

Correction

In the proposed rule published at 75 FR 61377, in the October 5, 2010, issue of the **Federal Register**, FEMA published a table under the authority of 44 CFR 67.4. The table, entitled "Palo Pinto County, Texas, and Incorporated Areas" addressed the flooding source Pollard Creek Tributary No. 5.

The proposed rule listed the location description for the proposed BFE of 1,032 feet, referenced to the North American Vertical Datum of 1988, as being approximately 850 feet upstream of 23rd Street. The correct location of this proposed BFE is just upstream of Northeast 23rd Street. The proposed rule also listed the location description for the proposed BFE of 1,049 feet, referenced to the North American Vertical Datum of 1988, as being just upstream of 23rd Street Northeast. The correct location of this proposed BFE is approximately 850 feet upstream of 23rd Street.

This proposed rule correction is reopening the comment period for Pollard Creek Tributary No. 5, for the locations of the proposed BFEs of 1,032 feet and 1,049 feet, both referenced to the North American Vertical Datum of 1988, due to the error in listing the location descriptions for these BFEs in the previously published proposed rule at 75 FR 61377.

Proposed Flood Elevation Determinations

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Proposed rule; correction.

SUMMARY: On April 14, 2010, FEMA published in the **Federal Register** a proposed rule that contained an erroneous table. This notice provides corrections to that table, to be used in lieu of the information published at 75 FR 19320. The table provided here represents the flooding sources, location of referenced elevations, effective and modified elevations, and communities affected for Sumter County, Alabama, and Incorporated Areas. Specifically, it addresses the following flooding sources: Factory Creek (backwater effects from Tombigbee River), Fenache Creek (backwater effects from Tombigbee River), Folsom Branch (backwater effects from Tombigbee River), High Run (backwater effects from Tombigbee River), Jones Creek (backwater effects from Tombigbee River), Noxubee River (backwater effects from Tombigbee River), Sandy Creek, Sucarnoochee River, Tombigbee River, Tombigbee River Tributary 13 (backwater effects from Tombigbee River), Tombigbee River Tributary 16 (backwater effects from Tombigbee River), Tombigbee River Tributary 7 (backwater effects from Tombigbee River), Tombigbee River Tributary 8 (backwater effects from Tombigbee River), Toomsaba Creek, and Whiterock Creek (backwater effects from Sucarnoochee River).

DATES: Comments are to be submitted on or before June 14, 2011.

ADDRESSES: You may submit comments, identified by Docket No. FEMA-B-1110, to Luis Rodriguez, Chief, Engineering Management Branch, Federal Insurance and Mitigation Administration, Federal Emergency Management Agency, 500 C Street, SW., Washington, DC 20472, (202) 646-4064 or (e-mail) luis.rodriquez1@dhs.gov.

FOR FURTHER INFORMATION CONTACT: Luis Rodriguez, Chief, Engineering Management Branch, Federal Insurance and Mitigation Administration, Federal Emergency Management Agency, 500 C Street, SW., Washington, DC 20472, (202) 646-4064 or (e-mail) luis.rodriquez1@dhs.gov.

SUPPLEMENTARY INFORMATION: The Federal Emergency Management Agency (FEMA) publishes proposed determinations of Base (1% annual-chance) Flood Elevations (BFEs) and modified BFEs for communities participating in the National Flood Insurance Program (NFIP), in accordance with section 110 of the

Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR 67.4(a).

These proposed BFEs and modified BFEs, together with the floodplain management criteria required by 44 CFR 60.3, are minimum requirements. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations are used to meet the floodplain management requirements of the NFIP and also are used to calculate the appropriate flood insurance premium rates for new buildings built after these elevations are made final, and for the contents in those buildings.

Corrections

In the proposed rule published at 75 FR 19321, in the April 14, 2010, issue of the **Federal Register**, FEMA published a table under the authority of 44 CFR 67.4. The table, entitled "Sumter County, Alabama, and Incorporated Areas" addressed the following flooding sources: Factory Creek (Backwater effects from Tombigbee River), Fenache Creek (Backwater effects from Tombigbee River), Folsom Branch (Backwater effects from Tombigbee River), High Run (Backwater effects from Tombigbee River), Jones Creek (Backwater effects from Tombigbee River), Noxubee River (Backwater effects from Tombigbee River), Sandy Creek, Sucarnoochee River, Tombigbee River, Tombigbee River Trib 13 (Backwater effects from Tombigbee River), Tombigbee River Trib 16 (Backwater effects from Tombigbee River), Tombigbee River Trib 7 (Backwater effects from Tombigbee River), Tombigbee River Trib 8 (Backwater effects from Tombigbee River), Toomsaba Creek, and Whiterock Creek (Backwater effects from Sucarnoochee River). That table contained inaccurate information as to the location of referenced elevation, effective and modified elevation in feet, and/or communities affected for that flooding source. In this notice, FEMA is publishing a table containing the accurate information, to address these prior errors. The information provided below should be used in lieu of that previously published.

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[MB Docket No. 09-52; FCC 11-28]

Policies To Promote Rural Radio Service and To Streamline Allotment and Assignment Procedures

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: In this document, the Commission adopted a Second Further Notice of Proposed Rulemaking (SFNPRM), in which it announced that it wished to develop a more comprehensive record regarding measures to assist Federally recognized Native American Tribes and Alaska Native Villages (Tribes) in obtaining commercial FM radio station authorizations. Specifically, the Commission sought comment on the use of threshold qualifications for Tribes applying for commercial FM radio channel allotments that were added to the Table of Allotments using the Tribal Priority adopted by the Commission in the First Report and Order (First R&O) in this proceeding. The Commission also sought further comment on whether

a Tribal Bidding Credit would accomplish the goal of increasing Tribal ownership of commercial stations broadcasting to Tribal Lands, and sought comment on the financial and other barriers facing Tribes wishing to enter the commercial broadcast arena. **DATES:** Comments may be filed on or before April 15, 2011 and reply comments may be filed on or before May 16, 2011. Written comments on the Paperwork Reduction Act proposed information collection requirements must be submitted by the public, Office of Management and Budget (OMB), and other interested parties on or before May 16, 2011.

ADDRESSES: You may submit comments, identified by MB Docket No. 09-52, by any of the following methods:

SUPPLEMENTARY INFORMATION: This is a summary of the Commission's Second Further Notice of Proposed Rulemaking, FCC 11-28, adopted March 3, 2011, and released March 3, 2011.

Initial Paperwork Reduction Act of 1995 Analysis

The SFNPRM contains potential information collection requirements subject to the PRA, Public Law 104-13. OMB, the general public, and other Federal agencies are invited to comment on the potential new and modified information collection requirements contained in this SFNPRM. If the information collection requirements are adopted, the Commission will submit the appropriate documents to OMB for review under section 3507(d) of the PRA and OMB, the general public, and other Federal agencies will again be invited to comment on the new and modified information collection requirements adopted by the Commission.

Public and agency comments on the potential proposed information collection requirements are due May 16, 2011. Comments should address: (a) Whether the proposed collection of information is necessary for the proper
