

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. sections 151,154(i), 301, 303, 332 and 337.

Total Annual Burden: 500 hours.

Total Annual Cost: N/A.

Privacy Act Impact Assessment: N/A.

Nature and Extent of Confidentiality: In general, there is no need for confidentiality. However, petitioners may request confidential treatment of their information pursuant to 47 CFR 0.459 of the Commission's rules.

Needs and Uses: The Commission adopted a *Third Report and Order*, PS Docket No. 06–229, FCC 11–6 that requires OMB approval for a new information collection that requires public safety broadband networks to employ the Long Term Evolution (LTE) broadband standard, specifically at least 3GPP Standard E–UTRA Release 8 and associated Evolved Packet Core (EPC). The *Third Report and Order* further requires that these networks support certain LTE interfaces. These requirements were designed to ensure that networks operated in this spectrum band are interoperable with one another.

The *Third Report and Order* also requires each operator of a 700 MHz public safety broadband network to submit a certification to the Commission's Public Safety and Homeland Security Bureau (Bureau), prior to network deployment, that its network will support the required LTE interfaces. This requirement will enable the Bureau to monitor network deployment and ensure that networks are supporting the interfaces necessary to achieve interoperability.

The Commission is seeking OMB approval for this new information collection which requires operators of public safety broadband networks to submit a certification to the Commission.

Accurate maintenance of this data is vital in developing a regulatory framework for this network. Since such a network is vital for public safety and homeland security, its proper operation must be assured.

FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collection(s) Being Reviewed by the Federal Communications Commission, Comments Requested

March 11, 2011.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s), as required by the Paperwork Reduction Act (PRA) of 1995, 44 U.S.C. 3501–3520. Comments are requested concerning: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology, and (e) ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a currently valid OMB control number.

DATES: Written Paperwork Reduction Act (PRA) comments should be submitted on or before May 16, 2011. If you anticipate that you will be submitting PRA comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the FCC contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to the Federal Communications Commission via e-mail to PRA@fcc.gov.

FOR FURTHER INFORMATION CONTACT: Judith B. Herman, Office of Managing Director, (202) 418–0214. For additional information, contact Judith B. Herman, OMD, 202–418–0214 or e-mail judith.b.herman@fcc.gov.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060–0715.

Title: Telecommunications Carriers' Use of Customer Proprietary Network

Information (CPNI) and Other Customer Information, CC Docket No. 96–115.

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit.

Number of Respondents and Responses: 6,017 respondents; 137,256,175 responses.

Estimated Time per Response: .002 hours–50 hours.

Frequency of Response: On occasion, one time, annual and biennial reporting requirements, recordkeeping requirement, and third party disclosure requirements.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. 151, 154(i), 154(j), 201–205, 208, 222, 303(r), and 403.

Total Annual Burden: 350,704 hours.

Total Annual Cost: \$3,000,000.

Privacy Act Impact Assessment: N/A.

Nature and Extent of Confidentiality: The Commission is not requesting that respondents submit confidential information. Any respondent who submits information to the Commission, which the respondent believes is confidential, may request confidential treatment of such information under 47 CFR 0.459 of the Commission's rules.

Needs and Uses: The Commission will submit this expiring information collection after this comment period to the Office of Management and Budget (OMB) to obtain the three year clearance from them. There is no change in the number of respondents, burden hours and annual costs. The number of responses increased by 50 due to recalculations of the various estimates in item 12 of the supporting statement. There is no change to the reporting, recordkeeping and/or third party disclosure requirements.

This information collection implements the statutory obligations of section 222 of the Communications Act of 1934, as amended. These regulations impose safeguards to protect customers' CPNI against unauthorized access and disclosure. In March 2007, the Commission adopted rules, which focused on the efforts of communications service providers to prevent pretexting. These rules require providers of communications services to adopt additional privacy safeguards that, the Commission believes, will sharply limit pretexters' ability to obtain unauthorized access to the type of personal customer information from carriers that the Commission regulates. In addition, the Commission's rules help ensure that law enforcement will

have the necessary tools to investigate and enforce prohibitions on illegal access to customers records.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0004.

Title: Sections 1.1307 and 1.1311, Guidelines for Evaluating the Environmental Effects of Radiofrequency, Second Memorandum Opinion and Order, ET Docket No. 93-62.

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Individuals or households, business or other for-profit, not-for-profit institutions and state, local or tribal government.

Number of Respondents and Responses: 190,905 respondents; 190,905 responses.

Estimated Time per Response: .36 hours (average).

Frequency of Response: On occasion reporting requirement and third party disclosure requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. sections 154, 302, 303, and 307.

Total Annual Burden: 69,463 hours.

Total Annual Cost: \$10,355,260.

Privacy Act Impact Assessment: Yes.

The Commission has a System of Records, FCC/WTB-1, "Wireless Services Licensing Records," which covers the personally identifiable information (PII) that individual

applicants may include in their submission for licenses or grants of equipment authorization. At such time as the Commission revises this System of Records Notice (SORN), the Commission will conduct a Privacy Impact Assessment (PIA) and publish the revised SORN in the **Federal Register**. In addition, the Commission will post a copy of both the PIA and the SORN on the FCC's Privacy Web page.

Nature and Extent of Confidentiality:

There is minimal exemption from the Freedom of Information Act (FOIA), 5 U.S.C. 552(b)(4), and 47 CFR 0.459 of the Commission's rules, that is granted for trade secrets, which may be submitted to the Commission as part of the documentation of test results. No other assurances of confidentiality are provided to respondents.

Needs and Uses: The Commission will submit this expiring information collection during this comment period to the Office of Management and Budget (OMB) to obtain the full, three year clearance from them. The Commission is requesting approval for an extension (no change in the reporting, recordkeeping and/or third party disclosure requirements). The Commission is reporting a 94,469 hour and a \$18,336,443 reduction adjustment in burden. This reduction is due to fewer responses than the last time this collection was submitted to OMB for review and approval.

This information collection is a result of responsibility placed on the FCC by the National Environmental Policy Act (NEPA) of 1969. NEPA requires that each federal agency evaluate the impact of "major actions significantly affecting the quality of the human environment." It is the FCC's opinion that this is the most efficient and reasonable method of complying with NEPA with regard to the environmental issue of radiofrequency radiation from FCC-regulated transmitters.

The Commission requires applicants to submit limited information during the licensing and authorization process. In many services, the Commission simply requires licensees to provide reliable service to specific geographic areas, but does not require licensees to file site-specific information. It does not appear that the FCC's present licensing methods can provide public notification of site-specific information without imposing new and significant additional burden to the Commission's applicants. However, we note that applicants with the greatest potential to exceed the Commission's exposure limits are required to perform an environmental evaluation as part of the licensing and authorization process.
