

the form of such lower tier rate. The increased liquidity also benefits all investors by deepening EDGA's liquidity pool, supporting the quality of price discovery, promoting market transparency and improving investor protection. Volume-based discounts such as the reduced execution fee proposed here have been widely adopted in the cash equities markets, and are equitable because they are open to all members on an equal basis and provide discounts that are reasonably related to the value to an exchange's market quality associated with higher levels of market activity, such as higher levels of liquidity provision and introduction of higher volumes of orders into the price and volume discovery processes.

In addition, the new tier rate is equitable in that higher fees on the Exchange are directly correlated with less stringent criteria. For example, the INET tiered fee, as indicated in footnote 7/flag 2, of \$0.0030 per share has less stringent criteria, and is a higher fee than the new proposed fee. For example, based on average TCV for January 2011 (8.0 billion), in order for a Member to qualify for the INET fee of \$0.0030, the Member would have to route to Nasdaq less than 5,000,000 shares of average daily volume. In order to qualify for the proposed lower fee of \$0.00005 per share, which has more stringent criteria than the INET fee, the Member would have to post 72 million shares on EDGA (0.9% of TCV in average daily volume).

The Exchange notes that it operates in a highly competitive market in which market participants can readily direct order flow to competing venues if they deem fee levels at a particular venue to be excessive. The proposed rule change reflects a competitive pricing structure designed to incent market participants to direct their order flow to the Exchange. The Exchange believes that the proposed rates are equitable in that they apply uniformly to all Members. The Exchange believes the fees and credits remain competitive with those charged by other venues and therefore continue to be reasonable and equitably allocated to Members.

B. Self-Regulatory Organization's Statement on Burden on Competition

The proposed rule change does not impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

The Exchange has not solicited, and does not intend to solicit, comments on this proposed rule change. The Exchange has not received any unsolicited written comments from members or other interested parties.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3) of the Act⁸ and Rule 19b-4(f)(2)⁹ thereunder. At any time within 60 days of the filing of such proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

FOR FURTHER INFORMATION CONTACT: To request additional information, please contact: Raymond Ciupek, Department of State, Office of Directives Management, 1800 G St., NW., Suite 2400, Washington, DC 20522-2202, who may be reached at *ciupekra@state.gov*.

SUPPLEMENTARY INFORMATION:

Title: Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery.

Abstract: The information collection activity will garner qualitative customer and stakeholder feedback in an efficient, timely manner, in accordance with the Administration's commitment to improving service delivery. By qualitative feedback we mean information that provides useful insights on perceptions and opinions, but are not statistical surveys that yield quantitative results that can be generalized to the population of study. This feedback will provide insights into customer or stakeholder perceptions, experiences and expectations, provide an early warning of issues with service, or focus attention on areas where communication, training or changes in operations might improve delivery of products or services. These collections will allow for ongoing, collaborative and actionable communications between the Agency and its customers and stakeholders. It will also allow feedback to contribute directly to the improvement of program management.

Feedback collected under this generic clearance will provide useful information, but it will not yield data that can be generalized to the overall population. This type of generic clearance for qualitative information will not be used for quantitative information collections that are designed to yield reliably actionable results, such as monitoring trends over time or documenting program performance. Such data uses require more rigorous designs that address: the target population to which

generalizations will be made, the sampling frame, the sample design (including stratification and clustering), the precision requirements or power calculations that justify the proposed sample size, the expected response rate, methods for assessing potential non-response bias, the protocols for data collection, and any testing procedures that were or will be undertaken prior fielding the study. Depending on the degree of influence the results are likely to have, such collections may still be eligible for submission for other generic mechanisms that are designed to yield quantitative results.

Below we provide the Department of State projected average estimates for the next three years:

Current Actions: New collection of information.

Type of Review: New Collection.

Affected Public: Individuals and Households, Businesses and Organizations, State, Local or Tribal Government.

Average Expected Annual Number of activities: 50.

Respondents: Individuals responding to Department of State customer services evaluation requests.

Average Number of Respondents per Activity: 500.

Annual responses: 25,000.

Frequency of Response: Once per request.

Average minutes per response: 15 minutes.

Burden hours: 6,250.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid Office of Management and Budget control number.

Dated: March 3, 2011.

T.J. Furlong,

Director, Office of Directives Management, Department of State.

[Public Notice 7360]

Bureau of Educational and Cultural Affairs (ECA) Request for Grant Proposals: American Music Abroad

Announcement Type: New Cooperative Agreement.

Funding Opportunity Number: ECA/PE/C/CU-11-09.

Catalog of Federal Domestic Assistance Number: 19.415.

Key Dates:

Application Deadline: April 29, 2011.

Executive Summary: The Cultural Programs Division in the Office of Citizen Exchanges in the Bureau of Educational and Cultural Affairs (ECA) announces an open competition for a cooperative agreement to administer the American Music Abroad program. The program will consist of approximately ten tours for a select number of professional American artists in a wide range of uniquely American musical genres. The program is designed to broadly represent the excellence and diversity of traditional American music. Some examples of American music genres include, but are not limited to, contemporary urban music, hip hop, rock and roll, jazz and American roots music genres like country and western, bluegrass, zydeco, Cajun, and folk. The musicians selected for this program must demonstrate high artistic ability, evidence a strong commitment to education and exchange activities, and reflect the diversity of America and American music. They must be conversant with the broader aspects of contemporary American society and culture. International tours will include workshops, master classes, and outreach activities, in addition to performances.

U.S. public and non-profit organizations meeting the provisions described in Internal Revenue code section 26 U.S.C. 501(c)(3) may submit proposals that support the goals of the American Music Abroad program: to promote mutual understanding between the people of the United States and other countries, and cross-cultural awareness. The tours accomplish this by providing an opportunity for international audiences to experience American musical life, highlighting the contemporary music scene as well as our country's cultural history, and allowing American performers to learn about life and culture in the foreign host countries.

The Bureau is particularly interested in proposals for the administration of tours by American musicians representing diverse American music genres to countries with significant underserved populations that may not otherwise have access to American art forms, and countries with significant youth populations. The Bureau is also interested in proposals for projects that reach indigenous populations. No guarantee is made or implied that a grant will be awarded for tours to any particular region or that tours will be organized to any particular region.

To be eligible for this competition, all organizations must demonstrate a minimum of five years' experience successfully conducting international performing arts exchange programs in
