

may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 9th day of March 2011.

Kevin Shea,

Acting Administrator, Animal and Plant Health Inspection Service.

[FR Doc. 2011-5957 Filed 3-14-11; 8:45 am]

BILLING CODE 3410-34-P

DEPARTMENT OF AGRICULTURE

Animal and Plant Health Inspection Service

[Docket No. APHIS-2011-0001]

Notice of Request for Approval of an Information Collection; National Animal Health Monitoring System; Needs Assessments

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: New information collection; comment request.

SUMMARY: In accordance with the Paperwork Reduction Act, this notice announces the Animal and Plant Health Inspection Service's intention to initiate an information collection to support the research and development phase of surveys entitled National Animal Health Monitoring System needs assessments.

DATES: We will consider all comments that we receive on or before May 16, 2011.

ADDRESSES: You may submit comments by either of the following methods:

- **Federal eRulemaking Portal:** Go to <http://www.regulations.gov/fdmspublic/component/main?main=DocketDetail&d=APHIS-2011-0001> to submit or view comments and to view supporting and related materials available electronically.

- **Postal Mail/Commercial Delivery:** Please send one copy of your comment to Docket No. APHIS-2011-0001, Regulatory Analysis and Development, PPD, APHIS, Station 3A-03.8, 4700 River Road, Unit 118, Riverdale, MD 20737-1238. Please state that your comment refers to Docket No. APHIS-2011-0001.

Reading Room: You may read any comments that we receive on this docket in our reading room. The reading room is located in room 1141 of the USDA South Building, 14th Street and Independence Avenue, SW., Washington, DC. Normal reading room

hours are 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. To be sure someone is there to help you, please call (202) 690-2817 before coming.

Other Information: Additional information about APHIS and its programs is available on the Internet at <http://www.aphis.usda.gov>.

FOR FURTHER INFORMATION CONTACT: For information on the Needs Assessment study, contact Mr. Chris Quatrano, Industry Analyst, Centers for Epidemiology and Animal Health, VS, APHIS, 2150 Centre Avenue, Building B MS 2E7, Fort Collins, CO 80526; (970) 494-7207. For copies of more detailed information on the information collection, contact Mrs. Celeste Sickles, APHIS' Information Collection Coordinator, at (301) 851-2908.

SUPPLEMENTARY INFORMATION: *Title:* National Animal Health Monitoring System; Needs Assessments.

OMB Number: 0579-xxxx.

Type of Request: Approval of a new information collection.

Abstract: Under the Animal Health Protection Act (7 U.S.C. 8301 *et seq.*), the Animal and Plant Health Inspection Service (APHIS) of the United States Department of Agriculture (USDA) is authorized, among other things, to protect the health of our Nation's livestock and poultry populations by preventing the introduction and interstate spread of serious diseases and pests of livestock and for eradicating such diseases from the United States when feasible. In connection with this mission, APHIS operates the National Animal Health Monitoring System (NAHMS), which collects nationally representative, statistically valid, and scientifically sound data on the prevalence and economic importance of livestock diseases and associated risk factors. These data will be used by the NAHMS program to:

- Identify the highest priority issues to examine during subsequent commodity surveys;
- Understand current knowledge gaps in the industry;
- Determine the proper scope of future NAHMS studies for each commodity;
- Set objectives for upcoming NAHMS studies;
- Increase response rates through the inclusion of important and timely issues; and
- Improve final report quality and relevance to industry/respondent needs.

Collection and dissemination of animal and poultry health data is mandated by 7 U.S.C. 391, the Animal Industry Act of 1884, which established

the precursor of APHIS. In connection with the mission, APHIS, Veterinary Services is requesting approval to perform multiple needs assessments to help plan upcoming studies.

The purpose of administering needs assessments prior to the design phase of NAHMS studies is to gather producer, veterinary, and industry representatives' opinions, which help determine the focus and scope of NAHMS' studies. This will help strengthen the NAHMS program through collection of timely and relevant information. Needs assessments ensure that the NAHMS program is driven by producer and industry interests and that the studies and reports produced by NAHMS are meeting the needs of the public. No other entity/source is collecting and analyzing data to identify important information needs to be addressed by NAHMS studies.

Needs assessments may be administered to focus groups, industry groups, veterinary associations, or special interest groups. Assessments may be done in person (focus groups), via U.S. mail or via the Internet. Depending on the specific circumstances of the industry being surveyed and the best method to contact respondents, one or more of these methods may be used.

NAHMS will use the information collected during these needs assessment studies to focus on the objectives of its national studies. Producer, veterinary, and industry representatives' summarized opinions may be published in information sheets announcing the upcoming study and objectives of the study. Participation in all NAHMS studies is voluntary.

We are asking the Office of Management and Budget (OMB) to approve the use of these needs assessment surveys for three years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

- (1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;
- (2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;
- (3) Enhance the quality, utility, and clarity of the information to be collected; and
- (4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic,

mechanical, and other collection technologies; *e.g.*, permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.740909 hours per response.

Respondents: Focus groups, industry groups, veterinary associations, or special interest groups involved with the swine and dairy industries.

Estimated annual number of respondents: 2,200.

Estimated annual number of responses per respondent: 0.12136.

Estimated annual number of responses: 2,200.

Estimated total annual burden on respondents: 163 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 9th day of March 2011.

Kevin Shea,

Acting Administrator, Animal and Plant Health Inspection Service.

BILLING CODE 3410-34-P

DEPARTMENT OF AGRICULTURE

Animal and Plant Health Inspection Service

[Docket No. APHIS-2010-0123]

Notice of Request for Extension of Approval of an Information Collection; Black Stem Rust; Identification Requirements for Addition of Rust-Resistant Varieties

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Extension of approval of an information collection; comment request.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice announces the Animal and Plant Health Inspection Service's intention to request an extension of approval of an information collection associated with the black stem rust quarantine and regulations.

DATES: We will consider all comments that we receive on or before May 16, 2011.

ADDRESSES: You may submit comments by either of the following methods:

- *Federal eRulemaking Portal:* Go to <http://www.regulations.gov/fdmspublic/>

component/main?main=DocketDetail&d=APHIS-2010-0123 to submit or view comments and to view supporting and related materials available electronically.

• *Postal Mail/Commercial Delivery:* Please send one copy of your comment to Docket No. APHIS-2010-0123, Regulatory Analysis and Development, PPD, APHIS, Station 3A-03.8, 4700 River Road, Unit 118, Riverdale, MD 20737-1238. Please state that your comment refers to Docket No. APHIS-2010-0123.

Reading Room: You may read any comments that we receive on this docket in our reading room. The reading room is located in room 1141 of the USDA South Building, 14th Street and Independence Avenue, SW., Washington, DC. Normal reading room hours are 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. To be sure someone is there to help you, please call (202) 690-2817 before coming.

Other Information: Additional information about APHIS and its programs is available on the Internet at <http://www.aphis.usda.gov>.

FOR FURTHER INFORMATION CONTACT: For information regarding the black stem rust quarantine and regulations, contact Dr. Prakash Hebbar, National Program Manager, Emergency and Domestic Programs, PPQ, APHIS, 4700 River Road, Unit 160, Riverdale, MD 20737-1231; (301) 734-5717. For copies of more detailed information on the information collection, contact Mrs. Celeste Sickles, APHIS' Information Collection Coordinator, at (301) 851-2908.

SUPPLEMENTARY INFORMATION:

Title: Black Stem Rust; Identification Requirements for Addition of Rust-Resistant Varieties.

OMB Number: 0579-0186.

Type of Request: Extension of approval of an information collection.

Abstract: The Plant Protection Act (7 U.S.C. 7701 *et seq.*) authorizes the Secretary of Agriculture to prohibit or restrict the importation, entry, or interstate movement of plants and plant products to prevent the introduction of plant pests into the United States or their dissemination within the United States.

Black stem rust is one of the most destructive plant diseases of small grains that is known to exist in the United States. The disease is caused by a fungus that reduces the quality and yield of infected wheat, oat, barley, and rye crops by robbing host plants of food and water. In addition to infecting small grains, the fungus lives on a variety of

alternate host plants that are species of the genera *Berberis*, *Mahoberberis*, and *Mahonia*. The fungus is spread from host to host by wind-borne spores.

The black stem rust quarantine and regulations, contained in 7 CFR 301.38 through 301.38-8 (referred to below as the regulations), quarantine the conterminous 48 States and the District of Columbia and govern the interstate movement of certain plants of the genera *Berberis*, *Mahoberberis*, and *Mahonia*, known as barberry plants. The species of these plants are categorized as either rust-resistant or rust-susceptible. Rust-resistant plants do not pose a risk of spreading black stem rust or of contributing to the development of new races of the rust; rust-susceptible plants do pose such risks.

Persons who request the Animal and Plant Health Inspection Service to add a variety to the list of rust-resistant barberry varieties in the regulations must provide the Agency with a description of the variety, including a written description and color pictures that can be used by State nursery inspectors to clearly identify the variety and distinguish it from other varieties. This requirement helps to ensure that State plant inspectors can clearly determine whether plants moving into or through their States are rust-resistant varieties listed in 7 CFR 301.38-2.

We are asking the Office of Management and Budget (OMB) to approve our use of this information collection activity for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; *e.g.*, permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 4 hours per response.

Respondents: Nurseries.
