Title: Nutrition Assistance in Farmers Markets: Understanding Current Operations.

OMB Number: 0584-NEW.

Expiration Date of Approval: Not yet determined.

Type of Request: New collection.

Abstract: The USDA, Food and Nutrition Service (FNS), is pursuing several initiatives to improve access to healthy foods among the general public and nutrition assistance program participants. Among these are steps to support the availability of farmers' markets and direct access to farm products. FNS' overall objective is to promote direct-to-consumer agriculture through farmers' markets and provide more opportunities for nutrition assistance program participants to take advantage of this source of fresh produce. In order to meet this objective, FNS needs to understand how the federal nutrition assistance programs operate in the diverse settings represented by farmers' markets and the factors that influence farmers' markets to participate in nutrition assistance programs. To this end, FNS is conducting a survey with a representative sample of farmers' markets from four strata that are of particular interest to FNS:

1. SNAP authorized farmers' markets that redeemed benefits during the 2010 season;

2. SNAP authorized farmers' markets that did not redeem benefits during the 2010 season;

3. Farmers' markets SNAP-authorized for one or more of the 2006 to 2009 seasons, but not authorized in 2010; and

4. Farmers' markets that have never been authorized to redeem SNAP benefits.

The data collection activities to be undertaken subject to this notice include:

- The survey will be administered to farmers' market managers represented in the four categories of farmers markets above. Data collection will occur either by mail, web or phone depending on the preference of the market manager.

- To supplement the survey data, four focus groups will be conducted with SNAP recipients to provide consumer

perspectives on farmers' market operations. Two groups will be conducted with recipients that are current farmers' market shoppers, and two groups will be conducted with recipients that are not farmers' market shoppers.

Affected Public: Respondent groups identified include: (1) Business-for-profit (Farmers' Market Managers) and (2) Individuals/Households (SNAP recipients).

Estimated Number of Respondents: The total estimated number of respondents is 2636. This includes 2544 Farmers' Market Managers (80% who will complete interviews); 92 SNAP recipients (32 will participate in the focus group discussions).

Estimated Number of Responses per Respondent: Farmers' market managers

will complete the survey one time. SNAP recipients will complete the focus group once.

Estimated Total Annual Responses: 2636.

Estimated time per Response:

Farmers' market managers working in SNAP-authorized farmers' markets in 2010 or previously SNAP-authorized farmers' markets will take approximately 25 minutes (0.4167 hours) to complete the survey. Farmers' market managers working in never SNAP-authorized farmers' markets will take approximately 20 minutes (0.3333 hours) to complete the survey. Each SNAP recipient will participate in the focus group discussion for approximately 2 hours.

Estimated Total Annual Burden on Respondents: 829 hours.
