copyrighted material contained in a public comment, will not be placed in EPA's electronic public docket but will be available only in printed, paper form in the official public docket. Although not all docket materials may be available electronically, you may still access any of the publicly available docket materials through the EPA Docket Center.

B. How and to whom do I submit comments?

You may submit comments as provided in the **ADDRESSES** section. Please ensure that your comments are submitted within the specified comment period. Comments received after the close of the comment period will be marked "late." EPA is not required to consider these late comments.

If you submit an electronic comment, EPA recommends that you include your name, mailing address, and an e-mail address or other contact information in the body of your comment and with any

disk or CD ROM you submit. This ensures that you can be identified as the submitter of the comment and allows EPA to contact you in case EPA cannot read your comment due to technical difficulties or needs further information on the substance of your comment. Any identifying or contact information provided in the body of a comment will be included as part of the comment that is placed in the official public docket, and made available in EPA's electronic public docket. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment.

Use of the <http://www.regulations.gov> Web site to submit comments to EPA electronically is EPA's preferred method for receiving comments. The electronic public docket system is an "anonymous access" system, which means EPA will not know your identity, e-mail address, or other contact information unless you provide it in the body of your comment. In contrast to EPA's electronic public docket, EPA's electronic mail (e-mail) system is not an "anonymous access" system. If you send an e-mail comment directly to the Docket without going through <http://www.regulations.gov>, your e-mail address is automatically captured and included as part of the comment that is placed in the official public docket, and made available in EPA's electronic public docket.
