SUPPLEMENTARY INFORMATION:

Title: SNAP-Ed Connection Resource Sharing Form.

OMB Number: PRA# 0518-0031.

Expiration Date: Three years from date of approval.

Type of Request: Renewal of existing data collection from SNAP-Ed providers, data collection previously titled the Food Stamp Nutrition Connection Sharing Form.

Abstract: This voluntary "Sharing Form" gives SNAP-Ed providers the opportunity to share information about resources that they have developed or

used. Data collected using this form help the Food and Nutrition Information Center (FNIC) identify existing nutrition education and training resources for review and inclusion in an online database. Educators can search this database via the SNAP-Ed Connection Web site <http://snap.nal.usda.gov>. In 2001, the United States Department of Agriculture's (USDA) Food and Nutrition Service established the Food Stamp Nutrition Connection to improve access to Food Stamp Program nutrition resources. Educators nationwide can use this site to identify curricula, lesson plans, research, training tools and participant materials. In 2008, the Food Stamp Program was renamed the Supplemental Nutrition Assistance Program and the Food Stamp Nutrition Connection Web site became the SNAP-Ed Connection. Developed and maintained at the National Agricultural Library's FNIC, this resource system helps educators find the tools and information they need to provide quality nutrition education for low-income audiences.

The Sharing Form is available for completion online at the SNAP-Ed Connection Web site. Individuals may also print the form and return it via fax or mail. The form consists of four parts. These various sections include: Part 1 consisting of three questions about the responder; Part 2 with nine questions about the resource; Part 3 with five questions about the resource development; and Part 4 with six questions about ordering/obtaining the resource. Responders are asked to complete only relevant sections of the form. Instructions about which sections to complete, based on one's relationship to the resource, are provided in Part 1. For instance, those that use the resource but are neither its developer or distributor would only complete Parts 1 and 2.

This form enables FNIC to inform nutrition educators of existing nutrition education and training materials targeting low-income Americans. This identification of existing materials will help educators spend their monies wisely by reducing duplication of efforts in nutrition education material development and by aiding in identifying areas of need for nutrition education resource development.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 19 minutes per response.

Respondents: SNAP-Ed providers.

Estimated Number of Respondents: 50 per year.

Estimated Total Annual Burden on Respondents: 16 hrs.

Copies of this information collection and related instructions may be obtained without charge from the SNAP-Ed Connection Sharing Center at http://www.nal.usda.gov/fsn/sharing_center_submission.shtml.

Foreign-Trade Zones Board

[Docket 19–2011]

Foreign-Trade Zone 137—Washington Dulles International Airport, VA Area; Application for Reorganization Under Alternative Site Framework

An application has been submitted to the Foreign-Trade Zones (FTZ) Board (the Board) by the Washington Dulles Foreign Trade Zone Inc., grantee of FTZ 137, requesting authority to reorganize the zone under the alternative site framework (ASF) adopted by the Board (74 FR 1170, 1/12/09 (correction 74 FR 3987, 1/22/09); 75 FR 71069–71070, 11/

22/10). The ASF is an option for grantees for the establishment or reorganization of general-purpose zones and can permit significantly greater flexibility in the designation of new “usage-driven” FTZ sites for operators/users located within a grantee's “service area” in the context of the Board's standard 2,000-acre activation limit for a general-purpose zone project. The application was submitted pursuant to the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a–81u), and the regulations of the Board (15 CFR part 400). It was formally filed on March 14, 2011.

FTZ 137 was approved by the Board on April 17, 1987 (Board Order 350, 52 FR 13489, 4/23/87) and expanded on March 12, 1999 (Board Order 1029, 64 FR 14213, 3/24/99) and on April 5, 2001 (Board Order 1152, 66 FR 19424, 4/16/01).

The current zone project includes the following sites: *Site 1* (243 acres)—Washington Dulles International Airport, Aviation Drive, Dulles; *Site 2* (3.5 acres)—Victory Van Corporation facilities, 110 Terminal Drive, Sterling; *Site 3* (142 acres)—Arcola complex, located at the intersection of Rt. 606 & 621, Dulles; *Site 4* (183 acres)—Ft. Collier Industrial Park (167 acres), located at the intersection of Rt. 11 & Ft. Collier Road, Winchester; and, Fortessa, Inc. (16 acres) within the Stonewall Industrial Park, 402 McGhee Road, Winchester; *Site 5* (64 acres)—Winchester Regional Airport industrial park, Airport Road/Rt. 645 & Pegasus Court, Winchester; and, *Site 6* (155 acres)—Wrights Run complex, intersection of U.S. Rt. 522 & Rt. 624, Winchester.

The grantee's proposed service area under the ASF would be Frederick, Clarke, Loudoun, Fairfax, Fauquier, Prince William, and Arlington Counties and the City of Alexandria, Virginia, as described in the application. If approved, the grantee would be able to serve sites throughout the service area based on companies' needs for FTZ designation. The proposed service area is within and adjacent to the Washington Dulles International Airport Customs and Border Protection port of entry.

The applicant is requesting authority to reorganize its existing zone project under the ASF as follows: renumber the non-contiguous portion (16 acres) of Site 4 as Site 7; Sites 1–6 would become “magnet” sites; and, Site 7 would become a usage-driven site. The ASF allows for the possible exemption of one magnet site from the “sunset” time limits that generally apply to sites under the
