

and approval to the Secretary, respectively.

§ 155.1328 Periodic evaluation requirements.

(a) *General.* (1) The Secretary and the Secretary of the Treasury shall periodically evaluate the implementation of a program under a section 1332 waiver consistent with guidance published by the Secretary and the Secretary of the Treasury and any terms and conditions governing the section 1332 waiver.

(2) Each periodic evaluation must include a review of the annual report or reports submitted by the State in accordance with § 155.1324 that relate to the period of time covered by the evaluation.

Authority: Sec. 1332 of the Patient Protection and Affordable Care Act (Pub. L. 111-148).

Approved: February 22, 2011.

Donald M. Berwick,

Administrator, Centers for Medicare & Medicaid Services.

Approved: March 4, 2011.

Kathleen Sebelius,

Secretary of Health and Human Services.

Approved: March 7, 2011.

Michael F. Mundaca,

Assistant Secretary of the Treasury (Tax Policy).

BILLING CODE 4510-29-P, 4120-01-P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[EPA-R03-OAR-2011-0099; FRL-9280-2]

Approval and Promulgation of Air Quality Implementation Plans; Pennsylvania; Adoption of Control Techniques Guidelines for Flat Wood Paneling Surface Coating Processes

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to approve a State Implementation Plan (SIP) revision submitted by the Commonwealth of Pennsylvania (Pennsylvania). This SIP revision includes amendments to Chapter 121—General Provisions and Chapter 129—Standards for Sources of Title 25 of the Pennsylvania Code. Pennsylvania's SIP revision meets the requirement to adopt Reasonably Available Control Technology (RACT) for sources covered by EPA's Control Techniques Guidelines (CTG) standards for flat

wood paneling surface coating processes and will help Pennsylvania attain and maintain the National Ambient Air Quality Standard (NAAQS) for ozone. This action is being taken under the Clean Air Act (CAA).

DATES: Written comments must be received on or before April 13, 2011.

ADDRESSES: Submit your comments, identified by Docket ID Number EPA-R03-OAR-2011-0099 by one of the following methods:

A. <http://www.regulations.gov>. Follow the on-line instructions for submitting comments.

B. *E-mail:* fernandez.cristina@epa.gov.

C. *Mail:* EPA-R03-OAR-2011-0099, Cristina Fernandez, Associate Director, Office of Air Program Planning, Mailcode 3AP30, U.S. Environmental Protection Agency, Region III, 1650 Arch Street, Philadelphia, Pennsylvania 19103.

D. *Hand Delivery:* At the previously-listed EPA Region III address. Such deliveries are only accepted during the Docket's normal hours of operation, and special arrangements should be made for deliveries of boxed information.

Instructions: Direct your comments to Docket ID No. EPA-R03-OAR-2011-0099. EPA's policy is that all comments received will be included in the public docket without change, and may be made available online at <http://www.regulations.gov>, including any personal information provided, unless the comment includes information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Do not submit information that you consider to be CBI or otherwise protected through <http://www.regulations.gov> or e-mail. The <http://www.regulations.gov> Web site is an "anonymous access" system, which means EPA will not know your identity or contact information unless you provide it in the body of your comment. If you send an e-mail comment directly to EPA without going through <http://www.regulations.gov>, your e-mail address will be automatically captured and included as part of the comment that is placed in the public docket and made available on the Internet. If you submit an electronic comment, EPA recommends that you include your name and other contact information in the body of your comment and with any disk or CD-ROM you submit. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment. Electronic files should avoid the use of

special characters, any form of encryption, and be free of any defects or viruses.

Docket: All documents in the electronic docket are listed in the <http://www.regulations.gov> index. Although listed in the index, some information is not publicly available, *i.e.*, CBI or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the Internet and will be publicly available only in hard copy form. Publicly available docket materials are available either electronically in <http://www.regulations.gov> or in hard copy during normal business hours at the Air Protection Division, U.S. Environmental Protection Agency, Region III, 1650 Arch Street, Philadelphia, Pennsylvania 19103. Copies of the State submittal are available at the Pennsylvania Department of Environmental Protection, Bureau of Air Quality Control, P.O. Box 8468, 400 Market Street, Harrisburg, Pennsylvania 17105.

FOR FURTHER INFORMATION CONTACT: Irene Shandruk, (215) 814-2166, or by e-mail at shandruk.irene@epa.gov.

SUPPLEMENTARY INFORMATION: On January 4, 2011, the Pennsylvania Department of Environmental Protection (PADEP) submitted to EPA a SIP revision concerning the adoption of the CTG for flat wood paneling surface coating processes.

I. Background

Section 172(c)(1) of the CAA provides that SIPs for nonattainment areas must include reasonably available control measures (RACT), including RACT for sources of emissions. Section 182(b)(2)(A) provides that for certain nonattainment areas, States must revise their SIPs to include RACT for sources of volatile organic compounds (VOC) emissions covered by a CTG document issued after November 15, 1990 and prior to the area's date of attainment.

CTGs are intended to provide state and local air pollution control authorities information that should assist them in determining RACT for VOCs from various sources, including flat wood paneling surface coatings. In developing these CTGs, EPA, among other things, evaluated the sources of VOC emissions from this industry and the available control approaches for addressing these emissions, including the costs of such approaches. Based on available information and data, EPA provided recommendations for RACT for VOCs from flat wood paneling.

In June 1978, EPA published a CTG for flat wood paneling coatings (EPA-

450/2-78-034). This CTG discusses the nature of VOC emissions from this industry, available control technologies for addressing such emissions, the costs of available control options, and other items. EPA promulgated national standards of performance for new stationary sources New Source Performance Standards for the flat wood paneling industry and EPA also published a national emission standard for hazardous air pollutants (NESHAP) for this industry.

In 2006 and 2007, after conducting a review of currently existing state and local VOC emission reduction approaches for the flat wood paneling industry, reviewing the 1978 CTG and the NESHAP for this industry, and taking into account the information that has become available since then, EPA developed a new CTG for surface coating of flat wood paneling, entitled *Control Techniques Guidelines for Flat Wood Paneling Coatings* (Publication No. EPA 453/R-06-004). Flat wood paneling coatings means wood paneling products that are any interior, exterior, or tileboard panel to which a protective, decorative, or functional material or

layer has been applied. Flat wood paneling, like most wood products, are vulnerable to light, moisture, and insects. Coatings are used for three purposes: Protection, appearance, and surface modification. Surface coatings are applied to reduce potential damage from environmental elements such as moisture and temperature extremes and other climate-related hazards and from insect infestation. Coatings are also applied to enhance surfaces to make other coatings more effective. Finally, coatings are applied to improve the appearance of the wood product. Releases of VOCs occur during the coating process as the coatings are mixed or thinned, as they are applied to the substrate, and as they dry and the VOCs within the coating evaporate into the air.

II. Summary of SIP Revision

On January 4, 2011, PADEP submitted to EPA a SIP revision concerning the adoption of the CTG for flat wood paneling surface coating processes. EPA develops CTGs as guidance on control requirements for source categories. States can follow the CTGs or adopt

more restrictive standards. Pennsylvania has adopted EPA's CTG standards for flat wood paneling surface coating processes. These regulations are in Chapter 121—General Provisions and in Chapter 129—Standards for Sources, in Title 25 of the Pennsylvania Code. Specifically, this revision amends the existing regulations at sections 121.1, 129.51, 129.66, and adds new section 129.52c. Several definitions were added in section 121.1 and section 129.51 was amended to extend coverage to flat wood paneling surface coating processes. New section 129.52c includes VOC emission limits, work practices, and recordkeeping and reporting requirements, all of which are consistent with EPA's CTG for flat wood paneling surface coating processes. The emission limits of VOCs for flat wood paneling surface coatings are shown in Table 1. These emission limits apply if the total actual VOC emissions from all flat wood paneling surface coating operations at the facility are equal to or greater than 15 pounds (6.8 kilograms) per day, before consideration of controls.

TABLE 1—EMISSION LIMITS OF VOCs FOR FLAT WOOD PANELING SURFACE COATINGS

Surface coatings, inks, or adhesives applied to the following flat wood paneling categories	Should meet one of these emission limits	
	lb VOC/gal coating solids	g VOC/liter coating solids
Printed interior panels made of hardwood, plywood, or thin particleboard	2.9	350
Natural finish hardwood plywood panels	2.9	350
Class II finishes on hardboard panels	2.9	350
Tileboards	2.9	350
Exterior siding	2.9	350

III. Proposed Action

EPA is proposing to approve Pennsylvania's SIP revision for adoption of the CTG standards for flat wood paneling surface coating processes. EPA is soliciting public comments on the issues discussed in this document. These comments will be considered before taking final action.

IV. Statutory and Executive Order Reviews

Under the CAA, the Administrator is required to approve a SIP submission that complies with the provisions of the CAA and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA's role is to approve state choices, provided that they meet the criteria of the CAA. Accordingly, this action merely proposes to approve state law as meeting Federal requirements and does not impose additional requirements

beyond those imposed by state law. For that reason, this proposed action:

- Is not a "significant regulatory action" subject to review by the Office of Management and Budget under Executive Order 12866 (58 FR 51735, October 4, 1993);
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4);
- Does not have Federalism implications as specified in Executive

Order 13132 (64 FR 43255, August 10, 1999);

- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
 - Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
 - Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the CAA; and
 - Does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).
- In addition, this proposed rule concerning Pennsylvania's adoption of a

CTG for flat wood paneling surface coating processes does not have tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), because the SIP is not approved to apply in Indian country located in the state, and EPA notes that it will not impose substantial direct costs on tribal governments or preempt tribal law.

Approval and Promulgation of Air Quality Implementation Plans; Virginia; Revisions to the Open Burning Regulations

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA proposes to approve the State Implementation Plan (SIP) revision submitted by the Commonwealth of Virginia. The revisions recodify the open burning regulations which are currently in the Virginia SIP. There are no substantive changes to the rule. In the Final Rules section of this **Federal Register**, EPA is approving Virginia's SIP submittal as a direct final rule without prior proposal because the Agency views this as a noncontroversial submittal and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this action, no further activity is contemplated. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period. Any parties interested in commenting on this action should do so at this time.

DATES: Comments must be received in writing by April 13, 2011.

ADDRESSES: Submit your comments, identified by Docket ID Number EPA-R03-OAR-2010-0903 by one of the following methods:

A. *http://www.regulations.gov.* Follow the on-line instructions for submitting comments.

B. *E-mail: frankford.harold@epa.gov.*

C. *Mail: EPA-R03-OAR-2010-0902, Harold A. Frankford, Air Protection Division, Mailcode 3AP00, U.S. Environmental Protection Agency, Region III, 1650 Arch Street, Philadelphia, Pennsylvania 19103.*

D. *Hand Delivery:* At the previously-listed EPA Region III address. Such deliveries are only accepted during the Docket's normal hours of operation, and special arrangements should be made for deliveries of boxed information.

Instructions: Direct your comments to Docket ID No. EPA-R03-OAR-2010-0903. EPA's policy is that all comments received will be included in the public docket without change, and may be made available online at *http://www.regulations.gov*, including any personal information provided, unless the comment includes information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Do not submit information that you consider to be CBI or otherwise protected through *http://www.regulations.gov* or e-mail. The *http://www.regulations.gov* Web site is an "anonymous access" system, which means EPA will not know your identity or contact information unless you provide it in the body of your comment. If you send an e-mail comment directly to EPA without going through *http://www.regulations.gov*, your e-mail address will be automatically captured and included as part of the comment that is placed in the public docket and made available on the Internet. If you submit an electronic comment, EPA recommends that you include your name and other contact information in the body of your comment and with any disk or CD-ROM you submit. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment. Electronic files should avoid the use of special characters, any form of encryption, and be free of any defects or viruses.

Docket: All documents in the electronic docket are listed in the *http://www.regulations.gov* index. Although listed in the index, some information is not publicly available, *i.e.*, CBI or other information whose disclosure is restricted by statute. Certain other material, such as

copyrighted material, is not placed on the Internet and will be publicly available only in hard copy form. Publicly available docket materials are available either electronically in *http://www.regulations.gov* or in hard copy during normal business hours at the Air Protection Division, U.S. Environmental Protection Agency, Region III, 1650 Arch Street, Philadelphia, Pennsylvania 19103. Copies of the State submittal are available at the Virginia Department of Environmental Quality, 629 East Main Street, Richmond, Virginia 23219.

FOR FURTHER INFORMATION CONTACT: Harold A. Frankford, (215) 814-2108, or by e-mail at *frankford.harold@epa.gov*.

SUPPLEMENTARY INFORMATION: For further information, please see the information provided in the direct final action, with the same title, that is located in the "Rules and Regulations" section of this **Federal Register** publication. Please note that if EPA receives adverse comment on an amendment, paragraph, or section of this rule and if that provision may be severed from the remainder of the rule, EPA may adopt as final those provisions of the rule that are not the subject of an adverse comment.

Dated: March 1, 2011.

Proposed Flood Elevation Determinations

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Proposed rule; correction.

SUMMARY: On November 9, 2010, FEMA published in the **Federal Register** a proposed rule that included erroneous Base Flood Elevation (BFE) location descriptions for the Cartecay River in Gilmer County, Georgia. The location description for the proposed BFE of 1,290 feet, referenced to the North American Vertical Datum of 1988, should have located the proposed BFE as being approximately 1.12 miles upstream of Holt Bridge Road; and the location description for the proposed
