

20. In this regard, we note that there are fundamental differences between the Commission's process and that of the Antitrust Agencies. The Commission's review process is public and parties can intervene and submit comments, while the review process at the Antitrust Agencies is nonpublic and closed. The Commission's merger decision is based on a factual record shaped not only by the applicant, but by intervenors and subject to analysis by Commission staff. The merger decisions by the Antitrust Agencies are based on information submitted by the applicant, non-public information gathered by the agency staff, as well as the economic analysis performed by agency staff. The Commission seeks comment on whether the differences between the Commission's process for considering applications under §§ 203 and 205 of the FPA and the process used by the Antitrust Agencies for considering mergers affect the extent to which the Commission should adopt the 2010 Guidelines.

21. Finally, the Commission also seeks comment on what impact the 2010 Guidelines should have, if any, on the Commission's analysis of horizontal market power in its electric market-based rate program.

IV. Comment Procedures

22. The Commission invites interested persons to submit comments, and other information on the matters and issues identified in this notice. Comments are due May 23, 2011. The Commission accepts most standard word processing formats. Documents created electronically using word processing software should be filed in native applications or print-to-PDF format and not in a scanned format. It is not necessary to separately intervene again in a subdocket related to a compliance filing if you have previously intervened in the same docket. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant. In reference to filings initiating a new proceeding, interventions or protests submitted on or before the comment deadline need not be served on persons other than the Applicant.

As it relates to any qualifying facility filings, the notices of self-certification [or self-recertification] listed above, do not institute a proceeding regarding qualifying facility status. A notice of self-certification [or self-recertification] simply provides notification that the entity making the filing has determined the facility named in the notice meets the applicable criteria to be a qualifying facility. Intervention and/or protest do not lie in dockets that are qualifying facility self-certifications or self-recertifications. Any person seeking to challenge such qualifying facility status may do so by filing a motion pursuant to 18 CFR 292.207(d)(iii). Intervention and protests may be filed in response to notices of qualifying facility dockets other than self-certifications and self-recertifications.

The Commission encourages electronic submission of protests and interventions in lieu of paper, using the FERC Online links at <http://www.ferc.gov>. To facilitate electronic service, persons with Internet access who will eFile a document and/or be listed as a contact for an intervenor must create and validate an eRegistration account using the eRegistration link. Select the eFiling link to log on and submit the intervention or protests.

Persons unable to file electronically should submit an original and 14 copies

of the intervention or protest to the Federal Energy Regulatory Commission, 888 First St., NE., Washington, DC 20426.

The filings in the above proceedings are accessible in the Commission's eLibrary system by clicking on the appropriate link in the above list. They are also available for review in the Commission's Public Reference Room in Washington, DC. There is an eSubscription link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s).
